

The Ex-Husband's Revenge By Dragonsky

Chapter 2380

Chapter 2380

"Sir, Mister Wolf has eliminated the Demon Lord. His body's right there!" Arthur explained and pointed at the Demon Lord's corpse.

"What?! The Demon Lord's dead? How's that possible?!" Alfred and his subordinates were all stunned.

They hurried over to check on the Demon Lord's corpse and once they confirmed his identity, they all exchanged looks of bewilderment.

They all knew just how mighty the Demon Lord was and even if they were all to attack at the same time, they might not have been capable of killing the Demon Lord. To their bewilderment, such a formidable criminal was killed by Leon.

Though Leon once took down the Poisonwielder and the Scarlet Thief, the Demon Lord was far more powerful than these two criminals and it was almost a miracle that Leon defeated the Demon Lord on his own.

"How wonderful! Leon, as expected of you! You never disappoint!" Alfred recovered from the initial shock and laughed.

Ever since Leon joined the Southern region Dragon Corps, he took down a total of three criminals and now, he even eliminated the Demon Lord, who managed to escape justice for years.

It was hardly an exaggeration that Leon was a hero and

Alfred could not have a higher opinion of Leon.

"No!" Contrary to their joyful reaction, the Southern Boss paled, his heart sinking.

He knew that it was an unforgivable crime for a martial artist to work with a criminal and now that Alfred learned about it, this would not end well with him.

Unwilling to accept his fate, he darted toward the gate once again without hesitation to escape before Alfred and Leon had the time to react.

"You won't get away!" Alfred snorted and sent off a wave of powerful true energy at the Southern Boss.

"The Peak Almighty State!"

Leon and Arthur were stunned and finally understood how Alfred managed to send the Southern Boss flying into the mansion.

Indeed, Alfred's power level reached the Peak Almighty State.

Leon thought that he knew Alfred well and according to what he remembered, Alfred was still at the Advanced Almighty State a few days ago, so he was caught by surprise.

What he was not aware of was that Alfred reached the Advanced Almighty State a long time ago and was close to reaching the next level.

Alfred originally wanted to use the Nine Suns Flower to get past the bottleneck of his training, but since Leon was much weaker than he was, he eventually decided to let Leon have

it instead.

To thank his generosity, Leon offered him a Sun Pill and with the help of the Sun Pill, Alfred finally managed to reach the Peak Almighty State a few days ago.

With his newfound strength, he managed to send the Southern Boss flying with just one strike.
