

Chapter 233 Buy A Cell Phone

Trevor walked while thinking about something.

At that time, he thought about calling Jeanne and tell her to pay attention to the business moves of the Salazar family.

Thinking about it, Trevor touched his pocket and finally realized that his phone was broken. With a bitter smile on his face, he thought, 'Damn, I forgot that it is broken. I really need to buy a new one.'

At that time, he remembered that he didn't bring his wallet with him. Therefore, he drove his Bugatti back to the school first. After parking his car in a remote area, he took his wallet from his dormitory and returned to the Uphia Mall.

On the second floor of the mall, Trevor walked directly into a mobile shop.

Looking at the various styles of phones in the shop, he was confused as he didn't know what to choose.

In the center of all the showcases, the latest iPhone was displayed.

When Trevor tried the new iPhone, he was really satisfied with it.

At that time, he remembered that Luisa's phone was an old iPhone.

Since her phone was also broken, he decided to buy one for her too.

After all, he could buy the same one as his for her.

Well, many couples liked to use the same style of things, didn't they?

Even though he still hadn't taken the next level of their relationship, Trevor got a little excited when he thought about it.

Trevor was about to call the shop assistant to pay for the bill when he heard a sharp female voice at the door. The person said in a mocking tone, "Wow, Trevor, you poor loser has the money to buy a new mobile phone?"

Hearing the familiar voice, Trevor turned around to see the person.

Just as he expected, it was none other than Mattie.

Today, Mattie had dressed up very well. The dark color shirt and a red black stripe lace skirt looked quite enchanting on her.

However, these days she looked very arrogant.

Before, she was just a sidekick of Aggy.

Ever since Aggy dropped out of school, Mattie became the president of the student union by luck.

Because of her new high position, her ambition grew.

In fact, she also wanted to become like Aggy who was always surrounded by countless men.

She wanted to hook up with a real rich man and have a

luxurious life!

The reason she came to the mall today was to do the task assigned by the school.

She was asked to welcome a student who just transferred to their school. It was said that he was a rich young man! Therefore, Mattie decided to come to the mall and buy something to dress herself up in order to impress the rich young man. ①

Coincidentally, she saw Trevor in the mobile phone shop. Looking at him with disdain, Mattie said, "You poor loser, you had to save money for a long time to buy a cell phone for your ex-girlfriend before. How dare you look at the latest iPhone now?"

When the young man behind Mattie heard her words, he sneered and said, "I heard that your ex-girlfriend ran away with Dennis for an iPhone 13. Is that true?" ①

Only then did Trevor notice that there was another familiar person who was standing beside Mattie. He was none other than Drake Molina.

Now that Aggy left, Drake must have changed his target and started pursuing Mattie.

The truth was, Drake went shopping with Mattie to show off his wealth.

Since Drake was agreeing with her, Mattie became even more arrogant and said to the shop assistant, "Miss, even though he looks good, he is just a poor man. Don't

recommend him any kind of high-end mobile phone. Let me tell you, he can't even afford a fraction of a high-end phone. The only phone he can afford is made for phone calls only."

Her words made Trevor furious.

Of course, he had already let go of his feelings for Sylvia.

However, no one wanted others to rub salt on their wounds again and again.

Seeing the look of anger on Trevor's face, Mattie became even more complacent.

Putting on a coquettish look on her face, Mattie leaned against Drake's arm intimately and said coquettishly, "Drake, I really want to have the latest iPhone. Can you buy it for me?"

Obviously, Drake didn't want to lose his face in front of Trevor.

Therefore, he gritted his teeth and said, "Yes, I'll buy it for you!" ①
