

The Ex-Husband's Revenge By Dragonsky

Chapter 2354

Chapter 2354

"Watch out, Mister Wolf!" Yuri and Augus were both shocked that Leon stopped running around.

They all witnessed how Leon struggled under the combined attacks of the three Apostles, and like the Southern Boss, they assumed that Leon ran out of time to use his defensive tool.

Thankfully, Leon's Phantom Steps allowed him to evade the three Apostles, yet Leon gave up his advantage in speed and attempted to take the combined attack directly to save Arthur.

Both shocked and worried, Iris, Cynthia, and the others watched as the Apostles' attacks merged into a gigantic blade of energy, before piercing through the air toward Leon.

They almost fainted at the sight.

"Arrogant brat! He must've decided to give up because he ran out of options!"

Contrary to how Yuri and the others felt, the Southern Boss and Devon stared at Leon with a sneer as though Leon was already dead.

They all knew that the three Apostles were extremely powerful and even with the defensive tool, Leon could not fend off the combined attack from the three Apostles;

assuming that Leon ran out of time to use the defensive tool, they all thought that Leon's fate was decided.

However, what happened next stunned them all.

Following a gigantic noise, the Apostles' attack landed on Leon and since the Mirror of Sovereign failed to shield the attack, Leon was instantly sent flying and bled when he crashed.

Still, he did not take the attack for no reason, as the Hurricane Break he launched at the same time of being injured was darting toward the three Apostles.

"Great! Leon's down! Kill him now!" The Apostles were overjoyed.

Leon's Phantom Steps were far too swift and none of them expected to defeat Leon. However, Leon foolishly stood still to take the attack, which was a pleasant surprise for them.

Taking this as a chance to kill Leon, they all prepared to charge forward when a powerful presence descended and charged toward them, instantly swallowing them in whole.
