

The Ex-Husband's Revenge By Dragonsky

Chapter 1911

Chapter 1911

"Bring it on!" Leon was prepared and took out the Cuff of Doom.

He only managed to defeat the Fifth Elder by utilizing the element of surprise and he risked getting injured in doing so.

The Fourth Elder was also in the Peak Emperor State and was supported by several martial artists in the Intermediate and Advanced Emperor State, so the Mirror of Sovereign would not be sufficient to defeat them.

Hence, Leon did not hesitate to utilize his other weapon, the Cuff of Doom.

After offering his power to it day after day, there was a strike and a half stored inside the cuff. The complete strike reached the power of the Intermediate Almighty State; the half strike was only in the Semi-Almighty State but was not far from the Initial Almighty State.

Since there was a limit to how many times the cuff could be used, it would be challenging if the Golans decided to fight Leon one by one. Hence, Leon purposefully attempted to provoke them into attacking him all at once so that he could use the Cuff of Doom on them all at the same time.

"Take this!" Leon scoffed and activated the strike he stored in the Cuff of Doom, sending it flying toward the Fourth Elder and the others.

"How insolent!" Seth sneered in contempt when he realized that Leon intended to face the Fourth Elder and the others on his own.

Leon might be able to survive a while longer if he kept running around, but Leon simply took out a golden cuff and intended to face them directly.

Seth was certain that Leon would meet his demise, but what happened next shook him.

"Baam!"

Following a deafening sound, the Cuff of Doom tore through the combined power of the Fourth Elder and the others and darted toward them.

Though they were all martial artists in the Intermediate Emperor State or above, the attack in the Cuff of Doom surpassed the level of the Semi-Almighty State and was close to a full-force blow from a martial artist in the Initial Almighty State, so none of them were capable to counter its power.

Before having the chance to react, they were all sent flying into the distance.

Feeling as though their bones were breaking apart, they spewed blood from their mouth and lay sprawled across the ground.

The Fourth elder, who was ahead of the others, suffered the worst injury and could barely move at all.

"How's this possible?!" Seth gaped in shock.

He knew that the Fourth Elder and the others were far superior in power compared to Leon and were certain that Leon would die since he was surrounded.

To his bewilderment, not only did Leon survive, he managed to defeat all of them with a single move.

What Seth saw was beyond his comprehension and he could not help but freeze in shock.
