

Chapter 1151 Choice

Liam knew Lindy had spoken the brutal truth; there was no exaggeration.

Therefore, he fell deep into contemplation.

According to Lindy, he could only choose the second option.

The method was very risky.

In the process of transmuting the dark aura, even the slightest misstep would trigger a catastrophe. It was possible he would lose his sanity and that his body would explode.

But Liam couldn't abandon this harrowing choice.

He had to risk everything to improve his strength. Only with increased strength could he rescue his family from Adamson's clutches!

Moreover, Liam believed he was still undergoing the trial. As Vogel had claimed, even if he died in the trial, he wouldn't truly die in the real world.

However, what Liam didn't know was that upon arriving here, the beings he had encountered were all real. They were no longer illusory constructs of the trial. And Liam had already gotten out of the illusions of the trial.

If Liam died here, he would indeed face death in real life!

But this truth eluded Liam. He swiftly made up his mind. Staring at Lindy, he asked, "What should I do to transform

the dark aura into my power?"

He had decided to use the second method.

Seeing Liam's grave determination, Lindy knew he had no other choice. So she told Liam the way.

"It's not as arduous as you imagine. Yet neither is it simple. You only need to absorb the dark aura into your body. But absorbing it directly will devour your mind, reducing you to a murderous madman. Of course, if unlucky, you'll explode outright! If you fail, you'll never be yourself again. The method of devouring the dark aura isn't a secret, as there are actually numerous ways to do it. The true difficulty is resisting the dark aura's onslaught while absorbing it. The whole process is agonizingly painful. And after this stage, it's still far from over. You must remain conscious throughout; that's the ultimate challenge!" she said.

After a pause, she continued, "From what I know, the most common method involves inflicting self-harm using external forces. When your body is in pain, your consciousness remains alert, keeping you awake. But this method, however easy to describe, is nightmarishly hard to execute, demanding superhuman endurance against excruciating torment and an incredibly hardy physique just to survive the ordeal."

After hearing this method, Liam couldn't help but swallow nervously.

What Lindy said sounded like inhuman torture. It was more daunting than he could fathom!

But Liam didn't change his mind.

For at that moment, he vividly recalled the day Adamson had taken Julie away.

The searing powerlessness burnt freshly in his memory!

Chapter 1151 Choice

 +120 Points at most

He never wished to experience that again.

To truly protect his family, he was ready to pay any price!

Liam's hunger for strength ultimately overcame his doubts.
He nodded, determined to try Lindy's harrowing method.
