

## **The Ex-Husband's Revenge By Dragonsky Chapter 1351**

“Brat, I guess you’re quite strong! I’ll admit defeat this time, but I won’t let you off in the future! Let’s go!”

Willie would not fight a losing battle. After he spat out those words, he hurriedly summoned his guards and prepared to leave!

“You’re trying to leave? How could it be so easy?!” Leon sneered as he walked forward, stopping Willie and

his men.

“What are you trying to do?” Willie’s expression changed. He had an uneasy feeling in his heart.

“What do you think? Weren’t you acting so arrogantly when you tried to rob me just now? The moment things look bad for you, you want to turn around and leave. How could things be so easy?!” Leon said.

“Then what do you want?” Willie asked in a low voice.

“It’s very simple. Didn’t you say you wanted to break my legs? I’ll do as you said. I’ll break your legs so you’ll remember this for a long time!” Leon said coldly. There was an intense and murderous glint in his eyes.

Anyone who crossed the line with him would die!

He would not have minded it too much if Willie just aimed for him, but Willie made the mistake of putting his eyes on Iris. That completely angered Leon. There was no way Leon would let Willie off easily!

“How dare you?! I’m warning you. I’m the heir of the Libertons. If you dare to harm me, my family won’t let you off!” Willie was shocked. He immediately shouted at Fane viciously.

“I don’t know if the Libertons will let me off or not, but I’m not planning on letting you off!” Leon had a cold look in his eyes as he kicked Willie to the ground. After that, he raised his leg and prepared to kick Willie viciously.

“No!”

“If you do break my legs, then I’ll make sure you die a horrible death in the future!” Willie said in fear and shock. The threat in his words was clear.

“Is that so? Then I’ll be waiting for it!” Leon sniffed. His leg did not stop as he kicked Willie.

The clear sound of bone snapping could be heard. After that, Willie let out a squeal of agony. One of his legs was just broken by Leon!

“The other one!” Leon said coldly. After that, he aimed another kick at Willie’s other leg.

“Ah!”

Willie let out another cry of agony. Both his legs were crippled he was in so much pain that he started to see black. He fainted on the spot.

“Alright, you can get lost now!” Leon said coldly. He looked at the two guards with a cold expression.

He knew the guards were just following orders, so he did not do anything to make things difficult for them.

“Yes.”

The guards shivered before they hurriedly picked Willie up and fled.

As for the girl that was with Willie, she was scared stiff the whole time.

She only reacted when she saw Willie being led away by the guards. She followed closely behind them.

In just a moment, all of them disappeared without a trace!

## **The Ex-Husband's Revenge By Dragonsky Chapter 1352**

After dealing with Willie, Leon, and Iris prepared to get in the car and leave.

At that moment, footsteps could be heard. Penny and Andy both hurried over.

“Leon, y–you’re alright?”

Andy was shocked to see that Leon was fine.

When Leon left the jade store, Andy guessed that Willie would probably seek Leon out for revenge.

Willie was at the Semi Overlord State. He felt like there was no way a country bumpkin from Springfield City like Leon would be able to beat Willie!

Yet, he never expected Leon to be completely unharmed. There was no trace of Willie anywhere either.

It greatly surprised him!

“What is it?” Leon looked at Andy curiously, not understanding what Andy meant.

“Oh, it’s nothing,” Andy let out a few dry laughs when he recovered from the surprise.

“Is that so?”

Leon realized something when he saw Andy's expression looking a bit unnatural. Leon seemed to understand something.

However, Andy was not a big deal, and Andy was Penny's fiance as well. He would not get into an argument with Andy for no reason.

"That's right. Have you bought your gift, Andy?" Iris looked at Penny and asked.

"Yes, we have," Penny answered.

After she and Andy bought the gift, she finally remembered that Willie was not that kind of a person!

With Willie's personality and his family's animosity toward the Scammells, it was very possible that Willie would have set up an ambush to wait for Leon!

With that in mind, she immediately pulled Andy out and rushed over in concern.

