Chapter 4526

Refining Sect!

An airship was suspended in the sky above the Refining Sect!

Master Tiechui and many disciples of the Refining Sect all ran out, looking at the airship in the air with a puzzled look on their faces!

Several elders of the Refining Sect jumped up and surrounded the airship!

“Who is coming? You have trespassed into my Refining Sect territory. Leave quickly, otherwise don’t blame me for being rude.”

An elder of the Refining Sect shouted angrily!

David looked at the elders of the Refining Sect in front of him and smiled!

These people were all rescued by David from Wen Haotian!

“Elders, long time no see, how are you!” Chen

Ping slowly walked out of the airship!

When they saw that it was David, several elders of the Weapon Refining Sect were immediately delighted and surrounded him: “It turned out to be Mr. Chen. I didn’t expect you to come. Come to the sect and have a chat!”

Several elders surrounded David and came to the main hall of the Weapon Refining Sect!

At this time, the Weapon Refining Sect has undergone great changes under the construction of everyone. Buildings have sprung up one after another. It is much stronger than when David first came!

Master Tiechui was also excited when he saw David!

“Mr. Chen, I really didn’t expect you to come back. I’m sorry for not welcoming you from afar. Please forgive me!”

Master Tiechui was also very polite to David!

After all, the Weapon Refining Sect can be what it is now, thanks to David!

Everyone surrounded David and entered the main hall, and they were very enthusiastic about David!

Ji Yun looked at this scene and admired David a little more!

The cultivators in the Weapon Refining Sect are all strong, and Ji Yun has also heard of the name of the Weapon Refining Sect!

But now that he came to the Weapon Refining Sect, David was treated so well!

This shocked Ji Yun's heart!

Ji Yun didn't know the origin of David's relationship with the Refining Sect, so he didn't understand why David was so popular in the Refining Sect!

"Mr. Chen, you must have something to ask for when you come to my Refining Sect. Just tell me what you want. As long as we can do it, we will definitely do it!" Master

Tiechui asked David!

"Master Tiechui, to be honest, I came to the Refining Sect to repair the Dragon Slaying Sword in my hand."

"My Dragon Slaying Sword is damaged, and the sword spirit is also injured. I can't leave the sword body. I want to ask Master Jian to help repair it!"

David took out his Dragon Slaying Sword and said!

Hearing David mention Master Jian, Master Tiechui was slightly stunned, and then his expression became a little helpless!

The others also bowed their heads slightly and said nothing!

Seeing this scene, David frowned and said, "Master Tiechui, is there something wrong with Jian Lao?"

"Hey, Mr. Chen, you don't know, since you absorbed the sword energy of Xijiantan last time and left, the sword puppets in Xijiantan have been rampant, almost destroying the entire Xijiantan." "

Jian Lao has not appeared in Xijiantan for a long time. We have also sent people into Xijiantan to look for him, but we can't find Jian Lao at all, and the people who took the photos have not come up."

"Now Xijiantan has been sealed by us, and no one dares to approach it!"

Master Tiechui sighed and said!

David seemed a little embarrassed when he heard it. At that time, he was in Xijiantan and absorbed all the sword energy for the Dragon Slaying Sword. Jian Lao also helped to turn the sword spirit Zhongli into a human form!

But who knew that it would become like this now. If Jian Lao is in danger, David will blame himself for the rest of his life!

After all, this is all because of helping himself!

"Master Tiechui, can I go to Xijiantan to have a look?"

David asked!

"Mr. Chen, the Sword Washing Pond has been sealed, and we spent a lot of money to hire a formation master."

"If the seal is opened, the sword puppets in the Sword Washing Pond will rush out, and it will be very troublesome."

"And if we want to seal the Sword Washing Pond again, we have to spend a lot of money to hire a formation master. Our Weapon Refining Sect has just recovered, and we really can't hire a formation master."

Master Iron Hammer told David about the difficulties!

Chapter 4527

"Master Tiechui, you don't need to spend money to find a master of formations to seal the Sword Washing Pond. I am a master of formations myself, and my formation skills are more powerful than those of the general formation masters in the Heavenly Realm."

David hurriedly said!

"You know the art of formations?" Tiechui looked at David and seemed a little incredible!

“Of course...”

After David finished speaking, he immediately pinched his fingers and drew a few formation patterns in the void! Buzz

!

With a buzzing sound, a flame formation was formed around the entire hall!

