

Chapter 579 The Strength Of The Bodyguards

Julie broke down in that instant.

"Ah! What are you doing?"

she screamed with all her might, looking at her mother, Yesenia, in horror and hatred.

She knew that this woman who called herself her mom had a lot of bad qualities that she hated.

But what she just did, wasn't just about bad qualities anymore. She just stabbed her husband and the father of her daughter to death. That was inhuman!

Liam too was very shocked. He knew that this woman was selfish and vicious. Heck, he expected all sorts of evil things from her, but this was something else. He never imagined such a scenario.

Liam's eyes moved away from Yesenia and focused on Fuller with a murderous intent in them.

Looking at the scene and the cage, he understood that Fuller had set this up to avenge the death of his son, Clarence.

Liam's appearance distracted the bodyguards for a second. Riel used this second to get away from them and ran to Liam's side.

"Be careful. The two bodyguards beside Cannon are rather strong and powerful," Riel whispered to Liam in warning.

"It's okay. Just trust me." Liam nodded curtly at him.

Riel nodded and retreated behind Liam.

Liam then focused on Fuller and clicked his tongue. "You and your son are both so vicious and overconfident. But let me break it to you, you're not going to get away with this. Today, you're going to die and meet up with the son you're fighting to avenge."

Fuller just sneered. There was no panic on his face.

Under normal circumstances, he would be a little afraid of Liam. But today was different. He could rely on someone else

that he deemed more powerful than Liam.

Though Cannon was a weird lot, the two bodyguards he had with him were both pearls.

According to what Timothy said, these bodyguards alone were enough to guarantee Cannon's protection in Invone where there were so many strong people.

So, now that he had these strong men to protect him here in Salem, he felt like he had the power to do everything he wanted.

Of course, the bodyguards were here mainly to ensure Cannon's safety, but since he and Cannon were sort of working together, they had to protect him too. They wouldn't let Liam do anything to him.

At this moment, Cannon said to Liam, "You're that powerful, huh? I don't really care about whatever problem you two have with each other, but you see, he promised to get me a woman and I'm counting on it. So if you want to absolutely get rid of him now, you'd have to compensate by letting me fuck the chick beside you."

Cannon was talking of Julie.

He had been coveting her for some time now. There was no doubt that she would be better than all the women he had ever slept with.

His words made Liam transfer his anger to him. Anger oozed out of Liam, a horrifying aura filling the whole dungeon.

Cannon just signed his death sentence with his words.

Without uttering a word, Liam raised his fist and aimed for Cannon's face.

Cannon didn't move, not scared for a second. He knew that his bodyguards would step in.

He was so at peace that instead of looking at Liam who was attacking him, he stared lustfully at Julie. He could already see in his mind's eye what she would look like naked beneath him.

Not surprisingly, the bodyguards moved swiftly to block Liam's attack.

When their fists and palms collided, the energy produced by the impact pushed all of them back.

Liam was taken aback by their strength.

Riel had warned him, but he didn't think they would be this powerful. These bodyguards' strength and skills were far beyond what he had expected.

If he wasn't mistaken, they could very well be members of the third rank of the Dark Night Organization. They could even be the top members.
