

A Man Like None Other

Novel

Chapter 2533

Hu Zhuang suddenly said this to them, and deliberately approached them, so Ali and the others had to be on guard!

Hu Zhuang sensed the hostility from David and the others, and hurriedly explained, "I overheard this. I originally wanted to go to Baoantang to steal medicine. I didn't have money to buy it, but I overheard this information.

" So I tell you that I want to form an alliance with you, you must know that the fairy grass grows deep in the mountains, and it may be protected by spirit beasts, so this time it will be very dangerous."

"In this team, only I am alone, and if I am really in danger, there is no one to help me."

Hu Zhuang's explanation can be explained, but David did not believe it, and continued to ask, "Then why did you choose to follow me?" Form an alliance? We are not the strongest."

After all, in this team, David and the others are the least conspicuous, two men and one woman, and a small child, if you choose to form an alliance, must choose the most powerful to form an alliance!

Hu Zhuang smiled bitterly and said, "Because it is the safest choice to form an alliance with you. I know that you are from Dashi Village, and you have enmity with Daqing Village."

"I really want to form an alliance with a powerful one, but People may not accept me. Maybe they will betray me to Daqing Village."

"I choose you because even if you don't accept me, you won't betray me to Daqing Village."

David finished listening, the hostility on his body gradually disappeared, and he knew that what Hu Zhuang said was true!

After all, in this case, Hu Zhuang had no choice, so it seems that what Hu Zhuang said about Dr. Zhang is true!

Although David was relieved of Hu Zhuang, he was full of worries about the upcoming itinerary!

David still doesn't know what kind of fairy grass Wu Feiyu and the others are going to pick, but those who can reach the level of fairy grass will definitely be protected by spirit beasts.

Even if there are no spirit beasts, and high-level monsters that enter the depths of the mountains and haunt everywhere, I am afraid that these people will never return!

"I knew things didn't happen like this. I didn't expect Doctor Zhang to pick fairy grass. This is going to be troublesome..."

Ali frowned!

"Alige, otherwise let's just sneak away and don't follow!" When

Zhuzi heard that he was going to pick fairy grass deep in the mountains, he was a little scared. After all, the depths of the mountains were taboo for them. land!

"I can't run away. Doctor Zhang's strength is beyond ours. If we want to escape secretly now, I'm afraid we won't be able to run very far, and we will be killed by him!"

Hu Zhuang hurriedly told Zhu Zi to give up the idea of running away!

When Zhuzi heard this, his little face turned pale with fright and said, "Then what should we do? If we really go deep into the mountains, we will all become food for monsters!"

Ali fell silent, because he had no choice.

Yun'er said with a guilty expression, "Ali, Brother David, I'm sorry for you, if it wasn't for me, I wouldn't have taken this risk."

"Yun'er, it has nothing to do with you. It doesn't necessarily mean it's very dangerous, just be optimistic and everything will be fine!"

David smiled slightly, comforting Yun'er!

But at this time, David's heart was not as relaxed as it seemed, because he knew that Wu Feiyu's strength must not be low, and that Zhang Bi, the strength of these two people is above them, why should he let him go? These people who are not very strong will accompany them to gather medicine?

You must know that these are all nearby villagers, and their strength level is not high. It is obvious that they cannot fight against those high-level monsters when they enter the depths of the mountains, but Wu Feiyu still wants to do this. There must be other purposes in it, and it will never It is as simple as accompanying protection!
