**Married at First Sight Chapter 1951**—"Mr. Farrell." Hayden said in a low voice, "I see that Miss Kathryn has delicate skin and tender flesh. I was so worried that my bodyguard would hurt Miss Kathryn."

She took a fancy to Kathryn, and always wanted to persuade her younger brother to pursue Kathryn, because she had a crush on Kathryn.

Many people only saw the surface, thinking that it was difficult for Kathryn to take over the position of head of the Farrell family, because many businesses of the Farrell family were controlled and managed by the head of the family.

Kathryn gave people the impression that she was weak and timid, and had never seen the big world.

Hayden saw through Kathryn's true nature.

But her younger brother said that the water in Farrell's family was too deep, if he were with Kathryn, he would be involved in the struggle of Farrell's family.

Now, after witnessing Patriarch Farrell's attitude towards Kathryn with her own eyes, Hayden had to admit that her younger brother saw Kathryn more clearly than she did.

"Young Master Queen, my sister is fine. You can see that she didn't cry out in pain." Shiloh intercepted.

Shiloh couldn't see Hayden defending Kathryn.

Even if Hayden only said a few words.

Shiloh felt that Hayden was protecting Kathryn. In Jensburg, no woman could be treated differently by Hayden.

Just now she saw that Hayden's attitude towards Kathryn was particularly gentle.

When Shiloh saw it, she became furious, thinking that Kathryn was thinking about Hayden, and immediately told her mother that Kathryn was shameless and used those old-fashioned methods to approach Young Master Queen.

"Young Master Queen, I'm sorry just now, I'm fine now, I'll go to the bathroom first." Kathryn didn't want to be watched by everyone, so she found an excuse and hurried away.

"Mr. Queen."

As soon as Kathryn left, Kevin came in.

Following Kevin was his little fan, Hugh.

Hugh was overwhelmed by Kevin's tongue-to-mouth battle with more than a dozen rivals in love, and he won.

Now he had become Kevin's first fan.

When everyone saw Kevin coming in, they immediately remembered what happened during the day.

The third young master of the York family actually publicly stated that he wanted to pursue Young Master Queen.

A large sea of flowers was also placed at the entrance of Queen Enterprise, and a line of words was spelled out with bright roses, telling the world that he wanted to pursue Young Master Queen.

they couldn't think of it that the third young master of the York family actually liked men.

What a pity!

The third young master of the York family was also a very good man. The most important thing was that the family style of the York family was very good. they didn't know how many women dream of marrying into the York family.

Kevin liked men, so there was one less position representing the young mistress of the York family, and the competitiveness was even greater.

He liked men as much as he liked men, why should he pursue Young master Queen? This made Young master Queen's admirers unacceptable, thinking that Kevin was ruining their dream lover.

"Mr. Queen, you left too fast and didn't wait for me."

Kevin came in, walked straight to Hayden, looked around the crowd again, and asked, "What are you doing around my family, Mr. Queen?"

Everyone: ...How shameless, Mr. Queen actually belongs to his family!

No matter how good-tempered Hayden was, he couldn't help but blush, and said seriously, "Mr. York, I'm not from your family, please stay away from me."