"Iris, Willie is a petty and narrow-minded person. He'll try and get revenge! Did you and Leon meet him?" Penny said in concern.

"We already have!" Iris nodded.

"What?"

"Then where is he?"

Penny and Andy were both shocked to hear that.

Andy in particular thought that Willie decided to show mercy when he saw that Leon was fine.

Yet, the two sides met already!

“He was beaten away by Leon,” Iris said truthfully.

“Beaten away?”

“How could that be possible?!”

Penny and Andy were both shocked. They could not believe their ears.

They knew how strong Willie was. He was already in the Semi-Overlord State. Amongst the generation, of the ancient martial arts families, he was one of the strongest!

younger

Leon was just someone insignificant from a small place like Springfield City. He was young as well, so how could he have the ability to do that?

The two of them exchanged a confused look. They could not figure out if what Iris said was true!

“It’s fine, no matter what, it’s alright if the two of you are fine,” Penny did not care about it after she recovered from the shock.

Seeing was believing,

She did not see it herself. She did not think that Leon would be able to defeat Willie. It was not realistic at all

She felt like they probably just argued until Willie left with his men, as opposed to truly fighting.

She could not think of any other possibility!

“Penny, Iris, and I still have other things to do. We’ll take our leave for now.”

Leon did not bother explaining things. He bid his farewells to Penny before both sides left.

## **The Ex-Husband's Revenge By Dragonsky Chapter 1353**

At the villa, Leon and Iris returned to see that Cynthia and the others were already back.

They went their separate ways that day. Leon and Iris went to visit the Scammells while Cynthia and the others went to look for a housekeeper. They bought two new cars back to make things more convenient as well.

“Leon, what’s in your hands?”

Cynthia, Ruth, and Snow were very curious to see Leon holding a heavy bag. All of them walked over.

The three of them were all part of the four beauties of Springfield City. They were all incredibly beautiful. Then, there was Iris with her ethereal beauty.

With four women around Leon, any other man would have died of envy if they saw it!

“Oh, it’s just some jade,” Leon explained as he opened the bag for the three of them to see.

“Why would you buy so much jade?”

Cynthia and the others were surprised.

“Well, I’m planning on using them to set up an Energy Convergence Circle behind. Just follow me. I’ll let you all see,” Leon said with a smile. After that, he left the villa with the girls, arriving at a mountain behind it.

On top of the mountain, it was a place with incredibly beautiful scenery. The air was clear and the spiritual energy was very dense.

Leon walked around the top of the mountain, estimating the distance before he put down the jades one by one after some calculations.

On top of that, he had that clear jade with him the whole time to serve as the eye of the circle.

Head planned on using that as the eye, but he had other plans after being lucky enough to get the royal purple.

The eye was the most important part of the circle. The better the jade in the middle, the more powerful the circle would be.

The jade he used to set up the Energy Convergence Circle before was quite limited since they were not that great. They could only remain on top of the mountain.

However, the situation was different this time.

Not only was the royal purple amazing in quality, but it was also large as well. On top of that, the villa was right at the foot of the mountain. He could direct all the spiritual energy gathered in the circle to the villa.

In the future, he could just train or make his pills in the villa. It would have the same effect as doing it on the mountain. It was much more convenient!

After a long time.

“Success!”

After Leon set up the royal purple, the Energy Convergence Circle started to buzz as it activated.

Right after that, the spiritual energy around the mountain started to gather into a visible vortex, constantly flowing into the villa at the foot of the mountain.

The spiritual energy quickly surrounded the whole villa, seemingly fusing the villa with the top of the mountain. That was, the spiritual energy in the villa would never end.

“What an amazing circle! Leon, what is this used for?”

Snow could not help but exclaim when she saw everything.

Cynthia, Iris, and Ruth all saw the Energy Convergence Circle before, but it was Snow’s first time. She did not know what exactly it was.

“With this energy Convergence Circle, we’ll have a much easier time training in the villa in the future,” Leon explained, briefly talking about the circle.

“Really? That’s amazing! Then, let’s hurry back to the villa and train. I want to see how effective it is!” Ruth was elated as she jumped around happily.

