Married at First Sight Chapter 2155-After Zachary was silent, he said, "I'm not in a hurry. My family is in a hurry. Seren usually relies on her busy work to avoid thinking about her children."

He knew it all.

He also feel sorry for Seren.

Sometimes he even blame himself, thinking that he pulled Seren into the pressure circle and made her stressed.

Even if he and Seren didn't give birth.

But Seren was his wife, sitting in the position of the oldest mistress of the York family, needless to say, the invisible pressure would force her to swallow her whole.

Ben patted his shoulder and said, "If you want, when the old gentleman comes over, let him take the pulse for you and your wife."

Zachary didn't speak.

He firmly believed that there was nothing wrong with the couple.

He was also afraid that asking the old genius doctor to give them a pulse would invisible put more pressure on Serenity.

Serenity had been feeling drowsy lately, and it's because of too much pressure that she didn't sleep well during the rest time, and that's why she always got drowsy.

Ben: "Or, wait a little longer. If you want to see it later, I'll help you contact the old genius doctor."

It was difficult for others to see a genius doctor, but it was much easier for the Johnson family.

Because the fourth young lady of the Johnson family, Lilian Carden, was the only apprentice of the old genius doctor.

It could be said that the Johnson family and the genius doctor were in-laws.

Although the miracle doctor was Dr. Carden's master and adoptive father, she was picked up by the old man and brought up by himself.

Zachary nodded.

Everyone staggered the topic and chatted about business matters.

In order to be able to attend the banquet as usual, many people also arrived a few days in advance like Zachary and his wife.

In the past few days, FC Manor had been very lively.

On the day of the banquet, something happened to Serenity.

She managed to hold her goddaughter, but who knew that when she smelled the milk on her goddaughter's body, she felt nauseous and wanted to vomit.

She couldn't help it, and quickly stuffed the child back into Jane's arms, covered her mouth and rushed into the bathroom.

Her behavior scared everyone.

Serenity vomited upside down in the bathroom.

It's not like she couldn't smell the milk, so how could she vomit so badly.

Jane handed her daughter to her sister-in-law to hold her. She knocked on the door and found that Serenity had not locked the door after rushing into the bathroom, so she opened the door and went in.

Jane: "Serenity, are you okay?"

Seeing Serenity vomiting, Jane walked over and patted Serenity on the back lightly.

Serenity even vomited out yellow bile.

After she vomited, Jane quickly took out a tissue and handed it to her to wipe.

"Did you eat something wrong?" Jane asked with concern.

Thinking about it Jane felt that it's impossible.

If Serenity vomited after consuming the wrong food, their Johnson family was to blame. Because Serenity lived and ate at FC Manor for the past few days.

"I don't know, but when I hugged Avah, I smelled the milky scent on her body, and I felt nauseated, and wanted to vomit. This vomit made me so uncomfortable that I even vomited yellow bile. In the past, when I hugged Avah and smelled her scent, I still felt it smelled very good. I never felt like vomiting. I don't know why today."

Jane was stunned for a moment, then suddenly smiled and said: "You, could it be morning sickness? Serenity, are you pregnant?"

She was from here and had more experience than Serenity.

Some pregnant mothers will vomit when they smell the milky smell of milk powder. This is an early pregnancy reaction, which varies from person to person.
