An Understated Dominance by Marina Chapter 1944

Chapter 1944

The sudden explosion shocked everyone.

Especially when the energy wave struck, many warriors were knocked off their feet and wailed.

Fortunately, Kevin Snow and the others ran fast, otherwise a close-range explosion would have been enough to seriously injure them.

When all is said and done.

Everyone took a closer look and found that the village chief's house had been razed to the ground, surrounded by ruins and the ground was in a mess.

The Alexis Walters hanging on the tree, together with the big tree, had completely disappeared, leaving only a trapped dragon rope lying quietly on the ground.

In addition, there is a layer of black crystals on the ground, densely packed, like pebbles, scattered everywhere.

Dustin could see clearly that it was what was sputtered out after Alexis Walters's body exploded.

The smell of blood on it was probably caused by blood, but normal people's blood was in a liquid state, but Alexis Walters's blood before his death became a crystal-like solid.

It's really weird.

Dustin asked himself that he was well-informed, but everything that happened to Alexis Walters today was beyond his knowledge.

First, he went crazy for no reason, and then his physical fitness increased exponentially. He was not afraid of pain, life or death, just like a crazy beast.

The most important thing is that Alexis Walters's body has undergone incredible changes.

The mouth has sharp teeth, the nails are like knives, and some black scales are born on the skin, which is hard to be hurt by a sword.

From the looks of it, Alexis Walters can no longer be called a human being, but more like a monster!

Nowadays, these black solid crystals are enough to explain the problem.

What is it? Let Alexis Walters become like this?

When Alexis Walters checked his body before, everything was normal. Why did such a huge change occur in just a few hours?

Could it be that he missed something wrong?     Dustin frowned slightly, thoughtfully.

Although he didn't understand the reason, he had a hunch that the reason why Alexis Walters turned into a beast should be related to the strange oasis.

Unfortunately, now that Alexis Walters is dead, there is no way to investigate.

As previously rumored, people who enter the oasis either disappear or die.

So far, no one has been spared!

“Could these things be the legendary Wuling Crystal?”

Margaret picked up a black crystal on the ground, with a bit of surprise in his beautiful eyes.

“What? Wu Lingjing? Are you sure you read it correctly?”

Upon hearing this, Billy Ruso instantly became energetic.

Wulingjing is a kind of crystal with its own spiritual energy. Warriors can directly absorb it and convert the spiritual energy inside into their own cultivation.

There are some similar spiritual energy crystals in the world, but they are very precious and not as effective as the Wuling Crystal.

It is no exaggeration to say that if it were used for auction, just such a small piece of Wu Lingjing in Margaret's hand would be worth thousands of gold!

The key is now that there is more than just one, but there are hundreds or even thousands of them all over the ground.

Its value is so high that it is completely immeasurable.

If absorbed entirely, it would be enough for an innate Dzogchen warrior to be directly promoted to a martial arts master!

So even Billy Ruso, a martial arts master, couldn't help but get excited when he heard the words Wu Lingjing.

"I had a black spirit crystal before, so I shouldn't admit it wrong."

Margaret held the black crystal and carefully observed it for a while, then changed the topic: "However, the one in my hand is different from the one I got before. Wulingjing, there is a slight difference."

"It doesn't matter, as long as it is Wulingjing, I can feel the strong spiritual energy fluctuations in it!"