She was a genius in martial arts and was always very enthusiastic about training. The moment she heard that the circle could improve its training, she was immediately interested.

“Let’s not be in such a hurry. Let’s start training after we have dinner!” Leon said with a smile, bringing all

of them back to the villa.

## **The Ex-Husband's Revenge By Dragonsky Chapter 1354**

In the villa, with the support of the Energy Convergence Circle, the plants in the villa were all brimming with life. The air was filled with dense spiritual energy that reinvigorated everyone.

Even though Ruth and the others were all warriors that could not sense spiritual energy, spiritual energy still came from the same origins as martial arts. They could vaguely feel that the air around them was incredibly pure.

If they trained in the villa in the future, it would not just be more efficient, they would be able to get past their bottlenecks faster as well.

After dinner, Ruth still had the mind training. She hurriedly pulled Leon and Iris into the room to train.

When they were in Springfield City, the three of them would regularly train together with Louisa. They were already used to it.

f

As for Cynthia, she did not have many reservations about her relationship with Leon. She owed them into

the room as well.

Snow could not help but feel that the scene in front of her was a bit strange.

After all, men and women were different. It was late in the night, but three women entered Leon's room. It

was a bit inappropriate.

However, her curiosity won out. After hesitating for a moment, she followed them inside.

In the room, Leon took out a white bottle that was filled with Energy Nurturing Pills. He handed one each to

the women.

“Cynthia, the Premium Energy Nurturing Pills are almost finished. It looks like

we need to quickly establish a branch of Cynthion Group here and start making the pills again!” Leon lamented as he looked at the emptying bottle.

“Yes, let’s go look around to see if there are any abandoned medical companies around. Then, we can buy it at a high price. It’s much better than building something new!” Cynthia said after some thought.

“Alright, that’s a good idea!” Leon nodded and said.

Building a new company was time and resource-consuming. If Iris and he could just purchase a suitable company, it would make things much easier!

“It’s just a pity! The pills you make are only useful for warriors below the

Overlord State. Otherwise, Cynthion Group will be as important here as it was in Springfield City!” Cynthia lamented.

Since Leon’s skills were on the lower end, the pills he made back then did not really work on martial artists

at the Overlord State and above.

However, Springfield City did not have many who were in the Overlord state in the first

place. There were only about a dozen. Most of the others were all below the Overlord State!

It did not affect the Energy Nurturing Pills that much, so the pills immediately filled up the market when they appeared. They quickly became necessities throughout all the major families!

Since the Cynthion Group controlled the pills, they controlled the fates of the major families. They had a lot of influence!

That was the foundation of Leon slowly taking over Springfield City!

However, the Southern region was different!

The Southern Region's ancient martial arts families all used Power Methods. Other than the third

generation, the second and older generations have all mostly already reached the Overlord State. Even

Emperor State martial artists were abundant!

Leon's Energy Nurturing Pills from before were useless to those at the Overlord State and above, so it would

naturally not be able to affect the ancient martial arts families in the area

.

It was because of that, that Cynthion Group's Energy Nurturing Pills were still relatively unknown in the

Southern region even though they were famous in Springfield City and Seacove City!

## **The Ex-Husband's Revenge By Dragonsky Chapter 1355**

“Cynthia, don't worry! I'm already much stronger than I was before. I can already make Advanced Energy Nurturing Pills! Even those at the Emperor State can use them, and it'll greatly increase the speed and efficiency of training!” Leon said with a smile.

The Energy Nurturing Pills were the same as the Pure Energy Pills. Before this, he was too weak and was only able to make low leveled ones.

However, after reaching the Foundation Phase, he was already able to make even better Energy Nurturing Pills. Those were effective even to those who were at the peak Emperor State!

“Really? That's great!” Cynthia was elated to hear that.

She knew that the various ancient martial arts families mostly had martial artists that were in the Overlord State or the Emperor State.

If Leon's Energy Nurturing Pills could work on martial artists of that level, then it would allow Cynthia Group very easy access to the market in the Southern region. They would reach even greater heights!

