I am a quadrillionaire chapter 2170-‘What’s going on?’

Elora was startled. She gritted her teeth and endured the severe pain that was tearing her soul. Then, she retracted the Overlord Inferno and prepared to defend herself.

At the same time, she emitted her Overlord Realm energy and teleported, forcibly leaving her original position and appearing in another direction.

Elora appeared again, but now she was bent over while panting violently. She was extremely weak.

She had completely lost the domineering demeanor exuded by Leila’s five rulers.

Elora looked at the looming shadow in her position just now. Then, she gritted her teeth and said, “Robotias, how dare you collude with the Soul Devourers and become enemies of human beings. You will be punished!”

“Tsk tsk tsk... All’s fair in war. Empress Elora, don’t even think about escaping from me today. Your soul is so fragrant. After I devour it, I will definitely enjoy major growth. Hehe...” A creepy voice came from the shadows.

“Empress Elora, this isn’t collusion, but an alliance between powerful beings. As I said, you will be the first Overlord to die at my hands. Don’t worry, the other Overlords from Leila will accompany you soon,” the Lv 6 Robotia replied coldly.

“You...”

Elora looked at the two races in front of her with a cold look in her eyes.

The Robotias created a Lv 6 and then colluded with the Soul Devourers who devoured human souls for a living.

With these two forces working together, Leila would be in trouble.

She had to pass the news back so that everyone could be prepared.

Although the Soul Devourers were eerie, as long as Leila was ready, it would not be easy for the Soul Devourers to launch a sneak attack on them.

If she had not put all her attention on the Robotias’ Lv 6 just now, the Soul Devourers would not have had the opportunity to sneak attack her and devour most of her soul.

Now, most of her soul had been swallowed so her combat power was greatly reduced.

'What should I do now?

'How can I escape this?'

Elora was caught in a dilemma.

This was the most dangerous battle she had experienced since she got into Overlord Realm.

If she was a little careless, not only her life would be in danger, but all of Leila.

"Let's do it! Don't give her time to think about countermeasures. Human beings are the most efficacious beings in the universe and they have endless means. Don't let her run away and inform Leila about us joining forces. If she does, then we will be in trouble," said the Soul Devourer.

"Don't worry! We, the Robotias, have been preparing for this day for so long, so how could we let her escape?"

"It'll be better to take action as soon as possible!"

"As you wish!"

The Lv 6 of the Robotias and the Soul Devourer acted at the same time.

Elora gritted her teeth and used Overlord Inferno to cover her entire body again.

After picking up the sword that had followed her for endless years in her hand, she stroked it lightly and murmured to herself, "Old friend, I'm gonna need your help."

The three-foot green sword trembled for a while as if it understood what its master meant.

Then, Elora quietly injected a trace of her soul into the sword.

After that...

A shining dot appeared, centered on Empress Elora.

The dot then expanded rapidly and spread throughout the void.

Even the Lv 6 of the Robotias and the Soul Devourer temporarily lost their vision.

The void also became dilapidated.

The space of more than ten dimensions was contorted into a ball.

There was no explosion or sound, but the destructive power was so strong that all races in the universe could feel intense fear.

At this moment, Elora's sword took this opportunity and disappeared into the void in a flash.

When the void calmed down again, the Lv 6 Robotia and the Soul Devourer were silent for a long time.

As expected of an empress who was one of the five Leila rulers, she was indeed unyielding.

The three-foot green sword traveled through endless space and reached a dead star. Then, it penetrated the planet and sealed the planet with all its power.

Finally, it sent a trace of Elora's soul into The Spirit Cage.

Only in The Spirit Cage could Empress Elora's soul be nourished, strengthened, and restored.

Of course, this process might take very long, but at least there would still be hope.
