I am a quadrillionaire chapter 2283-The first thing they did on arriving in Wier was to find a place to stay.

David and his party walked the bustling streets of Wier for a long time. There were many inns where they could stay, but they were all of average standards.

Since they wanted to find somewhere to live, they had to live in the best place.

After asking a local and following the guidance of the other party, they found an inn with a better environment to live in.

David planned to stay in Wier for a while.

They could only leave after he upgraded both his Body and Mind to Ancestral level 10. Then head to the other destination, the main city of Amber City.

He would need at least hundreds of thousands of lavish points to do this.

So, he had to spend tens of trillions of L Dollars.

Therefore, they had to buy a house.

Living in a house would be more comfortable than in an inn.

Moreover, as a first-tier city, Wier houses were expensive.

So he could also earn lavish points.

It would not be a lot, but it would be better than nothing.

David handed Thor the responsibility of buying a house.

As a businessman who had traveled all over the world and climbed up from the bottom, Thor was definitely capable of doing so.

David handed the responsibility of buying a house and treasures to Thor.

Meanwhile, Beanie was in charge of managing the internal chores.

A woman so beautiful should not go out to deal with those profiteers and show her face. It would cause trouble.

David had a deep understanding of this.

After only three days in the inn, Thor bought a house. The location of the house was good, the area was big, and the environment was also superb.

Of course, the price was not cheap.

After dealing with the house, Thor devoted himself to other matters.

If he wanted to develop in Wier, he must first establish a good relationship with everyone.

David would not ask about these things and all he would do was pay.

The more money Thor spent, the happier he was.

On the first night of moving into his house, David told Pebbles that he needed to go into seclusion to upgrade himself.

The little girl told David to be careful and then stood guard in front of the door so that no one would disturb David.

What Pebbles did made David feel very helpless. It was because he did not need it but yet he could not refuse Pebbles.

After sitting on the bed and turning on the system, David opted out of The Spirit Cage.

He returned to the real world when he opened his eyes.

It had been several months since he was back and yet the surroundings were still familiar.

Inside the secret room of the Iridescent Sect in the Star Kingdom, David turned on the system again. His Body was at Ancestral level 3 and his Mind was at Ancestral level 10.

Then, he clicked on the plus sign behind the Body column.

A window popped up, and he selected Yes.

A thousand lavish points disappear.

He felt the slight heat as his Body rose from Ancestral level 3 to Ancestral level 4.

He did the same again and, in the end, he spent 7000 lavish points to raise his Body to Ancestral level 10. Just like his Mind, his Body had reached the limit of Ancestral Deity Rank.

After he got used to the changes in his body, David could not wait to turn on the system.

He wanted to see how his combat power would change when both his Body and Mind reached Ancestral level 10, also the limit of Divine Realm.

‘What is the next realm after Divine Realm?’

As soon as he opened the system, David fixed his eyes on the combat power column.

[Combat power: partial Overlord Realm Supreme Overlord Rank)
