The Ex-Husband's Revenge Chapter 241

As for the other ex-classmates, they were all just having fun watching the show.

They knew that Leon was an orphan without anything to his name.

The fact that Cynthia was Leon's girlfriend meant that Cynthia's family would not be that well off either.

Now that Cynthia was dumb enough to offend Dominic, the moment Dominic's reinforcements arrived, what awaited Leon and Cynthia was obvious!

"You're trying to leave? It's already too late!"

Dominic had a sneer on his face when he heard the footsteps outside.

The moment he said that, the door to the room opened. The manager walked in with four or five aggressive-looking bodyguards.

"Dominic, what's the matter? Who's trying to cause trouble here? How dare they!" The manager said coldly.

Dominic pointed at Cynthia and Leon, saying viciously, "It's the two of them!"

Cynthia scoffed.

That scoff sounded like a thunderbolt in Dominic's ears. He suddenly remembered how he rushed at Cynthia

earlier.

With the power of the Shears, killing him would be easier than killing an ant.

If he did not figure out a way to get Cynthia to forgive him, it would be a disaster!

Thinking about that, Dominic felt a chill in his heart. He immediately knelt as he pleaded fearfully, "Miss Shear, I didn't do it on purpose. Please be generous and forgive me this one time..."

"Now you know to beg for mercy. Why didn't you do that earlier?!" Cynthia snorted, not moving at all.

With the power of the Shears, Leon's future would be limitless as long as he clung to them!

At the very least, he would be much better off than regular folk like them!

Suddenly, they felt a bit of regret. If they knew that Leon was so capable, they should have tried to curry favor with Leon. If Leon ended up making it big in the future, they might have been able to gain something.

Yet, they were already too late!

In another room, Leon and Cynthia ate as they discussed their cooperation.

Everything went very well. After talking through some details, they signed the contract.

After everything was settled, the two of them left the hotel.

At that moment, a cold laugh could be heard. The other SUV from behind was already close by.

The door opened, and three young men walked out of the car.

One of them had a suit on. His eyes were very sharp, and he felt very threatening. It was obvious he would not be someone easy to deal with.

Not good! They had friends!

Cynthia had an uneasy feeling in her heart as she started to run toward her car.

She was not even able to handle those two earlier. Now that there were three more helpers, she felt like there was no way she could win.

“Get her!” The man in charge shouted coldly. With a wave, the two subordinates rushed toward Cynthia with the lanky man and his friend. They quickly surrounded Cynthia.

“Who are you guys?! What are you trying to do?!” Cynthia shouted angrily.

The important thing is, you should just resign yourself and surrender. Don’t make things difficult for yourself!” The front

“I don’t know...” Cynthia shook her head.

Cynthia asked curiously, “Leon, didn’t you go home just now? Why are you here?”

“Oh, when I was leaving the hotel, I saw that those two cars looked like they followed you, so I decided to follow along,” Leon briefly explained.

“No wonder,” Cynthia had a look of realization. After that, she quickly realized that the situation was urgent. It was not the time to talk to Leon. So, she said in a panic, “Leon, these people are very strong. They’re all at the peak Acquired State!”

“I’ll hold them back, you should run!” Cynthia walked in front of Leon.

When Leon was with the Shears, she briefly exchanged blows with Leon and knew that he might be a martial artist.

However, Leon did not use any true energy at all, so she thought that Leon’s level was still too low. He was probably only at the initial or intermediate stage of the Acquired State, it was a far cry from her skills.

Of course, she planned for the worst as well. Even if she did not manage to subdue her opponent, as long as Leon managed to escape and contact Shears, their opponents probably would not dare to touch her!

“Know your place!” The leader sneered as he punched Cynthia with incredible force, hitting Cynthia’s attack!

Boom!

With an intense clash, the leader did not move at all.

Instead, Cynthia was sent flying as she fell on the ground heavily.

“Ugh...”

When she fell to the ground, Cynthia spat out a mouthful of blood.

“Intermediate... Innate State!” Cynthia was completely shocked, ignoring her wounds.

What was even more hilarious was the fact that Leon kept saying that he would not abandon her. Yet, Leon suddenly ended up fleeing faster than a rabbit. Even four peak Acquired State Martial Artists could not catch up!

It was quite obvious how she would feel!

“You four idiots! You can’t even catch up to a regular person! What’s the point of having you around?!” The leader was furious. He did not feel any true energy in Leon at all, which meant that Leon was not a martial artist. The only possibility was that Leon ran faster than normal.

“It looks like I’ll have to do something!” The leader held back his anger as he leaped forward, immediately chasing after Leon.

His skills were much stronger than his four subordinates. In just a flash, he quickly caught up.

“Brat, stay down!” The leader sneered as he lashed out in an unbelievably threatening manner, quickly attacking Leon.

“Ah!”

Feeling the man’s attack, Leon was shocked as he fell to the ground, luckily avoiding his opponent’s attack.

Taking advantage of them being distracted, Leon launched a few attacks. Defeating the opponent in front with one punch before kicking another one. He broke through them in an instant.

The two remaining ones realized that they were in a bad spot, and frantically retreated, narrowly avoiding Leon's attacks.

At that moment, the injured leader already managed to force himself to stand up. Seeing that the situation was already decided, he knew that they would not be able to continue fighting against Leon.

With Leon's abilities that already exceeded the initial Innate State, his subordinates would not be able to defeat Leon.

"Brat, I'll remember you! I'll make sure you pay me back ten times over next time! Let's go!" The leader viciously glared at Leon as he decisively gave the order to retreat.

Gordon and his men had fearful looks on their faces as they hurriedly reported everything that happened.

“Who’s that guy? Could it be one of the Shears’ bodyguards?!” The man said coldly. He had a very vicious aura around him. It was completely different from how he acted earlier.

“That... I don’t know...” Gordon said anxiously.

“What’s his level at? Is he in the intermediate Innate State, or the advanced Innate State? Someone young who’s as strong as he is shouldn’t be anyone unknown!” The young man asked.

He knew that Gordon was in the intermediate Innate State, and Gordon even had four subordinates who were in the advanced Acquired State.

If their opponent was not at the intermediate Innate State or above, there was no way he could have defeated Gordon and his men.

“He’s not, he’s only at the initial Innate State, and is just a little away from intermediate,” Gordon answered truthfully.