“Alright, let's talk about the Energy Nurturing Pills in a few days. Let's focus on training first! I feel like I'm about to make a breakthrough!” Leon said.

He reached the initial Innate State some time ago. After his recent training, he felt like he was about to make another breakthrough.

On top of that, thanks to the Energy Convergence Circle and the Energy Nurturing Pills, the effects were multiplied.

If no surprises happened, he would probably reach the intermediate Innate State within the night!

“Me too! I feel like I’m about to make a breakthrough as well!” Iris said with a smile.

She was stuck at the peak Acquired State for so long. It was about time.

“Me too! I should be able to reach the peak Innate State tonight!” Cynthia said happily.

“What? All three of you? How is that possible?! Making a breakthrough is something incredibly difficult. How could it be as easy as you say?!” Snow was completely shocked.

“It’s difficult for other people. However, the three of them are different. They’re all using Absolute Methods. Wouldn’t it be incredibly easy?!” Ruth said casually.

“Absolute methods? Didn’t Leon only have a Power Method? Since when did it become an Absolute Method? Am I hearing things?” Snow was shocked. She could not believe her ears.

“You’re not hearing things! Leon’s Absolute Method is called the Mysterious Maiden Method. I accidentally learned half of it before,” Ruth said casually, answering Snow’s question.

“That-”

Snow was completely shocked!

She knew that Leon had an Ultimate Power Method, that was something everyone in Springfield City knew!

However, she never expected Leon’s arsenal to not stop there. Leon had the Absolute Method as well!

Absolute Methods were already lost to the world for many years. No one in Sky County even had one!

Yet, Leon somehow got something so rare and valuable!

It was obvious how shocked she was!

## **The Ex-Husband's Revenge By Dragonsky Chapter 1356**

“Ruth, do you mean that you, Iris, and Cynthia are all using an Absolute Method?” Snow quickly asked after she shook herself out of her shock.

“Yes, that’s it,” Ruth nodded and said..

She knew that Iris was using the Mysterious Maiden Method, but she did not know if Cynthia was too.

However, with Cynthia’s relationship with Leon, she felt like it was obvious that Leon would have already taught the method to Cynthia a long time ago!

“If that’s the case, then I’m the only one using a low-level method among all of us.”

Snow suddenly looked at Leon and said, “Leon, didn’t you always say that you see me as an older sister? If you do, can you teach me the Absolute Method?”

“That-”

Leon found it hard to say anything.

An Absolute Method was something incredibly important. He could not teach it to just anyone.

However, Snow took a fatal blow for him before, and he saw Snow as an elder sister. On top of that, the three others were already using the Mysterious Maiden Method as well. It did not feel appropriate for him to refuse to teach it to Snow.

However, before he could even answer, Snow took the chance to say something.

“Impossible. Snow, I’m telling you, Leon’s such a petty person. I think you should stop dreaming if you want him to teach you the Absolute Method!” Ruth pouted and said.

She was only able to accidentally learn half of the Mysterious Maiden Method out of pure luck. After that, she tried so hard to get the other half from Leon, but she never succeeded!

With Leon’s careful personality, she felt like Leon would not teach Snow the Mysterious Maiden Method so easily unless a miracle happened!

“Leon, is that true?” Snow was very disappointed.

Absolute Methods were incredibly rare and valuable. Any martial artist would dream about learning one. She was no exception.

However, since it was so valuable, no one who had one would ever teach it so easily.

Leon not being willing to teach it to her was quite normal.

“Oh, sure. I can teach you the Mysterious Maiden Method,” Leon hesitated for a moment but agreed in the end.

“What? H–how could you?!” Ruth was shocked to hear that.

She knew how petty Leon was. She never expected Leon to suddenly change like that.

It completely surprised her!

“Really? That’s great! Leon, I love you so much!” Snow was elated as she hugged Leon emotionally.

She was already disappointed, but Leon turned things around *by* being willing to teach her!

It was obvious how happy and excited she was!

“Snow, it’s just a martial arts method. Surely you don’t have to be so excited.”

