I am a quadrillionaire chapter 2541-After his upgrade, David didn't immediately return to The Spirit Cage. Instead, he emerged from his seclusion and met with Celia and the others before departing.

The following days passed by peacefully.

As time went by, people living in Amber City slowly realized that something was wrong.

There was no news of the great battle that was supposed to occur.

Many people began to wonder whether it had been resolved peacefully.

After all, the parties involved were all from major forces so it would not be good for anyone if the battle broke out.

Giving out a gift, an apology, and some resources were more in line with the maximization of their respective interests.

Besides, it was not the heirs of the Campbell family and the Marche family who died, so there was no need to make a big fuss.

Many people who had left The Spirit Cage earlier began to return one after another.

This was something David did not want to see.

If everyone was back, no one would want to sell their properties anymore.

Then, Jumbo Court would have no business and his lavish points would also start to stagnate.

There was nothing David could do about it.

He knew that the people living in Amber City would find out sooner or later.

Fortunately, his goal had been achieved.

Not only did his Body and Mind reach Ancient level 10, but his Cloning had also risen to level 6.

That was why David did not wipe out the Campbell family and the Marche family.

He had to thank Perry and Fabiola, that miserable couple.

Otherwise, David's lavish points would not have grown so fast.

The death of two people caused panic among residents in Amber City, and they all wanted to escape for safety.

Otherwise, it would not have been possible for him to accumulate 3 to 4 million lavish points in a short period.

Time passed day by day.

Under David's attentive care, the little girl ate and slept well every day, allowing her to grow up quickly.

In a blink of an eye, she had grown to eight or nine years old.

Just as Pebbles was growing rapidly...

Level 9 civilization Leila.

A super planet burnt with fierce flames in an unknown area.

At the center of the planet, a figure sat cross-legged.

The figure suddenly opened its eyes.

Immediately afterward, a devastating energy was released from his small body.

Boom!

In a split second, the huge burning planet was reduced to ashes and disappeared without a trace.

It was as if it never appeared.

Only that figure was left floating in the void.

This figure was none other than Lufian.

At this time, Lufian had successfully fused with the personality of the dual souls and had overcome the obstacle of partial Heavenly Overlord Rank in one fell swoop. Now, he had become a real Heavenly Overlord.

Heavenly Overlord Rank was the last rank of Overlord Realm, and it was also the most difficult rank to achieve.

There were many Overlords in the vast universe and every level 9 civilization had some, more or less.

However, the vast majority were Supreme Overlords. There were also a small number of Ancient Overlords.

There were still some who had achieved Heavenly Overlord Rank but they were very rare.

Every Heavenly Overlord was a treasure of the universe.

When one appeared, they could change the direction of a level 9 civilization war.

Since Lufian broke through to Heavenly Overlord Rank, he had already surpassed 99% of the Overlords.

On the surface, being able to break through at this critical moment was a good thing for Leila.

However, it was uncertain whether this was good or bad for now.

After the successful fusion of dual souls, Lufian might no longer be the previous Lufian.

Even if his personality was dominant, he would still be influenced by the other personality.

After opening his eyes, Lufian didn't hastily get up; instead, he carefully assessed his newfound strength.

Devastating energy flowed out with his every gesture and even every breath.

If this was not a remote void, its destructive power would be unimaginable.
