The Ex-Husband's Revenge Chapter 831

Cynthia hurriedly gave Leon some advice.

She knew that Leon's true strength only made him an intermediate Supreme Master. There was no way he would be able to rival Marco, who was a peak Supreme Master!

If Leon insisted on forcing things for Iris's sake, Marco would be able to eliminate Leon easily!

"Leon, thank you for wanting to help me. This matter doesn't concern you, you should leave," Iris said with a conflicted expression on her face.

She already broke up with Leon, and did not want to drag Leon into it. She was already happy enough that she managed to see Leon this time.

Gilbert was very anxious and did not say anything.

Leon was the only person who could possibly save Gilbert and Iris at that moment, so he did not want Leon

to leave.

However, Leon was much weaker than Marco. If Leon actually stayed behind, Leon would essentially be committing suicide!

Of course, Leon was not as reckless as everyone thought.

He dared to take Marco's punch head on
purely because he secretly took a Dragon Pill while everyone else was distracted.

With the help of the Dragon Pill, his strength temporarily rose to the level of a peak Supreme Master. He
was equal to Marco in power, so he was not afraid!

Bang!

Just as Harold and the others were looking down on him, Leon's fist clashed against Marco's.

Suddenly, he was filled with regret, but it was already too late!

“He’s just a peak Supreme Master! Leon, even if you really were already at the Semi Overlord State, you’ll still die today!” Harold had a cold look on his face.

He was already intent on killing Leon. Before Leon could react, he suddenly raised a fist, charging forward imperiously as he rapidly approached Leon.

“Despicable!” Leon was shocked.

He never expected that Harold would dare to launch a sneak attack on someone from a younger generation when Harold was someone so important.

However, Leon did not waste a single second. He quickly retreated and tried to avoid Harold’s attack.

"Brat, it's time for you to die right now!" Harold let out a fierce smile.

He took advantage of his earlier success and quickly appeared in front of Leon, sending his hand at Leon's

head.

If that strike landed, Leon would definitely die!

"Harold, stop right there! If you dare to kill Leon, then even if the Shears have to give up everything, we'll never forgive you!" Cynthia shouted out with fire in her eyes.

Iris was no better. When she saw that Leon was about to die for Harold, she was pale as a sheet of paper. Her body started to sway, and she almost fainted on the spot.

"Cynthia, do you think a child like you can even begin to threaten me?!" Harold scoffed.

"You'll make sure I can't get out of this alive? You sure have some guts! Leon, just keep bragging. Do you think I'm scared of what you're saying?!"

Harold started to laugh out loud, as if he heard the funniest thing in the world.

The others that were watching, including the Youngs, could not help but scoff as well.

Leon was already at a complete disadvantage. His life was practically in Harold's hands. They did not understand where Leon got his bravery and confidence from!

"I'm not bragging. You'll find out soon!" Leon said calmly.

"You sure love to talk when you're staring death in the face! Alright, I'll take away your martial arts first. After that, I'll cripple you and see what you can do to me!" Harold sneered.

Right after that, he no longer wasted any time as he raised his hand and slammed his palm toward Leon's Energy Sea Point.

Taking the chance, Quinton led the other experts from the Hunts to Leon’s side.

“Mister Wolf, are you alright? I was late, I hope you can forgive me.”

Quinton let out an apologetic smile as he greeted Leon.

“I’m fine, you came at just the right time!” Leon said with a smile.

“That’s great.”

Quinton breathed a sigh of relief. He saw that Leon did not seem to be in any danger other than his injured arm, so he was less worried at that moment.

The difference between being at the Semi Overlord State and the Overlord State was night and day. There was a huge gulf between the two of them that could not be overcome very easily!

A Pure Energy Pill could help anyone below the peak Supreme Master level increase the efficiency of their training. It did help Semi Overlord State experts, but the effectiveness was greatly decreased!

Leon thought about how Harold did his best to try and steal the three Pure Energy Pills from Quinton and could somewhat guess something.

It was possible that Harold's breakthrough had something to do with those three Pure Energy Pills. Otherwise, there was no way Harold would have robbed Quinton at the risk of offending the Hunts!

"Whatever, luckily I made preparations this time. I got an Overlord State and two Semi Overlord State martial artists from my family! Even if Harold is already at the Overlord State, there's no way he'll be able to do anything!" Quinton let out a cold laugh, not paying Harold any mind at all.

"Third grandfather, I'll leave Harold to you. He actually dared to steal from our family. You have to get justice for us!" Quinton told the old man.

The old man nodded. He walked forward and stared right at Harold.

Comparatively, the Lowes were much weaker.

Other than Harold, the strongest among the Lowes were only at the level of a peak Supreme Master.

It was obvious which side was stronger!

In just a moment, both Harold and the Lowes were quickly looking like they were going to lose. Seeing the tables turning so quickly, the Youngs could not help but feel a sense of awkwardness. They thought that Leon would definitely pay a massive price for his youthful arrogance! Yet, none of them expected that Leon actually had a backup plan. They underestimated Leon too much! "In my opinion, the Youngs will definitely need to establish a long alliance with the Lowes to solidify our position and influence. Otherwise, we might very well go downhill very soon!" Daisy said calmly.

"Yes, Daisy is right!"

"Establishing a long alliance with the Lowes would greatly benefit the family!"

A few of the elders nodded in agreement.

The other three of the four great families in Springfield City all had two Overlord State martial artists to solidify their power. The Youngs only had one Overlord State expert left at that moment. They were powerless to compete against the other three.

Only by working with Harold could the Youngs hold onto their power and influence.

Leon nodded.

“What nonsense! Leon, you and the Shears are clearly the ones behind that venture capital company. You’re just trying to push the blame on me and try to ruin my relationship with the Youngs. What are you plotting?!” Harold said with a dark look on his face.

He did not know how Leon found out that he was the one behind the venture capital company, but the matter was too big for him to admit to it!

“Harold, you know yourself whether I’m speaking the truth or not! You’re a man. You should be willing to admit to what you did!” Leon sneered.

“I’ve never done anything wrong, so what’s there to admit? Instead, you secretly bought over Elegante behind the scenes to try to sabotage the Youngs! You just love to act so sneakily and shamelessly!”

Harold remembered Leon buying over Elegante, and hurriedly used that to push the matter to Leon.