Leon felt very awkward when he felt the embrace.

In particular, he started to feel his head go numb when Iris and Cynthia both shot sharp looks at him. He did

not know what to do.

“I got too excited.”

Snow blushed, realizing that she lost herself. She hurriedly let Leon go.

### **The Ex-Husband’s Revenge By Dragonsky Chapter 1357**

“Snow, I’ll teach you the Mysterious Maiden Method right now. Pay attention!”

Leon hurriedly changed the topic to dispel the awkward atmosphere.

“No! How could you do that?!” Ruth intensely objected the moment Leon said that.

“Why can’t I?” Leon looked at Ruth curiously.

“What do you think? I kept on begging you to teach me the other half of the Mysterious Maiden Method before, but you were never willing to! Why did you agree so quickly when it’s Snow?!” Ruth said unhappily.

“This is different! Snow has saved my life before, and I’ve always seen her as a sister. Isn’t it normal for me to teach it to her?!” Leon rolled his eyes and said.

“Why is it different? So what if she’s saved you before? I’ve saved you so many times before too. Why don’t you remember what I did for you? Why do you treat us so differently? Aren’t you playing favorites here?!” Ruth said with a huff.

“Favorites? What does this have to do with favorites?” Leon felt exasperated.

“How could it not?!” Ruth was very unhappy. After that, she looked at Snow’s beautiful face and alluring figure and suddenly realized something .

“Alright, I understand now! Stupid Leon, you must be after Snow’s looks. That’s why you favor her so much!

Boom!

Leon felt an explosion going off in his head at Ruth’s words.

“What nonsense are you speaking? I just told you, I see Snow as my sister. Since when have I ever been after her looks? Why must you be so rude?” Leon said with a dark look on his face.

“It’s not nonsense! Snow is so pretty and she has such a nice figure. Any man would want her for her looks. Maybe you’re just not a man,” Ruth laughed slyly.

Her words were not exactly untrue. Even though Snow only ranked third among the four beauties of Springfield City, Snow had a naturally sexy look and figure. She had a very mature appeal to men that was incredibly seductive. She was a woman every man wanted!

When it came to that, she was slightly better than Iris and Cynthia.

“You!”

Leon was incredibly frustrated, but he did not know what to do about Ruth’s devilish mouth.

It was not just him, even Snow could not stand Ruth’s words anymore. Snow started to blush.

“Ruth, can you stop with your wild guesses?! Leon has always been someone with a morally upright character. Since when has he been like this?” Snow berated with a red face.

“Morally upright character? That might not necessarily be true! If he was a true gentleman, then how did Cynthia end up being his mistress?” Ruth sniffed, taking things further and further.

“That-”

Hearing that, Snow, Leon, Iris, and Cynthia were all dumbfounded.

Even though Leon and Cynthia never really confirmed their relationship, everyone already saw it as fact.

Ruth spoke the truth, they could not say anything to deny it!

## **The Ex-Husband’s Revenge By Dragonsky Chapter 1358**

“Ruth, what exactly do you want?” Leon said in frustration. He was completely defeated by Ruth’s wild logic.

“It’s simple, it’s not that you can’t teach Snow the Mysterious Maiden Method, but you have to teach the other half to me too!” Ruth said with anticipation.

“So you’re aiming for the other half of the Mysterious Maiden Method!”  
Leon realized something.

Leon did not even need to think about it before he rejected, “No! I already told you before, I’ll teach you other half once you reach the Overlord State!”

the

“Please, you don’t have to use that excuse to stop me! Why don’t Snow and I just become your mistresses just like Cynthia? Then, you don’t have to play favorites anymore!” Ruth thought about it and suddenly dropped a bomb on them.

“What?” Leon was completely stunned. He gaped as he looked at Ruth. His mind was completely fried by what Ruth said.

“Just look at how happy you look right now. You can’t even speak! I knew you had ill intentions. You wanted to swallow up all of the four beauties of Springfield City! You sure have grand ambitions!” Ruth said with a look of disdain.

“You-”

Leon’s face immediately darkened. He felt like Ruth was going to drive him crazy.

