

Read I am a quadrillionaire chapter 2611

I am a quadrillionaire chapter 2611-“David, we don’t want to know your secret, but I still have a very important question to ask you. Please answer me honestly and don’t lie because it is related to the life and death of the entire Leila,” Sylvio suddenly said solemnly.

His words and his serious expression confused David.

He wondered, ‘What’s going on?’

‘My answer is related to Leila’s life and death?’

‘One word from me can determine the fate of countless creatures?’

‘When did I have such great ability?’

Even though David was curious, he replied seriously, “Sylvio, just ask! I will answer honestly.”

“David, your soul power should have reached Heavenly Overlord Rank, right?”

“Yeah! It just reached the Heavenly Overlord Rank!” David nodded in response.

“What about your real-life strength? Has it also reached Heavenly Overlord Rank?”

After Sylvio asked, he stared straight at David.

Elora on the side also looked over.

This was their biggest concern.

If David was a Heavenly Overlord, he could stop Lufian and prevent him from committing outrages. If not, no one would be Lufian’s match.

If David only had a Heavenly Overlord Rank soul, he would be beaten by Lufian.

After all, the soul was subject to many restrictions.

In the expectant eyes of Sylvio and Elora, David slowly shook his head and said, "I'm not yet a Heavenly Overlord in real life. My soul only reached Heavenly Overlord Rank because of a special reason."

David was telling the truth.

His actual strength was indeed not yet at Heavenly Overlord Rank, but if he were to encounter a Heavenly Overlord, David might not be afraid of him.

His Cloning allowed him to fight those much stronger than him.

After getting this answer, the light in Sylvio and Elora's eyes dimmed.

The two looked at each other. Both could see the disappointment in each other's eyes.

Indeed, the bigger the hope, the bigger the disappointment.

It was not that easy to get to Heavenly Overlord Rank.

It was already a miracle that David had a Heavenly Overlord Rank soul when he came from a low-level civilization.

They would be forcing David to do something beyond his power if they asked him to have the strength of Heavenly Overlord Rank.

Leila was a level 9 civilization and yet, after countless years of development, Lufian was the only Heavenly Overlord, not to mention that David was from a low-level civilization.

This was not to say that there were no geniuses in low-level civilizations, but the resources of low-level civilizations were very much inferior to those of high-level civilizations.

No matter how talented one was, they would still need resources to cultivate.

This was why big forces were more likely to produce powerhouses.

For David had achieved what he had now, he must have had a huge chance encounter. Coupled with his extreme talent, this allowed David to rise all the way from a low-level civilization.

However, this was very rare even in the universe. One could even say that it was as rare as a hen's teeth.

David naturally noticed Sylvio and Pebbles' reactions.

With the strength of his soul, how could he not notice this?

I am a quadrillionaire chapter 2612-Based on their question, David guessed that Pebbles' enemy should be a Heavenly Overlord.

After learning that he was not a Heavenly Overlord Rank, they immediately expressed disappointment.

However, why was Pebbles' enemy related to the life and death of Leila as a whole? This was something David could not figure out.

"Sylvio, Pebbles, have you encountered any difficulties? Do you need a Heavenly Overlord to solve it?" David could not stop himself from asking.

"Something like that. One of our former friends, named Lufian, went crazy while practicing and now he's very emotional. Once he went berserk, he would kill like crazy and not recognize anyone at all. At the same time, he happened to achieve Heavenly Overlord Rank, so no one in Leila can match him. Hence, we must find a Heavenly Overlord that can stop him, otherwise the whole of Leila will be in danger." Sylvio explained simply.

Since David's soul power was at Heavenly Overlord Rank, he was already qualified to know everything.

Therefore, Sylvio did not hide anything and immediately told him Lufian's story.

'I see!' David suddenly understood.

He got an important message from Sylvio's words.

The man named Lufian achieved the Heavenly Overlord Rank after he went overboard during practice. He could go crazy at any time and cause massacres on a large scale. Furthermore, no one in Leila could match him.

In other words, there was only one Heavenly Overlord in the entire Leila, and it was Lufian.

If no one could subdue a Heavenly Overlord who went overboard, one could imagine the consequences.

To Heavenly Overlords, all other creatures were just ants.

If Lufian wanted to destroy Leila, it would not be difficult. At the most, it would just take him some time.

“I see. No wonder you asked me if I had reached Heavenly Overlord Rank the moment you saw me. It’s a pity that I’ve let you down,” David said regretfully.

He wanted to immediately say that he could deal with a Heavenly Overlord.

However, after he thought, he decided to not say anything.

