

## Read I Am A Quadrillionaire Chapter 1946

I am a quadrillionaire chapter 1946-“Alba, it is clear that Master David values you very much. You have known each other for a long time and have a good relationship. The Fellowes family will definitely not be able to escape this time and you don't want to live incognito. Hence, you should just leave with Master David! How about being a maid for Master David and taking care of his daily life? With his master protecting him, Zenon won't dare to do anything over the line. If you agree, I'll go find Master David later and entrust you to him.”

Alba was stunned when she heard this.

However, after only a moment, she came back to her senses.

Frankly speaking, she would be very willing to follow David, be David's maid, and take care of David's daily life.

Even if she had never served anyone before, one could learn.

However, this was not the time.

Now, the Fellowes family was facing a life-and-death situation.

As the third young mistress of the Fellowes family, she had enjoyed all the benefits brought by the Fellowes family, so she would not abandon the family and escape alone.

If she did that, David might even look down on her.

Alba shook her head and said, “Grandpa Vai, I will not abandon my family and survive alone.” “Alba, the Fellowes family will not take a turn for the better whether you stay here or not. If you stay, you will die, and you may even suffer a fate even worse than death. So, why bother?” Valerio persuaded.

“Grandpa Vai, don't worry, the Palmore family will only be able to capture my dead body; they won't take me alive.” “You... Oh, you silly girl.” “I'm not silly. As a member of the Fellowes family, I have at least this much awareness.” “If you do, you should listen to me and give the Fellowes family a little hope.”

When the two were arguing, David was in great pain.

His brain felt as if it had been split open.

He gritted his teeth, forcing himself to not pass out.

The improvement of his Mind was much more painful than the improvement of his Body.

One was the pain from the body, while the other was the pain from the soul. The two were not at the same level at all.

David had no idea how long it had been.

He only felt dizzy.

Suddenly, the pain was gone.

It had completely disappeared, and not a single bit of it remained.

'Have I succeeded?'

David opened his eyes.

A beam of light visible to the naked eye shot out from his eyes, and at the same time, a mind storm formed around his body.

He quickly controlled it and retracted his mind power.

Otherwise, a large area might get completely destroyed by his mind storm.

David felt refreshed instantly.

His perception had also improved a lot.

He turned on the system.

His Mind had changed from True Saint level 10 to Sacred Saint level 1.

At this point, both his Body and Mind had reached Sacred Saint Rank.

Although the upgrade of his Mind did not increase his combat power, it was the most important and painful part.

Now, it was finally over.

He still had 18.81 million lavish points left.

Next, he could continue to upgrade his Body and Mind to Sacred Saint level 10.

Then, under the effect of the double limit, David's combat power would also soar to a whole new level.

It would be a level beyond Sacred Saint Rank.

At this moment, David was also full of curiosity and anticipation.

'I wonder what kind of realm it will be after Saint realm.'
