I am a quadrillionaire chapter 2179-After Pebbles ate the Silver Flood Dragon's Beast Crystal, she scrunched up her pretty little face.

She looked as if she was suffering.

David was taken aback.

'Is it hurting her?'

He felt so remorseful.

He thought that since the little girl stole so many things, she must need a treasure like the Beast Crystal.

Who would have thought that she would eat it directly?

'What should I do?'

"P-Pebbles, a-are you alright?" David asked nervously.

Although he was good at traditional medicine, this was the first time he had encountered a Beast Crystal. So, he did not know what he should do after Pebbles ate this thing.

"Sir, I'm fine. It's just that the food you gave me was so yucky," Pebbles complained, going back to normal.

"Y-Yucky? Don't you feel sick?"

"No, I feel fine. After eating it, I feel that my body has recovered a lot, but it's just too yucky. It's even worse than the things I stole. But as long as it's good for my body, I will force myself to eat it no matter how bad it taste." The little girl looked determined.

"Uh..." David was speechless for a while.

Then, he examined the little girl carefully.

After making sure that the little girl was really fine, he could rest easy.

“Pebbles, did you eat all the things you stole?”

“Yeah! I ate them all.” Pebbles nodded.

“Who taught you to do this?”

“I don’t know! I simply thought I should eat them, so I did.”

“Do you feel unwell?”

“No! I feel nice, but they don’t taste very good. They’re pretty gross,” Pebbles said while looking like she was in a dilemma.

David was curious.

The little girl’s body was too special.

As they all knew, the Beast Crystal could not be eaten directly, otherwise, it would cause great harm to the body.

It needed to be refined before it could be eaten. It could quickly improve one’s strength, that was, enhance one’s mind power.

However, after Pebbles ate it, she was fine, and she even felt nice.

How strange.

At the same time, David also sighed.

100 billion L Dollars was gone in just one gulp.

In addition to those compensated earlier, this little girl ate a total of 600 billion L Dollars worth of things, and this was only when she had no choice but to steal.

If there was enough supply, she could even easily eat 6 trillion L Dollars worth of things.

She was like a walking gold-consuming cave or a gold- swallowing beast.

Fortunately, she met David.

Who could afford her expenses except for David?

Of the 600 billion Pebbles ate, David did not get any lavish points for 500 billion of it, which made David a little sad.

In the future, the two could cooperate even more.

David would spend money to buy treasures and get lavish points, while Pebbles could eat the bought treasures.

They would each get what they needed.

He wanted to see how many treasures the little girl could eat.

At the end of the day, eating so many things that contained great energy would have some effect on her, right?

Energy could not simply disappear, and it was definitely stored in Pebbles' body.

Or perhaps there would be some other effect.

If she could digest them, then it would surely be beneficial to her.

If David's guess was right, the little girl must be wanting to restore her damaged soul by instinctively wanting to eat these treasures that were good for her body.

"Pebbles, can you eat these all the time?" David asked.

"No way! If I eat too much, I will be too full. I need to digest all of it before I can eat more. For example, after eating what you gave me just now, I feel a little full and don't want to eat anymore," Pebbles replied.

David got it now.

The treasures she ate would take some time to digest and nourish her soul power.
