

Read I Am A Quadrillionaire Chapter 2452

I am a quadrillionaire chapter 2452-He tried to visit David a few times but could not because David was in seclusion.

680 thousand lavish points.

Now, David's Mind and Body were both at Supreme level 1.

If he wanted to raise the two to Supreme level 10, he would need to spend 180 thousand lavish points.

Which meant, he would still have 500 thousand left.

Yet, if he wanted to upgrade his Mind or Body, he would need millions of lavish points.

He needed 500 thousand more to raise one of them to Ancient Overlord Rank.

Still, David was not in a hurry.

There were no threats in both the real world and The Spirit Cage, so he could slowly accumulate the lavish points.

Next, David started to upgrade himself.

First, he used 90 thousand lavish points to raise his Body to Supreme level 10.

Then, he spent another 90 thousand lavish points to raise his Mind to Supreme level 10.

After a while, David opened his eyes and let out a long exhale.

A satisfied smile appeared on his face.

He then opened the system.

[Body: Supreme level 10 (You may upgrade using 1 million lavish points)

[Mind: Supreme level 10 (You may upgrade using 1 million lavish points)

[Combat: Partial Ancient Overlord

[Lavish points: 503765

[Special Skill: Cloning (level 4)]

His Mind and Body were both at Supreme level 10 and his combat also reached partial Ancient Overlord Rank.

He still had 500 thousand lavish points.

David figured since he was not in a hurry to breakthrough, he should use 10 thousand to raise his Cloning to level 5.

If he did that, he would have more clones.

When the time came, even if Celia and the women were not together, they could still handle the crisis together.

Since he had this idea, he would execute it now.

David clicked on Cloning and a window popped up.

[You will spend 10 thousand lavish points to upgrade Cloning. After the upgrade, your Cloning will go from level 4 to level 5. Your clones will also increase from 9 to 27.

Please confirm if you want to proceed.]

There were two options.

'Yes' or 'No'.

The system was waiting for its host to answer.

'27 clones?'

This number pleasantly surprised David.

He did not think that it would increase so much.

'If it upgrades to level 6, won't my clones be in the hundreds?'

He would attack with more than a hundred clones. That would surely be impressive.

David did not hesitate to choose 'yes'.

His clones then went from 9 to 27. His Mind and Body also attained Supreme level 10 while his combat attained partial Ancient Overlord Rank.

At this moment, David had a thought in his mind.

'If I meet a real Ancient Overlord, will my 27 clones and I defeat it?

'My clones are not normal partial Ancient Overlords, but death warriors. They can self-detonate to sacrifice themselves at any time.

'Even a real Ancient Overlord will feel troubled facing this kind of death warriors.

'Plus, it's not one or two but 27.

'Unless the enemy can destroy 27 clones and my main form.

'Or else, even if they destroy a few of the clones, I can still summon more with blood essence.

'If I have enough blood essence, theoretically I would have endless clones.'

However, when he thought of this, David had to consider another question.

Even though he had a lot of blood essence, it was limited after all. Now that he calculated it, he only used more than ten drops and he had less than a hundred of them. So, his body could still handle it for the time being.

However, as he used more blood essence, there would surely be some problems with his body.

So, he still had to think of a way to replenish his blood essence.
