### Chapter 2070

When Song Rongshi was severed by the Song family in the past, it was not like this.

But at that time he was not so hesitated and helpless.

He felt that he had nothing left, at least his beloved woman.

But now it is different, even if Ning Lexia is still there, he feels as if he has nothing.

"Mr. Song." Assistant Zeng Han walked to him, staring sadly at the man who was squatting underground with his head in his arms.

Song Rongshi looked up, her peachy eyes were blank and empty.

"President Song, I'm sorry, this is my resignation application. I have worked in your hands for six years. When I leave, I still want to hand it to you in person." Zeng Han passed the resignation documents in his hand.

Song Rongshi glanced at the file and pulled Zeng Han by the collar in disbelief, "Even you are leaving me, no matter how bad I am, I still have Ou Lansheng. How many people are squeezing their scalp and wanting to be my assistant. Why, Oulansheng's assistant can't satisfy you. You just have that damn ability. Don't be too lofty, because I can accommodate you here."

"no."

Zeng Han bowed his head, "Oulansheng is a large-scale beauty company in China. At the beginning, you were able to choose me as

your assistant. Of course I am very proud. I want to go because of my girlfriend and my parents asked me to resign. You may not know. , Your cheating is well known and you have become a public enemy of all women. My family members say that you are behaving badly. If you stay by your side, maybe you will learn from you. My girlfriend even said it. She would rather I earn less money, at least to feel safe."

"what."

Song Rongshi seemed to hear the most absurd joke, his entire face flushed, "Don't you know what my character is? You have been with me for so many years, and you don't know what kind of person I am."

Zeng Han was silent for a while, and pursed his lips: "Before, I thought you valued love and righteousness. You can ignore the

worldly perspective for your feelings. Later, I felt that you had no sense of responsibility. Frankly speaking, I was just an assistant. I have persuaded you. The fact is that you really cheated right after your wife had just given birth to a child. I told you that you should take some money to send Miss Ning away from the start."

"Enough, stop talking."

Song Rongshi felt his temples were severely stabbed, "You go, I approve your resignation application."

"Thank you." Zeng Han nodded, "Ms. Song, I would like to advise you to go back to the company as soon as possible and stop guarding Ms. Ning every day. Your cheating has offended Chinese women, and Ou Lansheng has earned Hua Guo again. Women's money, if the matter is not settled by

public relations as soon as possible, the consequences will be disastrous."

Song Rong rubbed his eyebrows upset.

Zeng Han moved his legs, "You may not know that Oulansheng suffered the biggest word-of-mouth crisis in history because of you this time. Many cosmetics companies want to share the cake of Oulansheng, especially Yuexinyan. Launched new skin care products, and also engaged in joint e-commerce activities on New Year' s Day. In particular, Lin Fanyue, as a victim, was deeply sympathized by women. This week, Yue Xinyan continued to rank among the top three best-selling cosmetics companies."

"Skin care products?" Song Rongshi was stunned. "Aren't they mainly engaged in beauty makeup?"

"Beauty makeup has already achieved a good reputation in the circle. Taking advantage of this opportunity, they have begun to transform and launch skin care products."

Zeng Han sighed, "Lin Fanyue as a formulator has a very good reputation around the world. Everyone is willing to pay. Her new skin care product was originally developed for Oulansheng for you a few days ago, but then you fell out. After all, you didn't sign the contract at the beginning, it was just a verbal agreement."

Song Rongshi was stunned.

Vaguely, I just remembered this in my mind.

At the beginning, when Yuexinyan Company made small achievements, Lin Fanyue asked Oulansheng if she needed a new product, so she could help with the research and development of the team.

At that time, when the two of them were feeling strong, he still teased that her formula is worth hundreds of millions. What she said at that time, said to help her husband, just send it away. When the time comes, his skin care company and Her beauty company dominates the world, becoming the most powerful couple in the beauty industry.

Those words seem to be lingering in the ears, but things have changed.

It took a long time before he heard his hoarse voice, "Isn't Lin Fanyue in the hospital? She can still manage the company?"

"At present, Jiang Qingxin is in charge. Jiang Qingxin has managed the Hesong Group before. She is more radical in management and operation, and she is also very

experienced. In addition, she has a wide network of contacts. Many manufacturers want to take the initiative to make friends with her. I am afraid that even the strategic goals have changed."

Song Rongshi didn't speak anymore.

Upon seeing this, Zeng Han left silently.

Song Rongshi did not know how long he stood downstairs.

In the ward, Ning Lexia waited for a long time but did not see Song Rong when he came back.

Until the nurse came over and gave her a needle for an infusion.

Today, a nurse with a new face, after a stabbing once and failing to fix it, Ning Lexia lost her temper, "Call your head nurse to come and fix me. Doesn't she know who I am? Any messy people come and take me as Little White Mouse, don't you want to do it anymore."

The nurse's face was cold, "If you don't tell me, I also know the identity of Xiaosan."

"Who is the junior, you are tired of life, right." Ning Lexia immediately sat up straight, her scarred face looked mean and vicious, "I will have someone fire you right away."

If in the past, the little nurse would be scared, but now she doesn't want to bear it anymore, "You don't really think that you can marry the heir of the Song family group, you think too much, the Song family doesn't

t like you at all. This morning, the Song family The group has issued a statement that Song Junyue will be the new heir of the Song Group in the future, and the shares will be divided. Song Rongshi will not be able to distribute a dime."

Ning Lexia's brain exploded and she shouted excitedly, "Impossible."

"Why did I lie to you? The whole hospital is discussing this matter. The whole country of China knows that Song Rongshi cheated during his wife gave birth. The Song Group removed him from his position. We knew you were a junior. It' s just that I didn' t dare to say when I was afraid of offending Song Rong.

The little nurse sneered, "We women hate you as a junior, you deserve to be infertile for life."

"What infertility?"

"Oh, you don't know it, you have a miscarriage and your body is damaged. It is almost impossible to get pregnant in the future."

"Go away, you go away."

Ning Lexia was not lightly stimulated, and like a madman, she was so excited that she broke the infusion bottle on the ground.

But she didn't seem to hear it.

The voice of a nurse is all in her head.

Song Junyue became the heir of the Song Group?

Song Rongshi was kicked out of the Song Group?

Oh my god, how could this happen.

The one she wants to marry is Song Rongshi who can inherit the Song family group.

Without the Song Group, Song Rongshi was different from before.

She is going crazy.

So, she got four limbs paralyzed, disfigured her face, and got infertility. In the end, Song Rongshi returned to the original place?

At that moment, Ning Lexia's throat became hot, and blood spurted out angrily.
