

## Read Novel Married At First Sight Chapter 2178

**Married at First Sight Chapter 2178**-Just as Zachary entered the kitchen, someone knocked on the door again.

Grandma May said: "You are busy, grandma will open the door."

Grandma May got up and went to open the door, but the person standing at the door was Liberty.

Liberty was carrying big and small bags, all of which were ingredients, and anyone could tell at a glance that she had just returned from the vegetable market.

"Grandma, when did you come back?" Seeing Grandma May, Liberty was very happy, and asked her with a smile.

Grandma May: "I just arrived. I heard that Seren is pregnant, so I hurried back, afraid that Zachary's piece of wood wouldn't take care of Seren, so I can take care of her myself so I can rest assured."

Grandma May smiled happily. She staggered her body to let Liberty in, looked Liberty up and down again, and praised with a smile: "Liberty, you are getting more and more beautiful, and you have confidence in every gesture. "

Liberty: "Thank you grandma for the compliment, I was born beautiful."

Grandma May laughed, "Yes, yes, both of your sisters are naturally beautiful."

"Where's Serenity?" After Liberty entered the room, she didn't see her sister, so she asked, "Yesterday Zachary called me and told me that Seren was pregnant, and told my aunt. My aunt and I are very happy, and want to come and see her right away.

I remember that she and Zachary went to FC Manor in Annenburg, thinking that the young couple were still there, but I just saw Seren posting on Moments, which was located in Brynfield in Wiltspoon, and only then did I know that the young couple came back Yes, I'll come over right away.

Thinking so early, the couple must have not eaten breakfast, so I bought them some food and prepared to make breakfast for them. Grandma, you probably haven't eaten yet. I'll make more."

With that said, Liberty was about to enter the kitchen.

Zachary came out of the kitchen wearing an apron.

Zachary: "sister."

Liberty: "Zachary, you got up so early."

Seeing her brother-in-law in the kitchen, Liberty was a little surprised, and soon she smiled again: "Is it because Seren is hungry, you to get up early to prepare breakfast, you two are really serious, don't say anything when you come back, me and Auntie thought you were in Annenburg."

Zachary smiled innocently: "I was so happy yesterday, many things were ignored and forgotten."

Seren hasn't slept yet. She's been sleepy lately. It's all my fault. I don't understand anything. The reason why she's always sleepy is she's pregnant. I don't even know."

Only now did Zachary understand that his wife was always sleepy recently, and it turned out that she was pregnant.

Fortunately, Serenity's health had always been very good, she was pregnant, and flying around with him was fine.

Liberty smiled and said: "I didn't expect that, I have been a mother, Sonny told me that his aunt has been getting sleepy recently, I thought it was caused by Seren being too tired and not getting enough rest."

Grandma answered: "Look, I'm not at home; Seren is pregnant, and you all don't know. So, when I heard that Seren was pregnant, I flew back quickly, and I won't go out far away again until the baby is born."

Anyway, the fourth and fifth daughter-in-law candidates were also promising.

She'll give the photo to both of them and let them figure it out on their own.

For the grandchildren starting from the sixth child, let them be free for a few more years. She will not worry about it for a year, and will choose good candidates for the remaining grandchildren after the great-grandson is born.

Even if it is Rowan's, she has to give him a good look in advance. After Rowan becomes an adult and has the ability to be independent, let Rowan go to meet the person she has chosen for him for a while.

Grandma Ma didn't even let Rowan go, because she was considering her age.

Although she thought that she could live another ten or twenty years, no one knew which would come first, the accident or tomorrow. She had to choose cabbage for her little pigs in advance. When the day came, she could rest assured.
