

Chapter 1169 Meeting Townsend Again

Right after Liam swallowed the Shadow Flower, a dark energy instantly appeared.

The inky blackness enveloped Liam from head to toe.

But Liam was neither panicked nor surprised. He knew that this dark energy was just the pure essence of all shadow-based special powers.

Then, things played out just the way that Liam had predicted.

When he absorbed the shadow energy, the light element's special power within his body immediately rejected the foreign intrusion.

It was as if the light element's special power had a life of its own, desperately wanting to expel the shadow energy from his body by any means necessary.

But the shadow energy wasn't about to back down that easily. In fact, it fought back against the light element's special power with everything that it had.

However, since Liam had just absorbed the shadow energy, it hadn't really gained a foothold in his body yet. So, there was no way that it could overpower the light element's special power right now.

Soon enough, the light element's special power managed to forcibly eject and cast out all of the shadow energy from Liam's body.

It seemed that his attempt to awaken his special power of the shadow element had ended in failure.

Liam's expression turned grim. He was unhappy by this result.

To be honest, he hadn't expected to fail like this.

It seemed that if he wanted to awaken his special power of the shadow element, he needed to absorb a larger amount of shadow energy all at once. Also, it needed to be powerful enough to be able to contend with the light element's special power. That way, he could succeed.

However...

Liam thought about it for a moment. If his goal was just to fix the Shadow Sword, he could directly use something like the Shadow Flower, which contained a rich amount of shadow energy.

Frankly, the idea wasn't too far-fetched.

It was definitely worth a shot.

The problem was it wasn't going to be easy for Liam to pull it off right now.

He would have to seriously think this over and try again in the near future.

Since his attempt to awaken the special power of the shadow element had failed, Liam didn't bother trying it again.

He gathered his belongings and set off to find Laura and Shayla.

Using his Lightning Wings, Liam's speed was extremely

Chapter 1169 Meeting Townsend Ag 🎁 +120 Points at most fast.

It took him only half an hour to arrive at the small valley where he had last seen Laura and Shayla.

He scanned the area thoroughly, but there was no sign of them anywhere.

Liam furrowed his brow.

Had something bad happened to them?

A feeling of unease crept into his gut. Liam landed and began to meticulously examine the surroundings, looking for any clues as to what might have happened.

However, after a thorough search, he found no evidence of a fight or struggle.

A possibility came into his mind—maybe they had already left the secret realm.

After all, today was the second-to-last day of the opening of the maritime secret realm. After tomorrow, the realm was going to close.

That made sense since he hadn't had any contact with them since leaving them.

It was quite possible that they had left this place to go to the exit of the secret realm.

Although there was also the slight possibility that Laura and Shayla had been taken away by someone, Liam didn't really think that kind of thing would happen. Because aside from the Prescott family's team, there was only one other team left in the maritime secret realm.

The chances of Laura and Shayla being taken away were very low.

Chapter 1169 Meeting Townsend Ag 🎁 +120 Points at most

Of course, it wasn't that it was completely impossible.

But Liam just didn't think that it would happen.

With this in mind, his expression relaxed slightly. He glanced in the direction of the exit of the maritime secret realm, thinking that he might as well go there and check.

He used his Lightning Wings once more and rushed towards the exit.

Thanks to the speed of the Lightning Wings, Liam arrived at his destination in no time.

He landed and started his detailed search for the two.

He examined every part of the area closely, straining his eyes for any sign of Laura and Shayla.

But again, his search came up completely empty. It was like the two of them had completely vanished into thin air, leaving no trace behind.

Liam's expression turned grave as his mind started to race.

He had no idea what had happened to the two women.

If Shayla and Laura had been taken away by another team and they weren't hurt, that would be fine.

But if they had been treated unfairly or even harmed, Liam wouldn't mind wiping out another team!

Just as Liam was about to leave the area, something made him stop in his tracks.

The sight made his entire body tremble, shaking him to the core.

Liam's features twisted into a dark expression.

Because he saw Townsend.
