Chapter 2193

With a loud bang, their attacks clashed as the Scarlet Thief had originally predicted. Leon was inferior in terms of power level, so the Fiery Serpent instantly tore through Leon's attack and slammed toward him.

Leon simply angled his body so that he could receive the attack with the Mirror of Sovereign as before. At the same time, he launched a Double Attack with his true energy in the Intermediate Overlord State at the Scarlet Thief.

"I knew it!" After encountering a similar situation earlier, the Scarlet Thief was prepared and did not attack with full force. Hence, he managed to withdraw his energy and retreat as soon as Leon launched the Double Attack.

Unfortunately, while the Scarlet Thief acted swiftly, Leon was much quicker.

Leon took a huge step forward and darted toward the Scarlet Thief like a stream of smoke using the Phantom Steps as he continued to blast the Scarlet Thief with the Double Attack.

'Damn it!" The Scarlet Thief's expression darkened.

At the very last moment, he gritted his teeth and protected his chest from getting hit, only for Leon's attack to slam hard against his shoulder.

Following the loud sound of bones cracking, the Scarlet Thief grunted and paled. The bones on his shoulder were completely shattered, and he was instantly sent flying into the distance.

"Good! That should be the last time he can use that defensive tool!" The Scarlet Thief stood up and burst out laughing despite the pain in his shoulder.

After the previous exchange, he was certain that Leon had already used the defensive tool three times in a row. If he was not mistaken, the tool could no longer be used anytime soon. Thus Leon would be rendered powerless.

Brat, it's my turn now! Die!" The Scarlet Thief sneered and narrowed his eyes maliciously.

Leon had injured and shattered the bones in his shoulder, costing him the mobility of his arm, so he desperately wanted to rip Leon apart.

Since Leon has depleted the uses of his defensive tool, the Scarlet Thief saw this as the best chance for him to retaliate.a

Without any hesitation, the Scarlet Thief launched the Fiery Serpent again at Leon with the intention of killing him in a single blow.

"Know your place!" Leon bellowed.

The Scarlet Thief taking the initiative to attack was exactly what Leon wanted.

Leon stepped forward and launched his Earthly Plunder to counter the Scarlet Thief s Fiery Serpent.
