I am a quadrillionaire chapter 2316-And now, Empress Elora of the five Leila rulers had been seriously injured by the Robotias and the Soul Devourers, and her whereabouts were unknown.

So, David's ranking might go even higher.

"David! What should we do?" Nova grabbed David's hand and asked nervously.

Even though she already knew that David had the strength to fight Blue, she was still worried.

"Nova, don't be afraid. As I said before, a mere Pre-Deity can't do anything in front of me. Now, I'm going to avenge you and let him know that no one can make trouble in Star Kingdom," David patted Nova's hand comfortingly.

"But..."

Nova wanted to say more.

However, as soon as she spoke, David interrupted her.

"No buts! Nova, let me tell you the truth. I have already broken through partial Deity Realm. Even if the Feather family comes in full force, they can only be obedient and kneel in front of me to beg for mercy, let alone a Pre-Deity like Blue. They won't even dare to breathe too loudly, even if I destroyed their entire family."

After David finished speaking, an imposing energy surged all over his body.

As he looked above him, it seemed as if he could see Blue in the sky through the roof.

Nova froze.

She stared blankly at David.

It was the first time she saw him showing such a mighty and domineering side.

He made Blue, the Deity who made Star Kingdom's Sacred Saints helpless, sound worthless.

He even looked down on the Feather family behind Blue.

What kind of strength did he have to be able to achieve this level?

David was still so young, so was it possible?

Nova did not know if David spoke the truth or if he was just comforting her.

If there was a choice, she would rather believe it was true.

Blue, in the air, suddenly felt a gaze locked on him, making his hair stand in an instant.

'What's going on?

'Why do I feel scared?

'It's as though an ancient beast, much more powerful than me, is targeting me.

'I must be hallucinating!

'Certainly!'

Blue shook his head.

A level 7 civilization could not have the power to scare him.

Not even a Primordial Deity could do this.

That person had to be at least an Ancestral Deity to do this.

If anyone told Blue that a small level 7 civilization possessed an Ancestral Deity, he would die laughing on the spot.

The Feather family had stood in Leila for countless years and their strongest Grandmaster was just an Ancestral Deity.

He was a big shot who could deter anyone.

Countless forces have looked at the Feather family but he had intimidated them from doing anything.

With an Ancestral Deity in charge of any of Leila's forces, they were a force that should not be casually provoked.

Star Kingdom was nothing more than a level 7 civilization.

Impossible that it had an Ancestral Deity.

When he thought about this, Blue's heart calmed again.

Inside the secret room, the corner of David's mouth curled into a cold smile that would make others shudder.

"Nova, watch carefully! I'll let you know that a Deity is nothing more than an ant in front of me. It doesn't matter if he is a Pre-Deity, a Primordial Deity, or even an Ancestral

Deity!"

After saying this, David exuded an energy that felt as if he was above the world, causing Nova to feel dizzy watching him.

"Is this David's true strength?" Nova murmured in her heart.
