

Chapter 1259 The Siblings

Liam's movements paused. Then, he looked behind him.

He saw two Human Clan's Primogem Warriors flying in his direction.

Neither of them hid the auras of their strength, so Liam saw their strength information at a glance. They were both level-ten nine-star Primogem Warriors.

Moreover, their names also appeared in front of Liam.

The man was Shiloh Gibson, and the woman was Trudy Gibson.

Since they had the same last name, Liam thought they must be siblings.

After the Gibson siblings approached Liam, Shiloh asked, "Are you also here to find the spark metal?"

Since Shiloh spoke to him very politely, Liam didn't show any coldness on his face. He nodded and replied, "Yes. I was tasked to find the spark metal."

Shiloh's face lit up. He looked Liam up and down a few more times. When he realized that Liam's strength was only on the tenth level with five stars, his expression slightly changed.

He hesitated for a while before reminding Liam kindly, "Buddy, your strength is probably not enough for you to complete the task. This place is very dangerous. That spark beast is not easy to deal with. Why don't you join us?"

Liam appreciated Shiloh's kindness. However, he didn't want to join them.

After all, with his strength, dealing with the spark beast was just a piece of cake.

Therefore, Liam refused Shiloh politely. "Thank you for your kindness. But I'm used to being alone. I don't feel comfortable working in a team. Besides, I can protect myself. So, don't worry about me."

Since Liam had a good impression of Shiloh, he also spoke politely.

Shiloh and Trudy were both stunned. They hadn't expected Liam to refuse their offer.

But they noticed that Liam was still young, so they understood.

Young people like Liam were naturally arrogant, thinking they were invincible. No wonder Liam had refused their kindness.

But Shiloh was a warm-hearted person. So, despite Liam's refusal, he still said, "Buddy, maybe you don't know. There is a spark beast nearby, and it's already at the peak of level ten. Even if my sister and I work together, we can barely fight against it. If you are willing to join us, we have a high chance of beating that spark beast and getting enough spark metal. Then, the three of us will divide all the spark metal equally. How about that? Think about it."

Shiloh's words made Liam realize that Shiloh had not invited him out of kindness. Shiloh and Trudy actually needed a teammate to complete the task.

However, he was a bit confused.

His strength was only at the tenth level with five stars. Although Shiloh and Trudy needed a teammate, they shouldn't settle for someone whose strength was weaker than theirs.

Thinking of this, Liam asked them directly.

Shiloh smiled and answered, "Actually, it's because I have a magical circle here that needs three people to activate. But don't worry. Once we start to fight with the spark beast, you don't need to do anything. Of course, we will still divide the spark metal equally."

Judging from Shiloh's sincere expression, Liam knew he was not playing tricks.

However, Liam did not answer immediately. He was silent for a while.

He was inwardly weighing up the pros and cons.

Trudy, who had been silent all the time, became a little impatient when she noticed that Liam was silent.

She frowned and said in a low voice, "If you are willing, then say yes. If not, say no directly. Don't just stand there silently. I think you can also tell that my brother is sincere. He even offered to divide the spark metal equally. Why are you still hesitant? Are you really a man? Just give us your answer now."

Shiloh frowned and scolded Trudy, "Trudy, stop it!"

Then, he looked at Liam with an apologetic expression and said, "I'm sorry. My sister is always hot-tempered and straightforward. She didn't mean it. Just don't take it to heart."

When Trudy saw Shiloh apologize to Liam, she felt angry.

Chapter 1259 The Siblings

 +120 Points at most

She snorted and said coldly, "Who do you think our Gibson family is? Do you think we will waste our time to harm a nobody like you? You are hesitant because you're afraid we won't give you your share of the spark metal, right? To tell you the truth, our Gibson family looks down on this kind of thing. We're only here because it's part of our training."

When Liam heard this, he looked at Trudy. He had just come to the Cosmic realm. He had never heard of the Gibson family.

Trudy looked at him with a proud face and continued, "We have Primogem Emperors in our Gibson family! I advise you to be more sensible and accept my brother's offer."
