Chapter 2526

Yun'er nodded, and then she showed a smile!

"Brother David, shall I go with you to gather herbs? I am familiar with the terrain here!"

Zhuzi wanted to follow David to gather herbs.

In fact, Zhuzi still has another plan in mind, that is to learn more skills from David, if he can learn some alchemy techniques and become a pharmacist, that would be even better!

In fact, David also saw Zhuzi's thoughts, but he still said, "Zhuzi, I have time to collect medicine with me in the future. Now that Ali and the others are injured, you should escort them back to the village!"

"Brother David, you just Let Zhuzi follow, we have already walked out of the territory of the demon wolf clan, nothing will happen, we can go back by ourselves!"

Ali also wanted Zhuzi to learn more from David!

After all, David is an outsider and will leave Dashi Village at any time. If Zhuzi can learn to become a pharmacist, it will be a great wealth for Dashi Village!

David saw that Alidu said so, so he agreed, and then left the team with the pillars, and started to pick herbs!

Because the world of heaven and man is full of spiritual energy, there are countless spiritual grasses in the mountains. If these spiritual grasses were in the secular world, they would be priceless treasures, but here they become wild grass, and no one picks them!

Even now that the aura of the mundane world is recovering, some spiritual grasses cannot take a year or half a year to grow into shape. Some spiritual grasses need ten years or even a hundred years to grow!

"Pillar, do you see that kind of oval leaves, light green called…"

David was picking herbs while explaining to Zhuzi, and he was also teaching Zhuzi some of the most basic pharmacist foundations!

If you can't even identify medicinal herbs, you can't become a pharmacist!

Zhu Zi also studied very seriously, he could memorize what David taught him once, and then helped David gather herbs together!

Before dark, David and Zhu Zi picked a lot of herbs and returned to Dashi Village!

Ali and the others have already returned, and the old village head sent someone to clean up the wounds of Ali and the others, and made a kind of black plaster for Ali and the others to apply!

These are just some folk remedies in Dashi Village. Some people are injured and have no money to treat them, so they can only use this kind of folk remedies to apply to the wounds. As for whether it can be cured, it is fate!

David and Zhuzi had just walked to Dashi Village, and the old village head had already brought everyone in Dashi Village to wait in the square of the village!

Seeing that David was back, the old village head and all the villagers in Dashi Village knelt down to David!

"Mr. Chen, thank you for saving our Dashi Village..." the

old village head said excitedly!

If David hadn't rescued Ali and the others, Dashi Village would be even less able to survive after losing these young talents!

"Old village chief, what are you doing, get up quickly..."

David hurriedly helped the old village chief up, and made all the villagers stand up too!

"Mr. Chen, if it wasn't for you this time, Ali and the others wouldn't be able to come back. Ali told me everything that happened. I didn't expect you to be a pharmacist. You are really hiding it." The

old village chief He praised David!

"This is what I should do. If there was no Dashi Village, I'm afraid I would have died in the jungle."

David said, took out all the corpses of the monster wolf in the storage ring and said, "Old village chief, you send Let's deal with these monster wolf corpses, I'm going to refine some elixir, so that Ali and the others can reply as soon as possible!"

"Okay, okay, what does Mr. Chen need to do, just open your mouth in Dashi Village, and all the villagers in Dashi Village will listen to it in the future ." You sent!" The

old village head said three good words in a row!

David didn't ask for anything, he just asked for a pot, and then rushed back to Yun'er's yard to start refining the elixir in the yard!