“Leon, forget about it. Stop arguing with Ruth. You should just teach her the other half of the Mysterious

Maiden Method.”

Iris could no longer stand listening to it all. She hurriedly went over to settle the matter.

“Fine then,” Leon hesitated for a moment but reluctantly agreed in the end.

He had already promised Ruth that he would teach Ruth the whole method once she reached the Overlord

State anyway.

Ruth was already an advanced Supreme Master. She was not far away from reaching the Overlord State. It was nothing too big for him to give it to her a bit earlier.

At least he would not need to suffer so many headaches.

“You petty man, you should have just done it earlier! Since you’re being so wise, I’ll hug you in return!” Ruth had a pleased smile on her face. After that, she happily hugged Leon. The smile on her face almost split her

face open.

Ever since she accidentally learned the first half of the Mysterious Maiden Method, she stuck with Leon for so long to learn the other half!

Sure enough, her efforts finally bore fruit!

It was obvious how happy she was!

“I don’t want that reward!” Leon scoffed and said.

Even though he said that he had to admit that Ruth had a very good figure despite her young age. Furthermore, her looks were on the level of Iris, Cynthia, and Snow!

If she had two more years to mature, her looks would be enough to bring nations down!

No wonder Ruth managed to become one of the four beauties of Springfield City even when she was only around twenty years old. All of them were incredible beauties in their own right!

After Leon thought about it, he composed himself and taught Snow the Mysterious Maiden Method, teaching Ruth the other half as well.

## **The Ex-Husband's Revenge By Dragonsky Chapter 1359**

“Alright, let's start our training!”

Once Leon finished teaching, Iris took a Premium Energy Pill and sat down, starting to train.

Leon and the others did the same right after that. All of them took their pills and started training in earnest.

After some amount of time, Iris ended up being the first to make a breakthrough, since she was the lowest in strength. She went from the peak Acquired State to the initial Innate State!

Then came Leon. With a jolt of power, he easily reached the intermediate Innate State!

Boom! Boom!

After some time, Cynthia and Snow both made a breakthrough as well. Both of them reached the peak of Innate State!

Snow in particular already stopped at the advanced Innate State for a very long time.

With the help of the Mysterious Maiden Method and the pure spiritual energy coming from the Energy Nurturing Pill and the Energy Convergence Circle, being able to break through was incredibly ordinary!

As for Ruth, she just become an advanced Supreme Master not too long ago. She still needed some time before she could become a peak Supreme Master.

However, she was still an incredibly rare genius from Springfield City. She did not have that title for anything!

Even though she did not manage it, her terrifying potential meant that she already absorbed a lot of the spiritual energy that was gathered there. Her strength improved greatly, and she was no longer that far away from being a peak Supreme Master!

Even Leon was envious at the sight!

“Snow, Cynthia, the two of you are already at the peak Innate State. You can take Pure Energy Pills now!

I still have two left. The two of you can have them first,” As Leon said that, he took out two Pure Energy Pills from his bottle and gave them over.

The Pure Energy Pills could help peak Innate State martial artists become Supreme Masters. As long as Snow and Cynthia took them, they would become Supreme Masters!

Then, they would truly be listed among martial arts experts!

“How could you do that? If you give us the Pure Energy Pills, then what will you do when you and Iris reach the peak Innate State?” Cynthia said with worry.

In truth, the Shears and the Southern King left Pure Energy Pills behind for Cynthia and Snow.

However, they forgot to bring it along when they followed Leon over.

“It’s fine! Iris and I will still need some time before we can reach the peak Innate State. Once we establish a branch for Cynthion in a few days, I’ll just make a new batch,” Leon said simply.

Back then, his mastery of the sage arts was low, and he needed incredibly good materials to make a Pure

Energy Pill.

However, since he reached the Foundation Phase, he would just need a main material that was around three hundred years of age!

With the Shears’ expertise in the field, they might not be able to get materials that were above five hundred years old that easily, but it was not hard to get those around three hundred years old!

“Yes, alright,” Cynthia nodded.

