Married at First Sight Chapter 2019-Serenity thought for a while and said, "That's right, Remy is not that kind of person, and Julian is not easy to invite, even Zack is hard to hire him. Every time he is asked to help with something, he thinks of Josh and goes to find him. Elisa, no matter what medicine Julian sells in the gourd, Remy is the one who gets the benefits anyway, doesn't Auntie think that Remy is more suitable for you?"

Serenity was much more optimistic.

Maybe it didn't happen to her, she was not as anxious as Elisa.

As long as Julian didn't really like Elisa, it's fine.

"But it's like a big rock, hanging above the heads of Remy and me, and I don't know when it will fall." Elisa sighed, and said to Serenity: "My luck is not very good. There are always many ups and downs in love."

Zachary didn't say anything, it was purely her wishful thinking.

But she and Remy were in love with each other, and they were well-matched, but they were still blocked by their mother.

She liked Zachary before, and no one supported her.

She and Remy were obviously the best match, except for her sister-in-law who supported her in pursuing true love, everyone else was as reluctant as her mother to let her marry far away.

Remy's house was just across the street, and she could go home every day to eat after marriage, and she is said to be married far away, and she didn't know what to say.

"Elisa, as long as you and Remy can persevere, you will achieve positive results. You also said that my aunt's attitude towards Remy is much better now. In fact, my aunt doesn't mean that Remy is not good, but she just values family affection too much. She is reluctant to let her relatives leave her side." Serenity said, "You see, with Julian stepping in, doesn't my aunt understand who is suitable for you?"

Her aunt and her mother experienced the tragedy of family destruction when they were young, and then the sisters separated again. Her aunt attached great importance to family affection, because her family was broken up when she was a child, and she was separated from her only sister, and she never saw each other again until she died.

Elisa smiled, "That's true. I know my mother likes me. My mother attaches great importance to family affection."

Although her mother has always disapproved of her being with Remy and did something to destroy her relationship with Remy, she did not force her to separate from Remy.

In this matter, Elisa did not resent her mother.

Elisa: "Serenity, tell me if my mother is really from the Farrell family."

Serenity: "If she is really from the Farrell family, it depends on how my aunt chooses. My aunt may not fight for the position of head of the family, but she will definitely avenge her parents."

Not to mention Mrs. Stone, even Serenity wanted to seek justice for her grandparents.

She couldn't die without knowing why.

The death of grandparents led to tragedies for the aunt and her mother. The aunt survived, keeping the clouds open to see the moon, but her mother did not.

Her Aunt could swallow that breath, but she couldn't.

Elisa nodded, "When my elder brother comes back, I'll ask my elder brother. My mother always discusses with my elder brother and asks my elder brother to do it."

"Big cousin is very capable. This is a natural thing. Don't be discouraged, we are all making progress. Aren't you much better than before? You used to only know how to spend money, have you ever made money? Now we're making money, and we're earning a lot."

Elisa smiled: "Yes, I really hope to help my mother solve her worries, but I'm not capable enough. But compared to before, I have made great progress. "

She, Serenity and Jasmine established a vegetable melon and fruit company, and they were worthy of the name of others.
