

The Ex-Husband's Revenge By Dragonsky

Chapter 2381

Chapter 2381

"Baam!"

Under the watchful eyes of everyone, Alfred's true energy caught onto the Southern Boss and sent him flying.

As soon as the Southern Boss landed, he instantly realized that a few of his bones were broken and he started bleeding as he struggled to get up.

"Southern Boss, how dare you work with the Demon Lord to commit such crimes?! You'll be punished for this! I advise that you follow us to the Dragon Corps to accept punishment and save yourself some suffering," Alfred said sternly, before charging toward the Southern Boss to capture him.

Though there was enough proof that the Southern Boss was working with the Demon Lord, Dragon Guards were all abided by rules and the rules dictated that they needed to take the Southern Boss back for a trial. Hence, he did not attempt to take the Southern Boss's life. However, if the Southern Boss fought back, that would no longer happen.

"It's over!" The Southern Boss's heart sank as he watched Alfred closing in their distance.

Though he was formidable, Alfred already reached the Peak Almighty State, which surpassed his strength; with all the injuries he suffered, he did not stand a chance against Alfred.

He watched as Alfred approached, his heart sinking into despair, when suddenly, the situation changed drastically.

A figure darted in through the gate of the mansion and descended before the Southern Boss.

The person launched a strike against Alfred's attack.

"Baam!"

Following a deafening sound, Alfred's attack clashed with the other person's attack.

The person merely wavered slightly, but Alfred was forced to back away a few steps under the impact.

"Who's that?!" Alfred steadied himself and focused on the newly emerged enemy.

It was an old man in his sixties, who wore a loose robe and a demon mask that covered half of his face; his presence was overpowering and malicious, and anyone would be able to tell that he was no ordinary man.

"Hades?!" Alfred, Leon, and the others were all stunned.

It was Hades, who ranked second on the criminal list. None of the Dragon Guards expected two of the top three criminals to appear in the southern region and this caught them by surprise.
