I am a quadrillionaire chapter 2134-He knew that it was impossible for the Nacht family to have such a powerful person.

Even the strongest members of the Nacht family could not seriously injure him without him realizing it.

One second, two seconds, ten seconds.

No one responded.

Beanie did not make a sound either.

After all, even she did not know who made the move. If she offended the other party, it might bring disaster to the Nacht family.

After nearly a minute passed, after making sure no one was answering, Beanie sneered at Linus and said, "Linus, you're thinking too much. Do you think they would come out just because you asked them to?"

Linus ignored Beanie and continued, "Senior, the Chez family is willing to pay any price as long as you let us live."

Still no response.

"Linus, I told you, they won't come out to see you, so you should just give up."

"Beanie, we admit defeat today, but the future is long and uncertain."

After Linus finished speaking, he and the masked man in black beside him quickly fled.

He could not delay treating the injuries on his body so he could only gamble on this.

It was possible the unknown person just wanted to prevent him from doing anything to the Nacht family and did not actually want to take his life.

As she watched the two slowly disappearing in front of her eyes, Beanie did not pursue them.

She was already injured, so it would not be a good idea to attack again.

Of course, the more important reason was that Beanie felt if the person who took action secretly did not kill Linus and the gang, they were tacitly letting them go.

Even in her heyday, Beanie would not risk offending this powerhouse hiding in the dark to pursue Linus just so she could kill him.

“Aunt Beanie, why did you let them go? The Chez family already has evil intentions toward us, so we can’t let any of them go, otherwise, they will all be threats to the Nacht family,” Nas walked to Beanie and asked.

He figured that as long as there was a chance, they should exterminate the Chez family. Otherwise, letting them go would bring about endless trouble.

Linus’ status in the Chez family was not low.

If they killed him, the Chez family would definitely suffer horribly.

Just like how the Nacht family would suffer if Beanie died.

Beanie did not answer the question, but said, “Nas, Niv, organize the team, and let’s carry on.”

“Okay, Aunt Beanie!”

After Nivia answered, she began to organize everyone and continued on the journey.

Nas had no choice but to follow what Beanie said and organize the staff with Nivia.

On the other side, more than a dozen men in black stood together and opened a carriage that was escorting the goods. However, the carriage was empty and there was nothing inside.

“Damn it! We were fooled! F\*ck! Beanie, you b\*tch,” the leader of the men in black cursed.

“It’s okay. If it’s not here, it must be at Linus’ location. Anyway, no matter where it is, it will still be ours,” said a person next to him.

‘You’re right! Beanie thought that she would be able to trick everyone like this, but she didn’t know that we were fully prepared and would never give her a chance of escaping.’

“If I had known earlier, I’d have gone to the other side instead. After all, we would be able to enjoy that stunning woman and also make the greatest contribution to the family. It’d be killing two birds with one stone. We’re letting those two claim all the goodies!”

“Well, forget it, it’s too late to say that. Come, let’s go back. The Nacht family has been hit so hard this time, so they will definitely be furious. In the meantime, let’s hold on for a

while and then give the Nacht family another big gift after we missed our moment in the limelight.”

A dozen men in black left quickly.

Only a few bodies remained.

Among the bodies, two of them were the two elders of the Nacht family.

The strength of these two elders was not low, but, they still unexpectedly died at the hands of the men in black
