

## Read I Am A Quadrillionaire Chapter 2400

I am a quadrillionaire chapter 2400-The main reason was that Foal Beasts were docile, and they were fast and stable.

Of course, some important figures would take other means of transportation to show off their identities.

The gate of Amber City was not only hundreds of meters high but also more than 100 meters wide.

Dozens of entrances were opened and there were long queues at each entrance.

As one of the eight main cities of The Spirit Cage, the entire Amber City had 108 majestic gates with a height of 100 meters. Yet, David and the others saw only one.

There was a long queue at every gate, which showed how big the flow of people in Amber City was.

It was not at all comparable to a first-tier city like Wier.

The team reached the end of the line.

David knew he was a newcomer so he had to keep a low profile.

Initially, he wanted to just follow the line as there was no need to cause trouble when entering a city.

After he took a look, he noticed that the lines were too long and it was taking forever.

On the other hand, there were a few entrances next to them that had no lines.

The ones using those entrances were all luxurious carriages. So, those must be the entrances for the rich and powerful. Seeing the endless queue, David did not want to wait any longer. So, he called Beanie over.

Soon Beanie walked in.

“Master David, how can I help you?”

“The line is too long, so let’s go directly to the entrances that don’t have lines,” David said.

“Master David, didn’t you just say that we should keep a low profile when we first arrived in Amber City? The entrances without lines are for the dignitaries of Amber City. If we use them, I’m afraid we will attract attention.”

“It’s fine, let’s go! How long will we have to queue if we stay here? If they stop us, we’ll just give them some benefits.

Then, they should let us pass. After all, who would say no to money?”

“Yes, Master David!” Beanie replied.

She was only responsible for reminding him.

Since Master David said that, she only needed to execute his orders.

After that, Beanie left the carriage.

Then, the three carriages headed to another entrance.

They attracted the attention of a lot of people in line immediately.

However, David was not bothered.

Since there was no obstruction, the carriages came to the entrance of Amber City quickly.

However, they were then blocked.

“Please show us your pass.”

The two guards that were watching the dignitary entrance came up and asked when they noticed the three carriages did not show their pass.

Beanie exited the carriage and said to the two guards politely, “Sirs, this is our first time in Amber City so we don’t have the pass yet. Please excuse us.”

‘Your first time? No pass? Then why are you here and not in line? Don’t you know who are the people who are allowed to use this entrance? They’re all VIPs of Amber City. Get back in line now or else,” one of the burly men shouted.

He had to bow and respect the ones with passes, but on the other hand, he would not fear the ones without.

This was their first time to Amber City and yet they dare to not line up. He wondered who gave them the courage to do so.

To be honest, it was pretty rare to encounter a situation like David's.

After all, Amber City was one of the eight main cities of The Spirit Cage.

There were not a lot of people who did not follow the rules when it was their first time here.

However, this did not mean it did not happen, i There would always be some fearless guys who would.
