

The Ex-Husband's Revenge By Dragonsky

Chapter 2410

Chapter 2410

"That's the end of the discussion! If you don't want to get involved with the underground community, you can select someone else to do it for you as well." Alfred compromised.

He knew that for someone as accomplished and young as Leon who was talented in martial art and business, his future was bright and Alfred did not wish for him to be bound to the southern region either.

Since Leon was reluctant to take after the Southern Boss, Alfred would only make him if Leon could find someone appropriate for the role.

"Um, alright! I'll try my best," Leon said thoughtfully.

He was not interested in the role, but since Alfred was only asking for his help to search for an appropriate candidate, he could consider it.

"Alright, I'll leave it to you. I trust you! Now that that's done, let's discuss something more private," Alfred said with a smile.

"Private? About what?" Leon asked in confusion.

"Well, you asked me to look for herbs that contain light energy like the Fairy Fruit? I found one," Alfred explained.

Before he could continue, Leon interrupted him in excitement. "Really? Did you find a Fairy Fruit, Mister Glasbey?"

He asked for Alfred's help to search for Angel Fruits to produce Dragon Pills and other types of herbs that contain light energy.

However, since he did not have enough contribution points, he asked Alfred to help prioritize the Fairy Fruit.

It was only half a month and Alfred already found one, which surprised Leon.

"No, I didn't!" Alfred shook his head.

"No?" Leon was stunned and disappointed.

"Don't jump to conclusions and let me finish. I didn't find any Fairy Fruit, but I happened upon a Sunlit Herb," Alfred said with a smile.

Like other plants that contained light energy, the Fairy Fruit was extremely rare and could not be easily found.

Alfred sent his men to search for the Fairy Fruit but happened upon a Sunlit Herb instead.

He knew that Leon needed more than a Fairy Fruit, so he kept the Sunlit Herb for Leon.

"A Sunlit Herb? That's great!" Joy instantly replaced the disappointment within Leon.

The Fairy Fruit and other plants that contained the light energy were all useful, so the Sunlit Herb would work as well.

"Leon, you can have this Sunlit Herb for now. I'll have my men searching for a Fairy Fruit. Once I find one, I'll let you know immediately," Alfred said and took out a beautiful box from his drawer, before handing it to Leon.
