

The Ex-Husband's Revenge By Dragonsky

Chapter 2421

Chapter 2421

"You can find out by taking one!" Leon smiled in response to Arhtur's suspicion.

"But, what if it fails? That would waste a Sun Pill!" Arthur said hesitantly.

He knew just how valuable and scarce the Sun Pills were, and if reserved for second-generation Thompsons like August, he could easily reach the Almighty State from the Semi-Almighty State.

Considering August's age, he could likely ascend to the Intermediate, or even the Advanced Almighty State once he got past the bottleneck of his training.

However, if one of the pills was wasted, the Thompsons might lose the opportunity to cultivate a member who could get to the Intermediate or Advanced Almighty State.

Arthur was elderly and most of his bodily functions were deteriorating. If he took the Sun Pill and failed to reach the Peak Almighty State, he might be so discouraged that it would become even harder for him to try again in the future.

Hence, he was hesitant to use the Sun Pill.

"It won't fail! I'm here, and there's at least an eighty percent chance that this will work!" Leon said confidently.

If Arthur took the pill alone, he might not have been able to get past the bottleneck of the training, but the circumstances were different since Leon was around.

He helped others with their training using pills countless times before and considered himself experienced in this aspect.

Arthur was already close to reaching the Peak Almighty State, and with the aid of the Sun Pill, Leon was confident that he could help Arthur get to the Peak Almighty State immediately.

"Well," Arthur, Angus, and the others were silent.

A breakthrough was never easy, especially when one was already at a high power level.

Considering Arthur's health and age, the possibility of him getting to the next power level was extremely low, so none of them could understand why Leon felt this confident.

However, upon recalling what Leon accomplished so far, they shared hopeful looks.

Though Leon was young, he was resourceful and created miracles time and time again, so he might just be able to help Arthur.

"Uncle Arthur, since Mister Wolf is confident about this, why don't you just take one Sun Pill?" Angus said.

"Well, alright then! Mister Wolf, I'll trust you one more time!" Arthur contemplated his choice and decided to gamble on his chances.

He was growing old and his health was declining. Even if he was to train, he might never get to the Peak Almighty State.

If he was to succeed, it would require at least two years of hard work and if the Southern Boss appeared during this time to rescue Rodney, Arthur knew he would not be able to do much to the Southern Boss, who was in the Advanced Almighty State.

With that said, he should take his chances.

If Leon could indeed help him get to the Peak Almighty State, the Southern Boss would be doomed as soon as he showed himself.