“Master Tiechui, I have laid out a formation around this hall. If someone wants to attack this hall, the formation will be opened!”

David said to Master Tiechui!

Everyone was shocked and excited to see that David actually knew the art of formations!

“Well, Mr. Chen, follow me!”

Tiechui took David and walked towards the Sword Washing Pond!

As everyone got closer and closer to the Sword Washing Pond, the surroundings were filled with evil spirits!

“Could it be that this Sword Washing Pond has been injected with evil spirits?”

David frowned slightly and thought to himself!

When he entered the Sword Washing Pond, although there were sword puppets in the Sword Washing Pond, there was no evil spirit.

But now, when you get close to the Sword Washing Pond, you can feel the evil spirit. It is very likely that there are evil spirits in the Sword Washing Pond, so the sword puppets in the Sword Washing Pond will go crazy and attack everyone!

When everyone got closer, David discovered that the surface of the Sword Washing Pond was covered with a layer of faint white light. Through the white light, the water in the pond was actually black!

And from the Sword Washing Pond, the water in the pond was constantly boiling, and a breath of air kept impacting the white light!

David just glanced and immediately saw that the formation of the Sword Washing Pond was about to fail!

If he didn't come to the Refining Sect, it would take less than a few days for the formation of the Sword Washing Pond to be broken!

David did not dare to hesitate at all, and made a gesture with both hands, and then put his hands directly into the water!

A series of array patterns spread from David's palm to the surroundings!

It only took a moment for the water in the Sword Washing Pond to calm down, and countless golden lights around the Sword Washing Pond enveloped the entire Sword Washing Pond!

Seeing that David had laid such a large array as soon as he made a move, the people of the Refining Weapon Sect looked at David with even more admiration!

"Master Tiechui, I'll go to the Sword Washing Pond to see what's going on, and by the way, find the trace of Jian Lao."

"If I haven't walked out of the Sword Washing Pond in three days, you will close this place, and no one should get close!"

David said to Master Tiechui!

"Mr. Chen, this...is this too dangerous?"

Master Tiechui frowned slightly!

"It's okay, I've been to the Sword Washing Pond once, so I'm familiar with it!"

David smiled slightly!

"Mr. Chen..." Ji Yun shouted with a worried face!

"Don't worry, I'll be fine."

David patted Ji Yun on the shoulder, and then plunged into the Sword Washing Pond!

Most of the sword energy in the Sword Washing Pond was absorbed by David last time, so when he entered the Sword Washing Pond, David was not attacked by the sword energy!

David swam all the way to the depths of the Sword Washing Pond, but the Sword Washing Pond was dim and dark, and the water was also black, which blocked David's vision and he couldn't see the situation in the distance at all!

David could only open the Tianming Eye, so that his vision would not be affected by the light and the water!

Just as David opened the Tianming Eye, he was startled and saw a large group of sword puppets swimming in front of him!

The number of these sword puppets was astonishing, and they also exuded a violent aura, which was obviously affected by the evil spirit!

Fortunately, David opened the Tianming Eye, otherwise he would have plunged into those sword puppets!

Chapter 4528

David used the Heavenly Eye to dodge the large group of sword puppets. He needed to find the whereabouts of Jian Lao first!

Only by finding Jian Lao can we understand what happened to Xijiantan and why it became like this?

Where did so many sword puppets come from?

Although there were sword puppets in Xijiantan before, there were not so many sword puppets. Why were the sword puppets so rampant, and where did the evil spirit come from?

David dodged the groups of sword puppets and began to swim towards the depths of Xijiantan little by little!

But David was careful and was still discovered by a sword puppet!

After discovering David, the sword puppet actually burst out a ray of light and rushed towards David with sword intent all over his body!

David was slightly stunned. He didn't expect that this sword puppet could actually have sword intent. It was incredible!

David held the Dragon Slaying Sword and went directly to the sword puppet!

A sharp sword light flashed, and the sword intent also surged out of David's body! Puff

!

David killed the sword puppet with one sword, and at the same time, the sword intent in the sword puppet was instantly absorbed by the Dragon Slashing Sword!

Seeing this scene, David was a little surprised. He didn't expect that the Dragon Slashing Sword could actively absorb the sword intent in this sword washing pond!

If this goes on, if he kills enough sword puppets, the Dragon Slashing Sword can be restored!

Can the sword spirit Zhongli also break away from the Dragon Slashing Sword again?

