

I'm A Quadrillionaire

Chapter 2227

Chapter 2227

Star Kingdom.

The Iridescent Sect.

David looked at the 20 thousand lavish points in the system with a smile on his face.

The Spirit Cage was such a great place.

It was definitely a blessed land.

How long has it been since he entered The Spirit Cage?

After some calculations, it was only a few months.

Now, his strength was about to break through to the last rank of Divine Realm - Ancestral Deity Rank.

Ancestral Deity Rank!

Even if David had never been to The Spirit Cage, asked Beanie about the specific situation of The Spirit Cage, or had no idea what level Ancestral Deity Rank was, he would still know that it was not something common.

Ancestral Deity!

Just the name alone was so intimidating.

Azul, a partial Deity, already had a high status in his family.

Therefore, one could only imagine the status of an Ancestral Deity.

David was going to break through first. He would use up his lavish points and then improve his strength.

He did not hesitate to click on the plus sign behind the Body column.

After a window popped open, he clicked Yes.

10 thousand lavish points disappeared.

Then, David closed his eyes and felt the changes brought about by his physical breakthrough.

After the physical breakthrough, David clicked on the plus sign behind the Mind column.

It was the same.

Another 10 thousand lavish points were consumed.

There were more than 20 thousand lavish points initially, and now, there were only more than 100 points left.

The upgrade of Mind was much more uncomfortable than Body.

However, for David, who was used to it, it was not a problem.

Soon, his mind power also came to Ancestral level 1.

Then his breakthrough ended.

Both his Body and Mind reached Ancestral level 1.

His combat strength also went to beginner Ancestral Deity Rank.

If he had another 9000 lavish points to upgrade his Body to Ancestral level 10, David's strength could reach peak Ancestral Deity Rank, the limit of Divine Realm.

Clenching his fist and feeling the surging power in his body, David felt that he could punch through the universe now.

It was so cool to have such inexhaustible power.

Now, he hoped that the Feather family would come sooner so that he could give them a lesson they would never forget.

David did not believe that the Feather family would send a strong Ancestral Deity over.

That would be unrealistic.

It was hard to say whether the Feather family had an Ancestral Deity or not.

Even if they had, they would be a grandmaster and how would they come out so easily?

After the breakthrough was completed, David stood and stretched his muscles before walking out of where he was living in seclusion.

He did not stay in the forbidden area of the Iridescent Sect for seclusion. Instead, it was a separate courtyard with beautiful scenery in the depths of the Iridescent Sect.

As he pushed open the door, walked out of the room, and came to the yard, it was daytime in the real world and the sun was shining brightly.

While feeling the warmth of the sun on his body, David looked up at the sun hanging in the sky and felt curious.

The Spirit Cage was just a virtual world, so how could it be so real?

There was no difference between having fun there and in the real world.

Even the pain suffered when injured was several times worse compared to the real world.

Not to mention death.

Death in The Spirit Cage meant the disappearance of the soul, so naturally, one would not be able to wake up again in the real world.

How could one have a body without a soul?

After thinking for a moment, David shook his head, still unable to understand the key point.

A level 9 civilization had its own means.