She relaxed after finding out that Leon could make Pure Energy Pills much more easily now. After that, she accepted a pill and took it.

## **The Ex-Husband’s Revenge By Dragonsky Chapter 1360**

“Leon, meeting a brother like you truly is one of the luckiest things in my life,” Snow took the pill from Leon’s hand. She felt a warmth in her heart. She was incredibly touched.

After going through some romantic trauma in the past, men disgusted her for a long time.

However, ever since she met Leon, everything changed!

Leon defeated Jacob during the show match, helping her regain some honor.

After that, when the Fields set up an ambush for Leon, Leon put his life on the line to fight his opponents, refusing to leave her there and run!

Then,

Leon did not even bat an eye as he taught her an Absolute Method. He even gave her one of the pure Energy Pills that he did not have much of left!

Everything Leon did for her was incredibly sincere. There were no lies behind it at all!

It was as if waves of warmth filled her heart, thawing the ice that was there for a long time.

“Snow, you’re exaggerating. It’s my honor having you as a sister,” Leon said.

He was an orphan since he was young. He did not have any relatives at all, and once the orphanage was gone, he had no one to rely on. He became even lonelier.

With a sister like

Snow, he felt a sense of happiness and contentment he never did before!

“Alright, stop being so cheesy. Let’s hurry up and train!” Ruth said in a hurry, breaking the atmosphere between them.

After that, Snow took a Pure Energy Pill and started to train with Cynthia.

Taking the chance, Leon and Iris continued to train, solidifying their new power.

Ruth was the same. She was more meticulous than anyone else when it came

to training. She constantly absorbed the spiritual energy around her to bolster her strength.

After a long time, with the help of the Pure Energy Pills, Cynthia and Snow both make a breakthrough, becoming Supreme Masters!

Right after that, the two of them solidified their strength before they got up to leave.

“Alright, it’s getting late. Let’s go back to rest. We’ll continue training tomorrow.”

After that, Ruth, Snow, and Cynthia saw that it was late, and all of them went back to their rooms to rest.

“Iris, let’s get some rest too!”

When the rest of them left, Leon smiled slyly as he grabbed Iris’ waist and walked toward the bed.

The next morning, the housekeeper that Cynthia and the others hired arrived. She was Missus Tuck, a lady around fifty years of age. She looked honest and reliable.

“Mister Wolf, ladies, it’s time for breakfast.”

After making breakfast, Missus Tuck had a warm and kind smile on her face as he called Leon and the others

down to eat.

“Coming.”

At that moment, Leon and the others finished their morning rituals and walked out of their rooms.

After breakfast, Cynthia remembered what she talked about with Leon the night before. She said in a spirited manner, “Leon, let’s go!”

“We should go find out if there are any abandoned pharmaceutical companies or those that are preparing *to* be sold so we can purchase it for ourselves.”

“Yes, alright,” Leon nodded. He got up and the girls prepared to leave as well.

## **The Ex-Husband’s Revenge By Dragonsky Chapter 1361**

At that moment, Mrs. Tuck, who was clearing up the kitchen, happened to hear Leon and Cynthia’s conversation.

“Mister Wolf, you’re planning on buying a pharmaceutical company?” Mrs. Tuck could not help but ask.

“Yes, we are,” Leon answered.

“What a coincidence! My son happens to work in one. I heard him say that their company hasn’t been doing well for the past two years. It seems like they’re prepared to sell it,” Missus Tuck said with a smile.

“Is that so? That’s great!” Leon and Cynthia were incredibly happy to hear that.

Good things came unexpectedly. Neither of them expected their housekeeper to have news of a pharmaceutical company before they could even ask about it. It was a pleasant surprise!

“Missus Tuck, where is your son? We can look for him right now!” Leon asked in a hurry.

“He should be working at the moment. Why don’t I give him your number? You can just call and contact him directly,” As Missus Tuck said that, she passed her son’s contact information to Leon.

“Missus Tuck, thank you so much for this! If this goes well, I’ll thank you properly later!” Leon did not forget to thank her even more after getting the information.

