

Chapter 2131 Mona Was Hospitalized

Frank looked at the sleeping Mona with a grave expression, then turned his gaze to Sonia.

After a few seconds, he sighed and asked, "What are you going to do now?"

Sonia's face was pale, as though she had lost all the blood in her body. In a hoarse voice, she said, "I'll call Mr. Larson now and ask him to help me arrange for my mother to be hospitalized."

Alexandra had a lot of specific poisons in his care and they were extremely powerful. Her mother couldn't bear the torture at her age.

She had to be treated as soon as possible before the poison spread even further and killed her.

Sonia hugged her mother tighter as the thought of death crossed her mind.

Frank nodded and said, "Okay."

Sonia knew just how much Mona didn't want to be in the hospital, but she had to call Brandon.

As the nurse carefully helped Mona away, Sonia stood up from the floor and took out her phone to call Brandon.

After explaining everything to him as quickly as possible, Brandon said without hesitation, "Okay, I'll arrange for Mona's hospitalization."

In the hospital, Frank stayed on top of the different detailed examinations done on Mona overnight and had the results before dawn.

Sonia was waiting in Frank's office the whole time. She hadn't slept a wink the whole night, so her eyes were red and puffy.

As soon as she heard the sound of the door opening, she stood up and stared anxiously at the man that came in. "How is my mother? Do you have an antidote for whatever Alexandra gave her?"

Brandon, who had been waiting with Sonia, was also very worried. "Frank just tell me what you need and I'll get it as long as it saves Mona."

Not only was Mona Janet's aunt, but she was also an innocent person who was caught in his fight with Alexandra. He couldn't let anything happen to her.

"Don't be nervous." Frank took a sip of water to moisten his throat. "Indeed, Mona was poisoned by Alexandra. The results confirmed a drug unique to the Barton family."

"Do you know what this drug does?" Sonia asked.

"This drug causes pain all over one's body. If it is not taken care of in a week, whoever is injected with it will die from extreme pain." Frank sighed heavily. "Alexandra's methods are really cruel. I wonder how he could create a drug like that."

Sonia bit her lower lip, her hands clenching into tight fists.

The next second, she stood up and rushed out.

"Stop Sonia!" Brandon quickly ordered the bodyguards outside before she could go anywhere.

The men reacted quickly and blocked her way, carrying her back into the office.

"Let me go! I'm going to take revenge on that bastard!" She struggled against the strong bodyguards, shouting with all her might.

Frank was speechless at the scene. He had never seen Sonia in this state before.

Brandon, on the other hand, was very calm. "Anything you do right now would be useless. Even killing him won't help. The only way he'll give you the antidote is if you work for him."

That sentence alone brought Sonia back to her senses.

She looked up at Brandon with a helpless expression. "What do we do now?"

"First, we save your mother. We can talk about revenge later." Brandon then looked at Frank and asked, "So, can you do something to save Mona?"

Frank shrugged. "There is a complicated surgery we can do on her. However, we need to borrow the surgical equipment and medical staff from another hospital."
