I am a quadrillionaire chapter 2005-On the other side, Cedar was also mobilizing the Fellowes family in the Fellowes Residence' square.

"Everyone, this is a battle that is related to the life and death of our family. You must go all out. I know you must feel in your heart that the enemy is very powerful and the Fellowes family has no chance, but I want to tell you now that our family has a chance to survive because we also invited a Sacred Saint to help us. The Palmore family's teeth will break if they try to devour us now."

"Break the teeth of the Palmore b\*stards!"

"Break the teeth of the Palmore b\*stards!"

"Break the teeth of the Palmore b\*stards!"

All the members of the Fellowes family shouted.

They had been holding back for too long.

When they were surrounded by the Palmore family, there was an air of desperation that filled the Fellowes family.

If the Palmore family decided to attack, the Fellowes family might still have had a chance.

However, the Palmore family chose to besiege them rather than attack.

As time went by, the weaker ones would slowly collapse under this air of despair.

Many members of the Fellowes family could not bear it and eventually turned their backs, which was understandable.

Before the mobilization meeting was over, a figure in the sky flew over at a high speed, immediately attracting everyone's attention.

As soon as he landed, the person panicked and said loudly," Grandmaster, bad news! The Palmore family is tightening the encirclement and it looks like they are going to attack us."

What he said also made the people in the square panic.

They were loud when they were yelling their slogan.

However, when it was time for the battle, only a few people were actually willing to sacrifice their life.

Cedar frowned.

Originally, he wanted to catch the Palmore family by surprise, but he did not expect them to be ready.

There was no other choice than to go head-to-head with them now.

Right now, everything would depend on David's master.

If that old man could fight against Zenon, they might still have a chance if they could also work with David, who was a pretty strong True Saint, against the Fellowes family's four True Saints.

If he could not, then they would not even need to consider this.

"Don't panic! They came just in time. I was about to go look for them!" Cedar growled.

At this time, a deep voice came from afar.

"The Fellowes family, you should surrender! You won't have a chance, so hand over everything and become slaves of my family from now on. If you do that, I will spare your life. If not, you will be killed without mercy!"

When he said the last three words, a cold killing intent instantly filled the air, permeating through the entire Fellowes family.

The killing intent of Zenon, the Sacred Saint, directly gave the Fellowes family a chill.

There was a look of fear in most people's eyes.

How could they bear the killing intent of a Sacred Saint with their strength?

Cedar did not answer.

'Here comes Zenon, the Sacred Saint.

'So, the only one who has a chance to defeat him is David's master.'

David was in the VIP room of the Fellowes family, waiting for the start of the big battle.

Alba was with him the whole time.

She did not bother David even when she saw David's absentminded appearance.

After David told Cedar that he hoped to settle things quickly, three full hours have passed.

So how could David not feel nervous?

He had wasted three drops of blood essence like this.

No matter how strong he was and no matter how much blood essence he had, it still should not be wasted like that.

He really wanted to recall the clone.

However, what if Zenon suddenly struck?

If he summoned the clone too late, he would have no choice but to expose his true strength.