However, looking at the densely packed sword puppets, although David wanted to rush over and kill them randomly!

But in the end, he held back. Regardless of whether he had the ability or not, killing so many sword puppets at once, even if he had the ability, would take a lot of time!

And this time he entered the Sword Washing Pond, not only to kill the sword puppets, but to find the old sword and ask what happened in the Sword Washing Pond!

David continued to go to the depths of the Sword Washing Pond, while dodging a large number of sword puppets!

When encountering one or two or three sword puppets, David would kill them without hesitation!

Unconsciously, David had already gone deep into the Sword Washing Pond, and the evil spirit around him became more and more dense!

However the deeper he went, the fewer sword puppets there were, but the strength of the sword puppets increased at a geometric rate!

At the beginning, David was able to kill three or four sword puppets in an instant!

But as he went deeper, it took some effort to kill a sword puppet!

Fortunately, the sword intent in the sword puppet also increased significantly!

Soon, David felt the breath of the array talisman, which made David frown slightly!

The last time he was at the bottom of the Xijian Pond, he did find the array, and he also got the forging fragments in the array!

In this way, the array at the bottom of the pond should have been broken, so why was there still the breath of the array talisman?

David was very puzzled, so he accelerated the speed downstream!

When David found the bottom of the pond, he stepped on the mud and sand at the bottom of the pond, but the breath of the array talisman became more and more intense!

“Is there another array at the bottom of this pond?”

David looked around in confusion!

Just when David was confused, a huge suction force suddenly appeared under his feet, as if someone had pulled his feet in an instant!

David was startled, and he stood up from the ground, trying to get rid of the suction force!

But the suction force was very huge, and a huge vortex was formed in the entire Xijian Pond!

David’s body was being sucked in quickly!

“Damn, what’s going on? How come there is such a strong suction force at the bottom of the Xijian Pond, and a huge vortex?”

David seemed a little flustered, not knowing what was going on with the Xijian Pond!

David began to fall down, as if the place where he was was not the bottom of the pond.

No matter how David struggled, he could not get rid of this huge suction force at all!

In the end, David could only accept his fate, closed his eyes, and let the suction force take him into the mud and sand at the bottom of the pond!

Chapter 4529

After an unknown amount of time, David felt his body relax. Without the pressure of the pool and the breath of the sword puppet around him!

After opening his eyes, David realized that he was no longer in the water, but in a strange space!

Looking up, David could clearly see the mud and sand above his head and the flowing water!

However, these mud and water seemed to be blocked by something, and they did not fall at all, as if floating in the air!

“Where is this place? Is there another space at the bottom of the Sword Washing Pond?”

David looked around, and it was all white. Here, David could not distinguish between space and time!

Even if he released his spiritual consciousness, David still could not tell the direction!

David could only walk carefully, but soon, a dark red light lit up not far in front of David!

Seeing this, David hurried towards the light! When

David arrived at the place where the light was shining, he couldn't help but be stunned!

“Is this a talisman?”

David was a little surprised, because in front of him, the light was actually a talisman mark. The talisman mark was not a formation pattern, but more like a text!

David looked at it for a long time, but he couldn't understand it at all, so he could only move forward!

Soon, the talisman mark also appeared in front, but the words engraved on the talisman mark were different!

David found seven such talisman marks in a row, but David didn't know what they meant!

“What the hell is this place? What are these talisman marks?”

David cursed!

“Boy, didn't you find that these seven marks formed a circle?”

At this time, the Red Cloud Demon Lord spoke!

“Circle?” David was stunned: “I didn't seem to be turning in a circle just now, I was just moving forward.”

David didn't feel that he was turning in circles, he just kept walking forward, and then he found these talisman marks, how could it be a circle?

"You have lost your way here, how do you know that you are always moving forward?"

The Red Cloud Demon Lord smiled faintly!

David heard it and instantly understood that he was lost in this space, so even if he walked in a circle, he couldn't notice it at all!

"Heavenly Eye..."

David opened the Heavenly Eye. Here, the scenery around is the same, and it is easy to get lost. David plans to open the Heavenly Eye to see if he can see through everything here!

When the Heavenly Eye was opened, David's eyes really changed slowly. David found himself in a secret room!

The secret room is not big, but only a few hundred meters away!

But David just walked here for a long time, and it was obvious that he had been drawing circles!

With the opening of the Heavenly Eye, David also saw that the seven talisman marks really formed a circle!

