

## Chapter 1291 The Fight

Upon concluding their words, the two warriors from the Insect Clan at the Primogem Expert level swiftly launched an attack on Liam!

Liam was taken aback by their swift movements and was struck, being pushed back several steps.

Witnessing Liam's retreat, the Insect Clan's warriors' arrogance grew. They taunted, "Kid, this is no place for you to play around. By entering, you are courting death. We'll send you to hell now! In your next life, maybe choose not to be a human again!"

Initially forced back, Liam had feared injury, yet upon self-assessment, he discovered he was unscathed.

Immediately, he assessed the capabilities of the two Insect Clan adversaries—they had only attained the second stage of the Primogem Expert level.

Upon reaching the Primogem Expert stage, a Primogem Warrior had undergone a profound transformation.

At Primogem Expert level, power classification no longer followed the star-level system seen in Primogem Warriors, where strength was categorized into one-star, two-star, and similar divisions.

At Primogem Expert level, the emphasis shifted to employing law power as the benchmark for strength assessment.

Law power drew upon primogem energy as its source.

The amalgamation of the law power and primogem energy defined the combat prowess of a Primogem Expert.

Based on their initial attack, Liam concluded that these two Insect Clan adversaries posed no real threat to him.

They stood no chance of causing him harm!

Empowered by his newfound confidence, Liam resolved to face his adversaries using only his physical prowess and the life-draining Origin Technique.

"Lightning Wings, activate!" Liam commanded without delay, propelling himself directly toward his two foes.

Liam's vigorous counterattack surprised the two warriors from the Insect Clan.

But then, they continued their taunting, "You stubborn fool! If one strike can't kill you, then we'll just add another!"

After Liam heard their jeers, a cold smile curled his lips as he replied, "With your pitiful skills, you think you can kill me?"

Liam then unleashed his burgeoning law power of the earth element, instantly manifesting a gravitational field of unparalleled strength.

While not fully mature, its impact closely mirrored that of a genuine law power of the earth element.

Instantaneously, the movements of the two Insect Clan adversaries were severely impeded, rendering them unable to even lift their legs!

This greatly shocked them.