It was not that he wanted to hide, but if he said so, Sylvio would not believe him anyway.

In Sylvio’s mind, only a Heavenly Overlord could deal with Lufian, and others would never be able to compete with him, not even a partial Heavenly Overlord.

David could not prove it since he could not use Cloning in The Spirit Cage.

Rather than speaking out and being doubted, it was better to prove himself with strength when the time came.

As the saying goes, ‘the greater the ability, the greater the responsibility’.

Although David did not have the spirit of self-sacrifice, he was determined to stop the Heavenly Overlord if he had the power, especially after knowing that it might lead to a large- scale massacre in Leila at any time.

Besides, Pebbles was still in Leila.

“It has nothing to do with you, David. You are just from a low- level civilization. Your having a soul at Heavenly Overlord Rank at this age is already a miracle among miracles. I believe that if you’re given a little more time, you will definitely become a real Heavenly Overlord,” Sylvio sighed.

‘Yes, Davey, I also believe in you. It won’t take long before you achieve Heavenly Overlord Rank,’ Elora echoed.

Even after recovering her memory, she still assumed Pebbles' identity in front of David.

Although David was not a Heavenly Overlord and the two were disappointed, she still felt relieved because she thought that David was born in a low-level civilization and had only gone to a level 7 civilization at most.

It was difficult to have higher or more demanding demands on such an excellent person.

"I'm quite confident about this, Sylvio, Pebbles, don't worry! Just leave Lufian to me. I promise not to let him mess around in Leila. But now that I'm not in Leila, we might have to delay this a little longer. After I leave The Spirit Cage, I will immediately set off to Leila. Please send me the coordinates."

David was not modest and told Sylvio and Elora immediately that he would handle Lufian.

Of course, his strength gave him the confidence to say these things, even though others might think he was overestimating his abilities.

David thought, 'So what if you're a Heavenly Overlord?

'I will consider you awesome only if you can still withstand the attack of 81 partial Heavenly Overlord clones.'

I am a quadrillionaire chapter 2613-Sylvio and Elora looked at David in shock.

They thought to themselves, 'This guy really dares to say anything!

'How dare he look down on a Heavenly Overlord?

'Even if David has the soul power of a Heavenly Overlord and the combat power of a partial Overlord, he would be defeated facing Lufian, who has become a Heavenly Overlord.

'Whether he can escape or not will depend on his luck.

'This is not a joke, but a fact. After all, the gap between the two sides is evident.

'There seems to be only half a step between partial Overlord and Overlord, but in reality, it is a world of difference.'

"David, it's useless for you to go if you haven't achieved Heavenly Overlord Rank. What you need to do now is to get yourself to Heavenly Overlord Rank with all your strength. Since your soul has already reached it, I believe it won't be difficult for you. We will try our best to delay him," Sylvio said.

Now, he was wondering if he should let Elora calm Lufian down first.

That way, they would have an extra layer of protection for David to break through to Heavenly Overlord Rank.

However, would Elora agree to this?

Would David agree to this?

"Sylvio, don't worry! I have my plans. Let's not talk about Lufian for now. I want to ask you who caused Pebbles' soul to get damaged those two times? Where are they?"

At this point, David narrowed his eyes, revealing a trace of murderous intent.

No matter who the enemy was, he would make them pay the price.

After knowing that Leila only had one Heavenly Overlord, he had nothing to worry about anymore.

The killing intent emanating from David at this moment melted Elora's heart.

Her face was slightly flushed and she turned her head, not daring to look at him anymore.

She already had a crush on David. Now that David was asking about her enemies so he could avenge her, it made her fall for him even more.

This also illustrated a very realistic problem.

As long as she liked someone, anything that person did was right.

This was what beauty in the eye of the beholder meant.

If she did not like that person, anything that person did would be in vain.

Simps would get nothing in the end.

Let's compare Lufian and David.

Lufian was with Elora for hundreds of epochs.

One epoch was 129600 years, so how many years is in a few hundred epochs?

It was such a long time that even a stone might be moved.

However, Elora was not moved at all.

Lufian was the most nervous person when he learned that Elora had been attacked by the Robotias and the Soul Devourers.

To help Elora, he even took risks to achieve Heavenly Overlord Rank, which then led to the fusion of his dual souls.

The result was Elora's indifference.

On the other hand, David managed to capture Elora's heart despite knowing her for only a few years.

There were tens of millions of words in the world, but the word love was the most hurtful.

Love was a word with no start, no whereabouts, no conclusion, no explanation, no trace, and no end.