"Qian, Kan, Zhen..."

David looked carefully and found that although these talisman marks were in a circle, they were not randomly formed!

Instead, they were placed in this secret room according to the directions of the Five Elements and Eight Diagrams!

"Five Elements and Eight Diagrams Formation? If you want to form the Five Elements and Eight Diagrams Formation, you must have eight marks. Why are there only seven?"

David was a little surprised, frowned slightly, and looked carefully!

He found that although the Tianming Eye was opened, there was an area in the middle of the secret room that could not be seen through at all!

David walked towards the middle, and soon a wave of light appeared in front of him!

Reaching out to touch it, the light wave spread out like a water ripple!

“Is there a formation within a formation?”

David frowned, because the light wave just now was obviously formed by a formation, and it was impossible for such a light wave to appear in this secret room by itself!

Full Read Online **Chapter 4530** of the novel **A Man Like None Other**

Chapter 4530

David gently touched the light wave with both hands, and a divine pattern mark lit up in David’s palm!

It only took a moment for the light wave to slowly fade, and the center position became clear!

When the light wave completely disappeared, David was surprised to find that in the center, Jian Lao and several elders of the Refining Weapon Sect were trapped inside!
Seeing

David’s sudden appearance, these people were very excited!

“Jian Lao...”

Seeing this, David hurriedly rushed towards Jian Lao!

No wonder Jian Lao had not appeared for so long, and the people who took out the photos to look for him also disappeared after entering the Sword Washing Pond! It

turned out that they were all trapped here. If David didn’t come, I don’t know when they would be trapped!

“Mr. Chen, don’t get close...”

Seeing this, Jian Lao hurriedly shouted!

But it was too late!

I saw that from under the feet of Jian Lao and the others, a talisman mark suddenly burst out with light, and the light was extremely dazzling!

David only felt his body lighten, and was directly knocked out by a force!

While being knocked out, the other seven talisman marks burst out with light at the same time!

At this moment, a five-element Bagua formation slowly formed!

Eight rays of light gathered and wrapped David in it!

Jian Lao and the others saw this, and they were shocked one by one!

Just as the eight rays of light gathered on David, the entire secret room shook violently!

Those mud and pond water that seemed to be suspended in the air fell down like turbulent waves!

The secret room was filled up in an instant, and what was even more deadly was that countless sword puppets were alarmed, as if they were stimulated, and swarmed towards everyone!

David's body was wrapped in the light and couldn't move at all!

Jian Lao and the others had regained their freedom, but facing the dark sword puppets, several people also showed bitterness!

"Follow me to kill these sword puppets, don't let them get close to Mr. Chen!"

After saying this, Jian Lao took the sword and led the way!

Several other elders of the Refining Sect also shouted and rushed into the group of sword puppets!

In an instant, the air waves rolled, and the spiritual light shone dazzlingly!

Under this attack, countless sword puppets turned into sword intents and ran around in the sword washing pond!

Jian Lao and his men had no time to absorb these sword intents and refine them, so they could only kill them desperately!

David was wrapped in the light of the Bagua formation, and the whole person seemed to fall into a deep sleep and did not move!

Fortunately, none of the sword puppets dared to approach David, and they all avoided the light from a distance!

"Ten thousand swords slash..."

Jian Lao's eyes burst with a strong fighting spirit, and then ten thousand swords on his body were fired at the same time!

Behind him, the void shook for a while, and then white sword beams appeared, all of which were very sharp!

With Jian Lao's finger, ten thousand sword beams trembled, and then swarmed towards those sword puppets!

Old Jian was angry. He had been trapped here for such a long time, and everyone in the Weapon Refining Sect thought that Old Jian was finished!

Countless sword beams collided with those sword puppets!

For a moment, the aura in the Sword Washing Pond surged.

Outside the Sword Washing Pond, Master Tiechui and the others looked at the turbulent Sword Washing Pond, and their faces turned livid!

None of them knew what happened in the Sword Washing Pond!

The noise was so loud that even the entire Weapon Refining Sect seemed to be shaking!

David was quietly wrapped in the light, as if his body was in a hot spring!

"So comfortable..."

David closed his eyes slightly, and the whole person was very relaxed!

Just as David was relaxing, a few black threads visible to the naked eye in the light were slowly penetrating into David's body!

David's body was still motionless, with a bit of a smile on his face!

But just when those black threads were about to enter David's body, David suddenly opened his eyes!
