

The Ex-Husband's Revenge By Dragonsky

Chapter 2391

Chapter 2391

"What?! Y- You wouldn't dare!" Rodney was shocked.

He felt confident because Arthur and the Thompsons reluctantly spared his life upon hearing his father's threat. To his bewilderment, Leon did not give up on punishing him and this caught him off guard.

"You'll know if I dare to do so or not soon enough! Rodney, you partnered with Joel to kill Mister Yonas, before framing me for the murder! It's time we settle the scores!" Leon said coldly, before walking toward Rodney in long strides.

Though the Thompsons decided to spare Rodney for the greater good, Leon had the right to his own decision.

Rodney and Joel both framed him and caused him to almost get killed by Arthur.

Leon did not forget about what they did and after all the grievances Rodney caused him, there was no way that Leon would let him off that easily.

Naturally, to prevent the Thompsons from facing the Southern Boss's retaliation, he did not intend to kill Rodney, but he was certainly going to destroy his power.

"Don't bother trying to scare me, Leon! I'm warning you! If you dare to hurt me, my dad won't spare you!" Rodney feigned confidence and tried to threaten Leon into giving up using his father's name.

However, he soon remembered that his father was no match for Leon and added, "he won't just target you. He will target Iris and the other women as well! If you lay your hands on me, you will all die!"

"As if a loser like the Southern Boss can do such a thing! What a joke!"

Leon scoffed at his threat.

The Thompsons had many offspring they needed to take care of, and it only made sense that they had to be cautious around the Southern Boss.

On the other hand, Leon had nothing much to lose and did not fear the Southern Boss at all.

Though he used up all his Potential Energy Force, the Southern Boss was badly injured and would not recover without a few months' rest.

Because Leon reached the invincible phase of the Intermediate Almighty State and how rapidly he was powering up, he was likely to have reached the Advanced or even Peak Almighty State by then and would not have anything to fear from the Southern Boss.

Iris and his other female friends, however, were his biggest weakness and he was indeed quite worried that the Southern Boss would target them. Still, he already thought of a solution.

He intended to recruit a few more subordinates in the Almighty State or try his best to strengthen Henry and Chandler's power so that they could be capable of protecting the women from the Southern Boss.

"Don't! Don't come any closer!" Rodney's heart sank upon seeing that Leon did not fear the Southern Boss.

As Leon approached, his blood ran cold and the smugness on his face vanished without a trace.
