

I'm A Quadrillionaire

Chapter 2028

Chapter 2028

Besides, David had already discussed with Celia and the others that after he settled the Fellowes family's matter, he would bring everyone back to Earth to live in seclusion!

He had no time or enough blood essence to handle this.

He could consider other things but not this.

"Lord Sid, I admire you very much for how much you care about the safety of all sentient beings, and I want to help you as much as I can, but I'm sorry. I can't be the head of TSA," David's clone shook his head and refused.

After only thinking for a moment, he directly rejected it, leaving no room for negotiation.

David's answer was beyond Sid's expectations.

When he was still worried that the other party, a peak Sacred Saint, would think of ways to create chaos like Zenon after becoming the head, unify Star Kingdom, collect the power of faith, and ignite the Divine Fire, David refused without even considering it.

Sid did not expect this at all.

He froze for a while, unable to find the words to reply.

In his mind, the other party might decline, saying that he did not know much about the Saints Association or Star Kingdom since he just came out of hiding so it was difficult for him to do the job.

However, Sid did not think that David would decline so quickly and straightforwardly.

One must know that the head of the Saints Association had a high status in Star Kingdom, and it was not an exaggeration to say that he was the master of Star Kingdom, a level 7 civilization.

One word from him could decide the life and death of countless forces. Moreover, he was respected and adored by all humans in Star Kingdom.

However, from the resolute tone of this old man, Sid could tell that he genuinely did not want to be the head of the Saints Association.

Doubt, puzzlement, confusion.

Sid had no idea what to do.

'Shouldn't all peak Sacred Saints think about how to collect the power of faith and ignite the Divine Fire?'

Then, he suddenly thought of a possibility.

'Could it be that the other party has been in seclusion for too long that he doesn't understand the status of the head of TSA?'

"Sir, don't be so quick to reject. Let me explain to you the existence of the Saints Association and the role of the head. Maybe you will change your mind after this..."

Before Sid could speak, he was interrupted by David's clone.

"Lord Sid, no need! I don't have the time or energy to take up the position of the head of TSA. If you want to fight Zenon, I can help you with everything I have, but if you want me to be the head, I'm sorry, but I must refuse."

"Well..."

Sid was completely speechless.

If he were a peak Sacred Saint, how would someone else get the turn to be the head?

Zenon would not even have the power to take his position at all.

The head of the Saints Association gave everyone in Star Kingdom the impression that he had to be the number one existence in Star Kingdom.

Yet, Sid was just a late Sacred Saint, and he was still far from being a peak Sacred Saint.

If he could not beat Zenon, he would not have the qualification to hold this position.

Forcibly taking the top position would not be right.

That was why he wanted to recommend a peak Sacred Saint to bring Zenon down.

Unexpectedly, the other party was not willing at all.

"Sir, if you don't want to be the head, Zenon will cause Star Kingdom to be in turmoil in the future. It will cause the loss of life and the displacement of countless people," Sid said seriously.

"I can't do anything about it, but if you need my help in the future, you can just ask. I will definitely not refuse," David replied.

That was all he could do.

If one day in the future, Zenon really disregarded the life and death of human beings and did something outrageous, David would not mind getting rid of him quietly once and for all.

"Sir, can you tell me why?" Sid could not help asking.

"Didn't I tell you? First, I have no time, and second, I have no energy. I still have my own things to do, and I don't want to be bound."
