

Chapter 1166 The Battle Against Zephyr Ape

Liam had rarely handled bladed weapons such as swords in his previous battles. He usually relied on hand-to-hand combat.

Additionally, in the current era on Blue Star, where firearms reigned supreme, training in cold weapons had been disregarded.

This unfamiliarity made Liam feel a bit awkward wielding the Shadow Sword. His moves were pretty simple. It was merely slashes and chops.

He executed the sword swings simply, devoid of any intricate techniques.

Due to his inexperience, Liam had had several attempts before he hit the Zephyr Ape.

Even though the hit was only a grazing one, it inflicted significant damage on the beast's body!

The Zephyr Ape experienced a sensation akin to being pierced by countless needles, an agonizing pain.

It bellowed, its eyes a mixture of bewilderment and rage.

Among the primogem beasts, their power increased the longer they survived.

Yet, here was this troublesome human, Liam, displaying a staggering surge in strength after merely a brief absence!

More than just shocked, the Zephyr Ape was enraged.

It issued a furious roar, no longer content to merely toy with Liam, and launched its formidable Origin Technique.

Suddenly, the immense form of the Zephyr Ape towered over Liam, nearly blocking the sky.

Its strength leveled up, nearing that of a seventh-rank creature.

Although Liam had proven himself a formidable adversary, the Zephyr Ape remained unshakably confident in its own prowess.

It found it hard to believe that Liam posed any real threat. In Zephyr Ape's view, Liam was still the same frail figure it could have easily crushed before.

What the Zephyr Ape failed to realize was that Liam had recently vanquished a true seventh-rank creature from the Blood Clan.

Fueled by its augmented size and strength, the Zephyr Ape looked down upon Liam and spoke in a menacing tone. "Human, there's no escape for you this time! Even if you try to hide in Shadow Valley again, I will find you and end you!"

Liam tilted his head up to meet the gaze of the towering Zephyr Ape, a smirk playing on his lips. "No need to worry. I'm not the one who'll be running today. It's you who should be scared."

Upon hearing Liam's retort, the Zephyr Ape was furious.

It couldn't believe it had just been humiliated by a human.

The idea was absurd to the Zephyr Ape, a creature that had long dominated the maritime secret realm, emboldened by the innate advantages of its species.

It had always swelled with pride and never anticipated facing such an affront from a human.

Enraged, the Zephyr Ape thumped its chest furiously and began to throw punches at Liam.

The terrifying force of its fists slammed into the ground, carving out vast craters one after the other.

Evading a series of blows, Liam swiftly drew his Lightning Wings from his pack and strapped them on. Within seconds, he soared into the air.

Powered by the flight and the speed enhancement of the Lightning Wings, Liam's agility skyrocketed, allowing him to effortlessly weave through the barrage of attacks. He halted only when he reached the height of the Zephyr Ape's head.

Clutching the Shadow Sword tightly, Liam utilized the swift speed from his Lightning Wings to dart directly in front of the Zephyr Ape's eyes.

With a quick thrust of his sword, Liam struck the creature's eyes, causing blood to stream down.

The Zephyr Ape clutched its eyes, howling in agony.

Despite its robust endurance, it was powerless to pursue Liam. With the Shadow Sword in his grip, Liam unleashed a series of fierce attacks, rendering the Zephyr Ape utterly defenseless.

Unrelenting, Liam exploited the ape's confusion to continuously strike its body.

The backlash was so intense that it numbed Liam's hands.

He delivered another blow, cutting deep into the muscle

of the Zephyr Ape's arm.

Observing the blood-drenched Zephyr Ape, Liam harbored no sympathy. He recognized that their clash was a battle for survival.

Suddenly, an idea struck Liam.

"The light element's special power doesn't seem to reject anything. Could I perhaps use it to enhance the blade of the Shadow Sword?" he muttered.
