

The Ex-Husband's Revenge By Dragonsky

Chapter 2045

Chapter 2045

"So that's it!"

Leon realized something after Iris's explanation. He did not say anything about it.

"Leon, are you not happy that I'm here?"

Seeing that Leon did not react, Roanne felt a bit nervous.

Ever since Leon started making his pills and slowly focused more on Cynthion Group, he rarely visited Elegante!

She started to miss him since she could not see Leon at the company that often!

She asked to visit their house precisely because she wanted to see Leon!

That was even though she already knew that Leon had a girlfriend, and knew that Leon was Iris' girlfriend!

However, since she was quite naive, she did not realize that she started to feel these sorts of feelings for Leon.

She just wanted to see Leon a bit more. She was already satisfied with that!

"How could I?! You and the THompsons helped us out a lot when Iris and Snow were attacked! I still haven't properly thanked you for that! Of course, I would welcome you coming over!" Leon said with a smile.

"That's good!"

Roanne smiled sweetly, finally calming down.

"That's right. What are you making Leon?" Ruth changed the topic at that moment as she asked.

"Oh, I'm making pills," Leon said simply.

"Pills? Didn't you already finish making your pills last time?" Cynthia was a bit uncertain when she heard that.

Before, Leon already made many high-level Pure Energy Pills and Energy Nurturing Pills. They were already prepared for Cynthion Group's second sales drive in the southern region!

That was something the girls all knew!

For that, she spread the news through Cynthion Group for the past two days. She started with the marketing, and planned on holding the second sales drive in a few days!

Yet, Leon was still making pills!

She was a bit confused, and could not understand why Leon was still at it!

"Oh, it's like this. I was lucky enough to get two amazing spiritual herbs yesterday. I've already made those herbs into pills, and am going to use them to help you all level up," Leon explained.

Since his position in the Dragon Corps was a secret, he could not reveal it so easily.

He kept the fact that he went to the western region to kill Poisonwielder a secret, not telling Iris and the others.

"What? Those pills are to increase your strength? Leon, are you serious?!" Ruth was very excited to hear that!

She was a fanatic when it came to martial arts. She did not care where Leon got the herbs from. She only cared that they would make her stronger!

Of course, Leon's Cleansing Pills and Pure Energy Pills already helped her get to the intermediate Overlord State!

If those pills could make her even stronger or even let her make another breakthrough, then it would be amazing!

Just thinking about that made her excited!

"Of course it's real! These pills are no worse than Cleansing Pills. They're even more effective!" Leon said as he retrieved the pills from the furnace.

Those pills were made with an amazing spiritual herb like the motherwort, but only twelve were formed!

They were much more valuable than the twenty-odd Cleansing Pills he made with half an Angel's Fruit!

The effects could only be better!

Of course, the Cleansing Pill's main function was to cleanse the body, while the motherwort was used to improve one's strength!

They were both good in their ways!
