

# The Ex-Husband's Revenge By Dragonsky

Chapter 2402

## Chapter 2402

"The Potential Energy Forces were given to me by a great martial artist and he gave me a total of three. Unfortunately, I've used them all up," Leon said regretfully. He proceeded to briefly explain everything without exposing Master Haslewood's identity as he was related to the Dragon Corps.

"You used it all up?" The women were all slightly disappointed.

They all witnessed the power of the Potential Energy Force and knew that no one in the entire Sky County could harm Leon if he possessed more Potential Energy Forces.

They all wished that he could obtain more so that they did not have to worry about him anymore, but reality proved that it was merely their wishful thinking as Leon used the only three Potential Energy Forces he possessed.

"Leon, where's this martial artist? Can't you talk to him and ask for more?" Cynthia asked.

Iris and Cynthia knew Leon for the longest time and as the president of Cynthion Group, Cynthia knew that the company had great potential; if it continued to grow, more people like the Southern Boss would target Leon.

With that in mind, she desperately wished that Leon could have more Potential Energy Forces to protect himself with.

"Yeah!" Iris, Snow, and Ruth agreed along.

They all agreed with Cynthia and wished that Leon could obtain more Potential Energy Forces.

"No, that's not possible!" Leon shook his head.

He considered asking Master Haslewood for more Potential Energy Forces, but it took great energy for Master Haslewood to store the Potential Energy Forces and it would require him to rest for at least two to three months before fully recovering.

Master Haslewood only offered him the Potential Energy Forces as a gesture of gratitude after Leon cured him. Now that the debt was paid and with consideration of how consuming the process could be, it would be unreasonable for Leon to ask for more and he could not bring himself to be so shameless.

"Forget it, then. If you can't get more Potential Energy Forces, so be it! You have already reached the Intermediate Almighty State, and there aren't that many people in the southern region who can beat you now! We don't have to worry so much," Iris said with a smile.

She beamed upon mentioning Leon's accomplishment and power, her eyes sparkling with pride and appreciation.

When she first met him, Leon was merely a poor man with nothing to his name, but within a little over a year, he transformed into the ruler of Springfield City. After arriving in the southern region, he grew into a powerful martial artist in the Intermediate Almighty State.

It was hardly an exaggeration that Leon achieved greatness that no other man had in terms of power level and career.

Leon exceeded Iris's expectations and she was happy for him.
