

# The Ex-Husband's Revenge By Dragonsky

Chapter 2309

Chapter 2309

"Well," Upon hearing Leon's rejection of the idea, Iris, Angus, and the others fell silent.

Angus knew that Arthur and August still considered Leon the culprit behind Yonas's murder, and Leon was not able to completely clear his name yet.

If Leon were to leave the Southern region now, not only would he abandon the foundations of Cynthion Group and Elegante Group, but he would also have no way to explain himself to Arthur and August afterward.

"Leon, even if you don't want to leave the Southern region, at least find a place to hide for now. That's much better than staying here and getting yourself killed for no reason. If something were to happen to you, how are Cynthia and I supposed to live?" Iris clutched Leon's arm, her eyes reddening as she was on the verge of tears.

She knew very well that if Leon were to face the Southern Boss head-on, he would undoubtedly meet his demise; whereas if Leon found a place to hide, he might just have a chance to escape this catastrophe.

"Iris is right!" "Leon, you'd better find a place to hide, it's better to bide your time," Cynthia, Snow, and Ruth urged anxiously.

"Hide?" "There's no need for that! Iris, Cynthia, rest assured, I never fight battles I'm not certain of. The Southern Boss wants my life, but it won't be so easy for him!" Leon comforted them, patting Iris's icy hand, displaying an air of confidence.

Although there was still a slight gap in strength between him and the Southern Boss, he had numerous tricks up his sleeve. The Potential Energy Force bestowed upon him by Master Haslewood held unmatched power.

With the Potential Energy Force in his possession, he had no fear of the Southern Boss.

Furthermore, he had an even more powerful lifeline: his identity as a member of the Dragon Corps.

With this identity, he was practically invincible.

If he struggled to handle the Southern Boss, he could simply reveal his true identity as a member of the Dragon Corps promptly. No matter how powerful the Southern Boss's forces were, they would not be able to harm him.

"But," Seeing Leon's unwavering determination, Iris, Cynthia, and the others wanted to persuade him further, but before they could voice their concerns, Leon interrupted them.

"End of discussion! The Southern Boss has sent people to ambush me several times before, and now it's time for me to settle the score with him! This time, I will make him pay a painful price and seek revenge for past grievances!" Leon's voice resounded with determination, and a glimpse of fierce killing intent flashed in his eyes.

He did not seek revenge against the Southern Boss before mainly because his power level was too low at the time.

With his greatly enhanced strength and the Southern Boss's increasingly ruthless attacks, Leon was provoked into taking action and decided to take this opportunity to engage in a life-or-death battle with the Southern Boss.

If he could seize the opportunity to eliminate the Southern Boss, it would be a permanent solution, cutting off all future troubles.

"Mister Wolf, please think this through!"

Angus and Yuri were both worried as they agreed with the women; none of them thought that someone with no background could fight the Southern Boss.

At the moment, Leon was determined to fight the Southern Boss and even claimed that he had the means to make the Southern Boss pay.

His arrogance confused the others and everyone was left wondering how Leon planned to take on the Spears.
