Married at First Sight Chapter 2149-Two days later.

Annenburg, FC Manor.

A private plane landed at the private airport of FC Manor.

Jane and Ben were waiting there.

Seeing Zachary and Serenity getting off the plane, the couple smiled and went forward.

Remy came back with the couple.

Knowing that Zachary and his wife would come a few days earlier, Remy took Zachary's private jet and followed them home.

"Serenity."

Jane smiled and called Serenity.

Ben nodded to Zachary, "Young Master York, long time no see."

Zachary smiled back, "Long time no see."

He shook hands with Ben, and the two CEOs hugged each other. After they let go, Zachary shook hands with Jane again.

Seeing this scene, Remy, who was the last to get off the plane, delicately yelled: "Brother, sister-in-law, did you two only see Zachary and Serenity? They came back without seeing me."

Ben stepped forward with a smile and lightly thumped his younger brother's arm, then looked at the plane again.

He didn't see Elisa, so he asked his younger brother: "Where is Miss Stone? Didn't you say you brought Miss Stone back together?"

Remy said rather helplessly: "Elisa is on a business trip again temporarily, and she said that she should try her best to come back on the day of the banquet. If there is no way to come back, let me eat for her.

She prepared gifts for the children and asked me to bring them back together."

Every time he and Elisa agreed to go back to FC Manor, Elisa always had something urgent to deal with.

The current Elisa, like a strong woman, took business very seriously, and even Remy had nothing to do with her.

As long as there was a business problem, even if Serenity said she would deal with it, Elisa would go with her. If Serenity was not free, Elisa would go even more.

It's impossible for Jasmine to go on a business trip. She had Josh's seed in her belly, let alone that Josh wouldn't let her go on a business trip, and Elisa and Serenity would not agree to Jasmine running around.

Serenity said apologetically, "Elisa took my job. I was supposed to be on a business trip. She went. Let me come here first."

Elisa knew that Serenity liked Jane's children very much, so she insisted that Serenity come over with Zachary first, stay in FC Manor for two days, hug Avah more, and feel happy. It might be that she would be pregnant when she came back and then give birth to a daughter.

Serenity knew in her heart that she was not pregnant for a day, and those who cared about her were worried and anxious for her.

Her aunt was not a superstitious person, and now she began to offer incense on the first and fifteenth day of the Lunar New Year, praying to God and worshiping Buddha.

Every time her aunt went to worship Buddha, she prayed that she could get pregnant soon.

Zachary said that he and Serenity were taking contraceptive measures, so Serenity had not been pregnant so far.

But Mrs. Stone was an elder, and she got the answer from Serenity that the young couple did not use contraception at all.

She had been married into a wealthy family for decades, and she was well aware of the pressure of a wealthy daughter-in-law.

After half a year of marriage, Mrs. Stone was not in a hurry when Serenity hadn't heard anything. After a year of marriage, she still hadn't heard anything. Mrs. Stone became anxious. It really had a health problem and couldn't bear children.

No matter how open-minded Zachary and his family were, could they really withstand the pressure of no future?
