

# The Ex-Husband's Revenge By Dragonsky

Chapter 2317

## Chapter 2317

"Southern Boss, Rodney, how dare you two plot to kill Yonas?! The Thompsons won't let this go!" Angus glared daggers at them.

"Is that so? Let's see what you can do about it!" The Southern Boss's heart sank and his expression darkened.

Since Rodney left no trace behind, both Arthur and August thought that Leon was responsible and the situation worked in the Spears' favor. To the Southern Boss's surprise, Rodney accidentally let it slip that he killed Yonas.

"Dad, what should we do now?" Rodney's face was flushed with frustration, realizing that he might have ruined his father's plan.

"It's fine. So what if they found out? This lot can't do much about it!" The Southern Boss scoffed.

He planned to kill Angus and Leon all along and the fact that Rodney was responsible for Yonas's death was discovered merely strengthened his resolve to kill the two.

Once every single witness at the scene was removed, the truth would never get out.

Upon observing the martial artists on Leon's side, the southern Boss realized that all individuals present were core members of the Thompsons' first bloodline and once they were gone, the first bloodline would be wiped from existence, leaving only the second bloodline of the

Thompsons who had no power to compete with the Spears.

Once that was achieved, the Southern Boss could slowly eradicate the Thompsons and rule over the Southern region, which was his lifelong dream.

Naturally, he knew that the Dragon Corp would not spare him if he killed so many people, so he found his scapegoat ahead of time to avoid being punished by the Dragon Corp even if he killed everyone on Leon's side.

With that plan in mind, the Southern Boss turned his attention back to Leon and praised, "Leon, I must admit that you are rare talent and even Rodney falls short when compared to you!"

Indeed, Leon managed to defeat Rodney, who had an Emperor Weapon in his possession, in the sales drive of Cynthion Group, which indicated that he was far more powerful than Rodney; as for mentality and intelligence, Leon showed no fear and even succeeded in tricking Rodney into telling the truth. Such composure and mental strength surpassed that of countless others at his age and even the Southern Boss was impressed by it.
