

## Read Novel When His Eyes Opened Chapter 3169

**When His Eyes Opened Chapter 3169**-After Hazel finished speaking, Lucas spoke: "I want to work hard first. I will wait until I'm capable."

Hayden smiled and asked, "Do you think starting a business is that simple? What if you fail to start a business? Or what if you have always been unable to achieve success?"

Lucas: "If, as you said, my business fails, or I fail to achieve a high level or a low level, I will not drag down Hazel."

Hayden: "You are self-aware."

Hazel's cheeks were so red that they were about to burn, "Brother, even if Lucas fails to start a business or if he is not successful, I will not give up on him. At least I will not give up on him now because he has no money."

Joanna held Hayden's hand again, trying to make Hayden restrain himself.

He could be sharp and aggressive towards outsiders, but he couldn't be like this towards Hazel.

Hazel also noticed that her words were a bit absolute, and her tone slowed down a bit: "Brother, I think money is not the criterion for measuring a person. Our family is rich enough, if I find a rich boyfriend, In fact, very few people are richer than our family. Since they are all not as rich as our family, what does it matter if the other party has more or less money?"

Joanna: "Hazel is right. When two people are together, the most important thing is their feelings. If the other party is richer than Lucas but not so good to Hazel, then we will force Hazel to be with the richer one because it does not make sense for them to be together."

Hayden: "With the conditions of our family, no man will treat Hazel badly."

Joanna had nothing to say.

What Hayden said was true.

No matter who Hazel married, the other person would not dare mess with Hazel.

This was the reason why the Foster family was rich.

Hazel expressed her thoughts: "Others are good to me because my family is great. Lucas is good to me, not because of this relationship."

Hayden: "A richer man can give you a better life."

Hazel: "Brother, I'm not afraid of suffering. And I'm capable now; I can live well on my own. If Lucas can't make money, I can go out to make money and let him do housework at home."

Hayden: "..."

Joanna couldn't help laughing.

Lucas blushed.

The waiter came over with the dishes.

When the food was on the table, Hazel immediately greeted him: "Brother and sister-in-law, please try it and see how it tastes."

Hayden and Joanna picked up their chopsticks and started eating.

Hazel also picked up her chopsticks and started to eat.

At this time, Lucas said, "If I can't succeed, I won't marry Hazel."

Although Hazel didn't care whether Lucas had money or not and was even willing to make money to support him, Lucas couldn't accept it.

"Okay, you give me a deadline. We can't keep Hazel waiting for you." Hayden put down his chopsticks and looked at Lucas.

"Three years." Lucas said.

"Three years is fine, but you have to start a business in Aryadelle." Hayden made a request: "Hazel can't stay in Thopiavelle for the next three years. Let her stay here in a hotel every day? If you want to be successful, you should focus on the economy. Instead of nesting here, you should grow in a better and bigger place."

Hazel: "Brother, Lucas returned to Thopiavelle because his mother was sick. He originally started his business in Eozambiulle."

"Okay, let's not talk about this for now. Let's eat!" Joanna felt that Hayden's aura was too strong, and he was not very friendly to Lucas.

From Joanna's point of view, Lucas was already considered a very good man, with responsibilities and abilities, as well as certain abilities.