“Mister Wolf, you’re too kind. I’m just telling you some information, there’s no need to thank me,” Missus Tuck hesitated for a moment before she stopped.

“What is it? Do you have anything else?” Leon could tell that she was looking strange, so he asked curiously.

“Mister Wolf, I have a small favor to ask. My son’s been working in this company for a long time. He’s worked very hard and went through a lot to become a small manager in the company. If you purchase the company, I hope you’ll let him continue working in it. Don’t fire him!” Missus Tuck said after some

hesitation.

“Alright, that’s not a problem!” Leon agreed without even thinking about it.

If he was able to purchase the company, nurturing good management was the first step!

Since Missus Tuck’s son was in the company as a manager, he was probably somewhat capable. Leon would love to have someone like that with him, there was no way he would force the man to quit!

“Mister Wolf, thank you so much,” the housekeeper said with a smile.

After that, Leon gave Missus Tuck's son a call and briefly talked about the situation. Then, he left the villa with Cynthia and the others.

At Medicare Pharmaceutical, Leon drove Iris and the others over.

At that moment, there was a young man about thirty years of age waiting in front. He was Missus Tuck's son, Otis Tuck.

After getting off the car, Leon and the others walked right over.

Seeing Leon and the others, Otis hurried over after being amazed by the beauty of the women.

"Are you Mister Wolf? I'm Otis Tuck. You called me just now," Otis asked.

"It's me! Otis, hello. Sorry for troubling you with this," Leon smiled and greeted the man.

"Mister Wolf, don't mention it. Please come with me to the guest lounge," Otis said before leading Leon and the others into the company.

## **The Ex-Husband's Revenge By Dragonsky Chapter 1362**

Along the way, Leon and Cynthia observed the condition of the company, including the environment, the office, and the facilities.

The two of them were quite happy with the company and decided to buy it in their minds.

After they arrived at the lounge, Otis poured some tea for all of them.

"Otis, do you know how much your company is planning to sell for?" Leon asked.

“Mister Wolf, that’s something for the executives, so I don’t know the details. However, I’ve heard that my general manager once had a few experts evaluate our situation before. The market price of the company should be more than a hundred and thirty million. The estimated sale price is around one hundred and seventy–two million,” Otis answered honestly.

“Oh, alright. Thank you for the information,” Leon smiled, having a figure in mind.

The size of Medicare Pharmaceuticals was on the average side. It was more or less the same size as thion Group when it first started.

Since it was not that big, it was not that useful for some larger pharmaceutical groups, so it was not sold that quickly.

However, Cynthion Group was not specialized in pharmaceuticals, but more in the selling of Leon’s pills.

Medicare Pharmaceuticals was not suited for most large groups, but it was very suitable for Cynthion Group to set up a branch!

Other than that, the selling price seemed reasonable. On top of that, Leon was in a hurry to establish a branch, so he felt like he needed to get the company!

“Mister Wolf, please wait here. I’ll go get the higher–ups to talk to you,” Otis said before he left the room.

Before too long, some footsteps were heard. Otis came in with a few men of varying ages.

The one in front was a young man about thirty years old. He had expensive clothes on, and he had an arrogant look on his face. He gave off the feeling that he was above everyone else.

“Mister Jones, let me introduce you. This is Mister Leon Wolf. He wants to

buy our company. Mister Wolf, this is Mister Tony Jones, our general manager," Otis introduced.

"Mister Jones, hello. It's a pleasure to meet you," Leon smiled politely, reaching out to shake the man's hand.

However, Tony completely ignored Leon. Tony's eyes were immediately fixated on Iris and the others. His eyes widened suddenly, and he felt completely amazed!

With who he was, he met a lot of absolute beauties before, but he saw a woman as beautiful as Iris and the others. Just from the first look, he was immediately enthralled by them!

"Beauties, hello. I'm Tony Jones, I'm the general manager of this company," Tony seemed like a completely different person. He had a smile on his face, and he reached out to shake their hands.

"That-"

Iris and the others frowned. They exchanged looks with each other, unsure of what to do.
