

## Chapter 1242 Entering The Cosmic Realm

When Liam followed Lancy toward the passage in the earth's core, he pulled out the jade pendant he had received from Lindy before.

To his amazement, the pendant glowed brighter the nearer he approached the passage.

It seemed the pendant was designed to mark a specific location.

Liam couldn't help but speculate.

He believed that once he entered the Cosmic realm, Lindy could track him using this pendant.

He marveled at the craftsmanship of the Primogem equipment makers from the Cosmic realm. Their skill in creating such a refined item capable of cosmic positioning was a testament to their prowess.

Shaking his head, Liam pocketed the pendant and proceeded alongside Lancy.

At a certain point, Lancy halted.

She then turned to Liam and said, "Well, I can only take you this far. You can go through the passage and walk straight ahead through a light wall to enter the Cosmic realm. I can't go any further. From here, you're on your own!"

Liam nodded appreciatively. He looked at Lancy and replied earnestly, "Lancy, thank you so much. Your help

Chapter 1242 Entering The Cosmic F 🎁 +120 Points at most  
has been invaluable, and I won't forget it! I'll fulfill our  
agreement as soon as I can. Don't worry. Once I become  
a Primogem Deity, I'll return to free you and Flame!"

Listening to his commitment made Lancy smile sweetly,  
her two prominent canine teeth enhancing her endearing  
expression.

She nodded with a grin and cheerfully said, "Okay! I'll wait  
for you here with Flame!"

After those words, Liam didn't linger a moment longer.  
With resolve, he entered the passage.

The passage stretched on, and Liam walked its length for  
a considerable time.

About an hour later, he finally arrived at the passage's end.

As Lancy had described, he found himself facing a  
magnificent wall of light at the end, which emitted a  
powerful, captivating glow.

Taking a deep breath, Liam steeled himself for what was  
to come.

He knew crossing this radiant barrier would mark his true  
entrance into the Cosmic realm.

Once he crossed, Blue Star would turn into a place he  
could only visit in his dreams.

With a determined step forward, Liam crossed the wall of  
light and was immediately enveloped by its brilliance.

The very next second, a deep sense of danger  
overwhelmed him.

He realized that the world around him had transformed  
drastically.

He could sense the presence of numerous powerful auras and forces not far from him.

It was clear these auras belonged to high-caliber masters, far surpassing Liam, who was a level-ten Primogem Warrior.

Liam frowned deeply, concern marking his features.

He hadn't anticipated encountering so many powerful beings at the exit of the passage.

What Liam didn't know was that the ascension of a level-ten Primogem Warrior to the Cosmic realm would trigger a bridge between the person's Celestial Realm and the Cosmic realm. That person's Celestial Realm would become highly visible. This would attract many formidable warriors.

After Liam stepped out of the passage, the aura of Blue Star turned into a mist and disappeared instantly, causing these powerful warriors to lose their target.

Despite the disappearance of Blue Star's aura, Liam remained very much present.

When these warriors realized they could not trace Blue Star's existence, their attention swiftly shifted to Liam.

Almost immediately, Liam felt himself become the target of multiple powerful auras.

Hostility emanated from these presences.

The owners of these auras were members of the notorious Blood Clan and the Saint Society.

The Holy Lord of the Saint Society on Blue Star had left a mark on Liam before his demise.

As soon as Liam entered the Cosmic realm, the mark was detected by both the Blood Clan and the Saint Society.

Liam was now a wanted man.

Capturing Liam would earn them a substantial reward from these warriors' leaders, and they were determined not to let Liam escape.

"You are courting death," they declared as they approached and encircled Liam.

Confronted by this formidable group, Liam felt as if he had been encased in ice, unable to move.

The overwhelming aura of his adversaries left him completely powerless.

Liam's complexion turned ashen, and despair gripped him.

Was he to face death upon his arrival in the Cosmic realm?

Just then, a flash of sword light cleaved through the air, pushing back the enemies surrounding Liam.

Following this, a crisp voice rang out, tinged with anger.

"I'd like to see who dares to bully the younger generation of our Human Clan!"
