I am a quadrillionaire chapter 1985-“The Iridescent Sect established a rule at the beginning of its establishment stating that anyone who betrays the sect shall be killed! As an elder, you must know this!” Eira asked sullenly.

“I know, but so what? If I had a choice, I’d rather die than go into the ice cavern and become an emotionless machine,” Celeste replied.

“Okay. Very good. Great! Since you have decided to betray the sect, I will kill you today. Don’t blame me for not giving you a chance.”

After Eira had just finished speaking, David’s clone answered.

He sneered and said, “Hey, you hag, if you want to kill Celeste, you have to ask me if I agree!”

‘You?’ Eira looked at David’s clone with disdain.

The opponent might be a mid- or late True Saint. He was really strong, but he could not stop the sisters from killing Celeste.

Even the sisters did not remember how long they had been together.

It should have been at least a million years ago.

Therefore, it could be said that they already had a great mutual understanding.

Their cooperation in battle was even more synchronized.

Besides, among the four, two were peak True Saints and two were late True Saints.

Coupled with their tacit cooperation, their many trump cards and means, and also the fact that they had lived for millions of years, they were confident they could even deal with a partial Sacred Saint. It would be fine as long as it was not a Sacred Saint.

“Of course not me! My master is here, so how will I have a chance to make a move?” David laughed.

He knew when he saw these four old women that it might be difficult to win with only a True Saint’s combat power.

Hence, he decided that he should dispatch his master directly and use the strength of a Sacred Saint to crush his opponent.

‘Master?’

The four sisters, including the rest of the Iridescent Sect's cores, turned their attention to the masked man beside Celeste.

They could feel that this person was not simple.

However, the specific strength of the opponent was not known.

However, if he was David's master, they should not underestimate him since he could cultivate a powerhouse like David.

All four of the sisters frowned.

If the two were in a master-student relationship, there would be too many uncertainties.

They were also worried that if the masked man had the strength of a Sacred Saint, they would not be his opponent even if they used all their trump cards and means.

If he could be a master to a True Saint, he was likely a Sacred Saint.

At this time, David's clone quickly went to Celeste, grabbed her, and left the place.

After a while, David's main form would exude his Sacred Saint energy and Celeste would not be able to withstand it since she was not yet a Saint.

After David's clone took Celeste away, David's main form did not give Eira and the others a chance to think.

He lifted his right foot and stomped it lightly.

Boom!

A crisp voice sounded.

Immediately after...

Crack! Crack!

There were several cracks in the huge blue ice, and then, it turned into countless fragments, floating in the air.

At the same time, it also revealed what was inside.

It turned out to be a long sword glowing with blue light.

David's move completely angered the four Eira sisters.

The Ice Soul Excalibur must not be taken away by others, otherwise, the consequences would be severe.

The four sisters could not afford to bear this responsibility.

“How bold of you?!”

You presumptuous brat!”

The four of them immediately shouted angrily.

At the same time, their bodies disappeared from place and they all rushed toward the Ice Soul Excalibur.

They swore to take back the sword.

When the blue ice cube shattered and revealed the treasure inside, David went toward the blue long sword.

At that moment, he did not expect a sword to be inside the ice cube.

‘Is this the treasure that caused thousands of miles of ice?’

‘It looks pretty good on the outside.’
