I am a quadrillionaire chapter 2507-Lufian gritted his teeth and seemed to be in great pain.

Heavenly Overlord Rank was the last rank of the Overlord Realm. At this rank, one would have the ability to control the heavens, but it was not so easy to break through to this rank.

The failure rate was scarily high.

Even if they were fully prepared, no one could confidently say that they would be able to break through successfully.

And now, not only was Lufian not prepared sufficiently, but he was also injured.

Even if it was not very serious, it would also have an impact on his breakthrough.

In addition, Lufian was greatly triggered after Elora's restoration failure.

He felt like a failure because he could not even protect his woman.

Although Sylvio had said that Elora was not dead and that she would still have an opportunity, Lufian could still not forgive himself.

He must break through to Heavenly Overlord Rank as soon as possible, find Elora, and avenge her. He wanted to make the Robotias and the Soul Devourers pay the price.

So, Lufian chose to risk everything. With a make-or-break mentality, he vowed to break through to partial Heavenly Overlord Rank and become a real Heavenly Overlord.

However, the reality was not as simple as he thought.

Heavenly Overlord Rank was the last rank of Overlord Realm, so would it be that easy to break through?

Lufian already felt powerless before the last moment.

If this continued, this breakthrough would undoubtedly fail.

Lufian came to his senses and realized that he was too impulsive.

Throughout the ages, how many narrowly escaped death when they try to break through to Heavenly Overlord Rank even with sufficient preparation?

He even fantasized that he would be the chosen one, and unlike others, he would be able to break the record and get instant success.

Yet, reality slapped him across the face.

The main reason was that Lufian's journey was too smooth.

It could be said that, until today, he had never met any obstacles.

Success would come naturally to him.

When he felt that it was time to break through, he would get a breakthrough.

In reality, Lufian was much younger than Elora, Drogo, and Valentin.

Sylvio was much older than their four ages added together.

Even though he was the youngest, Lufian was the most talented.

Even Sylvio was amazed by this.

If Lufian did not have an unstable personality, Sylvio would have already given Lufian what he had learned all his life.

Including Zwei Arithmetics that he obtained from the remnants of the God Tier Civilization.

Other than Sylvio, Lufian became the strongest of them in the shortest time.

So, of course, Lufian had the right to feel arrogant.

Yet, this time, fate seemed to have given up on him.

His breath was slowly weakening and that told him that he lost, he would not have a chance to do this again.

Since no matter how hard he tried, the result could not be changed.

Lufian's heart became calm instead.

It had reached the state of no joy, no sorrow, no desire, and no wants.

At this time, Lufian's weakening breath was miraculously relieved.

He suddenly understood.