"Elora's injury was not caused by the creatures in Leila, but by the two races outside Leila, the Robotias and the Soul Devourers. However, if you want to avenge Elora, I'm afraid you won't have a chance anymore. Lufian had gone to seek revenge before I entered The Spirit Cage, and with Lufian's

Heavenly Overlord Rank strength, they would have no chance of survival," Sylvio replied.

David heard this and looked at Elora.

Elora nodded slightly, indicating that what Sylvio said was true.

“Since Lufian knows to find the Robotias and the Soul Devourers, does it mean he is not crazy now?” David asked doubtfully.

“David, Lufian’s situation is a bit complicated, and I can’t explain it to you in a few words. We have been together for a long, long time, longer than you think. He is like a time bomb that might explode at any time with any slight trigger. None of us will be able to restrain him at that time. Leila will have no power to resist the slaughter of Heavenly Overlord,” Sylvio said helplessly.

“I understand!” David nodded.

I am a quadrillionaire chapter 2614-He instinctively felt that there might be something between Lufian and Elora.

Otherwise, it would be impossible for Lufian to think of seeking revenge from the Robotias and the Soul Devourers at this time.

And these two races happened to be the culprits who damaged Pebbles’ soul twice.

In addition, when Sylvio talked about Lufian, Pebbles averted her gaze from David which gave him this idea.

However, this was just a feeling. He did not know the specific situation and would not make any wild guesses.

He decided to find out properly once he got to Leila.

“David, are you sure you want to go to Leila?” Sylvio asked.

“Yes! I will set off as soon as I leave The Spirit Cage.” David said affirmatively.

Lufian could massacre all living beings at any time in Leila, so David did not dare to waste time.

David would not feel any burden if he could not beat Lufian.

However, knowing he could defeat Lufian, David would not allow his negligence to cause the death of countless creatures.

“Okay! After we leave, I will check the situation and give you

the specific location of Leila. It'll be helpful if you come along too. We will need your help to restore Elora's body," Sylvio thought for a while and said.

"Sylvio..."

Elora suddenly wanted to say something but was interrupted by Sylvio before she could finish.

"Elora, I know what I'm doing! Don't worry!"

He naturally understood what Elora meant.

She was afraid that after David went to Leila, he would run into Lufian.

What if Lufian knew about the relationship between David and Elora?

He would definitely go into a complete rage and kill David at all costs.

Sylvio also has his own considerations.

No matter what, David was of great assistance.

Moreover, Sylvio believed that the person who could cause a backlash to Zwei Arithmetics would not be simple.

"Alright, shall I leave now, Sylvio? Let's talk about the specifics after I reach Leila." David was impatient.

He was anxious to reach Leila earlier because lives were at stake.

"Sure. We have to leave too. I've been here too long so I have no idea what's going on out there."

After leaving each other's contact information, the three exited The Spirit Cage.

David returned to Earth.

As soon as he opened his eyes, he picked up the communication device to see if Sylvio had sent Leila's location.

This was a system-modified communication device that could be connected to Leila's network and had its own unique number.

However, he did not receive anything.

While looking through the communication device, David saw a message.

It was an old message from Elven Princess Evie.

She was inviting him to be a guest of the Elves and participate in some grand ceremony ten years later.

Several years have passed in a flash.

Originally, David did not want to go.

However, after he thought about it, he thought to himself, 'Aren't the Elves in Leila?

'I can ask Evie to send me the location so I can set off for Leila immediately.

'I don't know when Sylvio will send me the location.'

David could tell that both Sylvio and Pebbles had some concerns.

So, he did not want to wait any longer and started contacting Elven Princess Evie directly.

I am a quadrillionaire chapter 2615-David used the system-modified communication device to send a message to Elven Princess Evie, asking for the location of the Elves.

What he actually wanted to know was Leila's location.

David only dared to set off after he found the right direction.

Otherwise, if he went in the wrong direction, it might be troublesome.

That would make Leila even farther away, and he would never be able to reach it in time.

He thought it would take Evie a while to reply to him.

However, before he could get up and leave his place of seclusion...

Beep beep!

The communication device rang.

David looked and saw it was none other than Elven Princess Evie.

After hesitating for a moment, he answered.

The communication device emitted a light curtain and Evie's figure appeared.

"Yay, David! You finally contacted me!" When she saw David, Evie looked ecstatic, smiling from ear to ear.

Although the first half of her time in The Spirit Cage made her feel scared and she did not want to recall it, the second half was unforgettable.

After being rescued by David, she traveled a lot and enjoyed Leila's unique scenery. She did not even want to go back with Queen Isa.

"Miss Evie, I'm really sorry. I've been busy recently. I basically stayed in The Spirit Cage and didn't come out much, so I didn't contact you," David responded with a smile.

He had a very good impression of Evie.

As the princess of the Elves, she was not arrogant at all. She was lively and cheerful, which was exactly David's type.

However, to avoid trouble, David felt it was better to keep distance from her as much as possible. Some things could not be explained clearly, especially when it came to feelings.

After getting the system, every outstanding woman who came into contact with David would more or less have feelings for him.

In addition, David also understood the flaws in his character and was unwilling to hurt those around him.

This kind of luck in love once made him very distressed.

So, the only thing he could do was try to keep a certain distance to let time fade everything.

"David, please don't say that. It's fine as long as you don't forget me."

“What are you talking about, Miss Evie? Although we have not known each other a long time, we are still friends. Since we are friends, how will I forget about you?”

“Yes, David, you are right. We are friends, lifelong friends. Not only that, you are also my savior!” Evie’s smile has not stopped since she saw David.

This showed how important David was in her heart.

It was understandable.

Had she not met David, no one could tell what fate awaited Evie.

Anyway, no one would spend a lot of money to buy her like David.

Almost all creatures in Leila had coveted the Elves for a long time.

The Elves were a standard for big shots.

What man would not want an Elven woman?

Even if they did not use them, they could get a lot of money from selling Elven women.

“What do you mean? Shouldn’t friends help each other? By the way, Miss Evie, you seem to have said that you would invite me to attend a ceremony at your clan. I happen to have nothing to do during that time, so I can go over and have a look.” After chatting for a few words, David went straight to the point.

Getting Leila’s coordinates was his goal.

I am a quadrillionaire chapter 2616-“Great! David, it’s great that you can come. I will send you the location later,” Evie said excitedly.

“Okay! I’ll contact you when I arrive.”

“Goodbye, David, I’ll be waiting for you.”

“Goodbye, Miss Evie!”

After finishing the call, David got up and walked out to say goodbye to Celia and the others before heading to Leila.

Firstly, he could not allow Lufian to massacre creatures in Leila.

Secondly, he was afraid that Pebbles would be harmed.

He would go to Leila first no matter what.

If there was an emergency, he could still stop it in time.

Celia and others, who were practicing under the guidance of Nova and Celeste, immediately stopped practicing when they saw David and gathered around him.

“David!”

“Master David!”

“Dave!”

All the women spoke one after another, joyful smiles on their faces.

Why did they train?

It was so that they could reach Eternal Realm, have at least one epoch of life span of 129600 years, and be by David’s side.

After all, David was their backbone.

“How are you all doing while I am gone? You must practice well under the guidance of Celeste and Nova. You will have plenty of time to have fun after you achieve Eternal Realm. When the time comes, I will take you to travel around the universe and enjoy the scenery all over the universe, how about that?” David encouraged them.

“Really? That’s great! I really want to see the end of the universe,” Celia said happily.

“I want to go too!”

“I want to go too!”

The other women were all very motivated.

As long as they could be with David, it would not matter where they went.

Of course, it would be best to be able to travel to every corner of the universe.

For a woman, there was nothing more attractive than traveling with the man she loved.

“If you want to go, you have to practice hard and strive to reach Eternal Realm as soon as possible. Otherwise, your life might have ended before you reached some faraway places in the universe. After all, the universe is so big,” David said earnestly.

“David, don’t worry! Everyone worked very hard while you were away. Plus they are quite talented and there is an unlimited supply of resources. I believe all of them can reach Eternal Realm,” Celeste came over and said.

“Yes, I think everyone worked very hard, and it is only a matter of time before they achieve Eternal Realm,” Nova also added.

“Celeste, Nova, thank you for your hard work,” David said sincerely.

He would not know what he would do without the two of them.

Eventhough David’s strength had reached partial Heavenly Overlord Rank and was at the pinnacle even at level 9 civilization Leila, he could not teach Celia and others.

After all, all of David’s achievements were due to the system, not the result of his hard work.

Although his perseverance and cautious character also played a big role, David did not know how to practice under normal circumstances to obtain the best results.

He only knew how to spend money so he had quite a bit of experience in this regard.

In fact, all of this was achieved by David in another time and space at the cost of his life.

He traveled through time and space to leave David, in this timeline, the system to change the fate of the earth.

David was just the successor.

From the beginning to the end, the direction of his efforts was not cultivation, but how to spend money in a low-key manner so as not to attract other people's attention!
